

Headquarters
Department of the Army
Washington, DC
26 March 2025

***Army Regulation 700–84**

Effective 26 April 2025

Logistics

Issue and Sale of Personal Clothing

By Order of the Secretary of the Army:

RANDY A. GEORGE
General, United States Army
Chief of Staff

Official:

MARK F. AVERILL
Administrative Assistant to the
Secretary of the Army

History. This publication is a major revision. The portions affected by this major revision are listed in the summary of change.

Authorities. The authorities for this regulation are Title 10, United States Code, Section 7562, 37 United States Code, Section 418, 10 United States Code, Section 7621, Title 5 United States Code Section 5901, and 10 United States Code Section 772.

Applicability. This regulation applies to the Regular Army, the Army National Guard/Army National Guard of the United States, and the U.S. Army Reserve, unless otherwise stated.

Proponent and exception authority. The proponent of this publication is the Deputy Chief of Staff, G–4. The proponent has the authority to approve exceptions or waivers to this publication that are consistent with controlling law and regulations. The proponent may delegate this approval authority, in writing, to a division chief within the proponent agency or its direct reporting unit or field operating agency in the grade of colonel or the civilian equivalent. Activities may request a waiver to this publication by providing justification that includes a full analysis of the expected benefits and must include formal review by the activity's senior legal officer. All waiver requests will be endorsed by the commander or senior leader of the requesting activity and forwarded through their higher headquarters to the policy proponent. Refer to AR 25–30 for specific requirements.

Army internal control process. This regulation contains internal control provisions in accordance with AR 11–2 and it identifies key internal controls that must be evaluated (see appendix B).

Suggested improvements. Prior approval from the Deputy Chief of Staff, G–4 (DALO–SPT), Washington, DC, 20310–0500 is required for any supplementation of this regulation and for the establishment of command and or local forms. Users are invited to send comments and suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms) directly to the Deputy Chief of Staff, G–4 (DALO–SPT), 500 Army Pentagon, Washington, DC, 20310–0500.

Committee management approval. AR 15–39 requires the proponent to justify establishing/continuing committee(s), coordinate draft publications, and coordinate changes in committee status with the Office of the Administrative Assistant to the Secretary of the Army, Special Programs Directorate at email usarmy.pentagon.hqda-hsa.mbx.committee-management@army.mil. Further, if it is determined that an established "group" identified within this regulation later takes on the characteristics of a committee as found in AR 15–39, then the proponent will follow AR 15–39 requirements for establishing and continuing the group as a committee.

Distribution. This regulation is available in electronic media only and is intended for the Regular Army, the Army National Guard/Army National Guard of the United States, and the U.S. Army Reserve.

*This regulation supersedes AR 700–84, dated 22 July 2014

SUMMARY of CHANGE

AR 700–84
Issue and Sale of Personal Clothing

This major revision, dated 26 March 2025—

- Incorporates new Online Direct Ordering Program into policy (para 1–8).
- Incorporates changes related to the Central Issue Facility Conversion Project (para 1–12).
- Increases the authorization to issue serviceable condition code B stocks of clothing items (para 1–16).
- Incorporates Army Directive 2022–06 (Parenthood, Pregnancy, and Postpartum) (para 4–9).
- Changes civilian clothing allowance approval authorities to first senior executive service/general officer in chain of command (para 8–3).

Chapter 1

Introduction

Section I

General

1–1. Purpose

This regulation prescribes the policies, procedures, and responsibilities for the issue and sale of personal clothing to members of the Army, Army activities, and to Department of the Army Civilians (DACs). Organizational clothing is discussed to provide clarity between the two types of Army clothing. This regulation also describes systems for the maintenance, replacement, and disposition of such clothing, and it gives conditions under which these systems apply. Policies and procedures in this regulation are designed specifically for enlisted Soldiers (Regular Army (RA), Army National Guard (ARNG), and U.S. Army Reserve (USAR)), although limited policies or procedures may apply to officers, warrant officers, Army Senior Reserve Officers' Training Corps (SROTC), Junior Reserve Officers' Training Corps (JROTC), DACs, and Reserve Officers' Training Corps (ROTC) contracted employees. Further, it applies to other personnel or organizations supported under the clothing replacement allowance (CRA) or issue-in-kind systems, and Army military clothing stores (AMCS) operated by the Army and Air Force Exchange Service (AAFES).

1–2. References, forms, and explanation of abbreviations

See appendix A. The abbreviations, brevity codes, and acronyms (ABCAs) used in this electronic publication are defined when you hover over them. All ABCAs are listed in the ABCA directory located at <https://armypubs.army.mil/>.

1–3. Associated publications

This section contains no entries.

1–4. Responsibilities

See section II of this chapter.

1–5. Records management (recordkeeping) requirements

The records management requirement for all record numbers, associated forms, and reports required by this publication are addressed in the Records Retention Schedule–Army (RRS–A). Detailed information for all related record numbers, forms, and reports are located in Army Records Information Management System (ARIMS)/RRS–A at <https://www.arims.army.mil>. If any record numbers, forms, and reports are not current, addressed, and/or published correctly in ARIMS/RRS–A, see DA Pam 25–403 for guidance.

Section II

Responsibilities

1–6. The Deputy Chief of Staff, G–4

The DCS, G–4 will—

- a. Assist RA and Reserve Components (RCs), Army commanders, AAFES, and the Superintendent, U.S. Military Academy to ensure that business operations maximize efficiencies and economies of scale while complying with established policies and procedures.
- b. Provide advice on the development of policies and procedures for the Army Clothing Program.
- c. Seek consolidation and collaboration efforts between the RA and RCs to leverage assets that perform common or similar functions.
- d. Monitor the overall operation of the Clothing Monetary Allowance (CMA) System.
- e. Coordinate with the headquarters of AAFES about the operation of the AMCS.
- f. Participate in, or represent the Army at, Office of the Secretary of Defense (OSD), Defense Logistics Agency (DLA), or Joint Service meetings involving clothing matters.

g. Participate in periodic reviews of material obligations with Defense Logistics Agency–Troop Support (DLA–TS) inventory managers.

h. Chair the Army Uniform Board (AUB).

(1) The AUB is the primary review forum for clothing bag (CB), mess, dress, service, and optional-purchase uniform items.

(2) Per AR 70–1, the AUB conducts reviews on new or improved items and makes recommendations to the Chief of Staff, Army, for decision.

(3) The AUB reviews policies for the wear of new or improved clothing items. It meets as required, usually upon receipt of documentation from the AUB Working Group requesting the review.

(4) The required members of the AUB consist of the following:

(a) Chair, DCS, G–4.

(b) Co-Chair, DCS, G–1.

(5) Recommended voting members of the AUB consist of the following representation:

(a) Assistant Secretary of the Army (Acquisition, Logistics and Technology) (ASA (ALT)).

(b) Director, ARNG.

(c) Chief of Army Reserve (CAR).

(d) A representative from U.S. Army Training and Doctrine Command (TRADOC).

(e) A representative from program executive office (PEO) Soldier.

(f) A senior female officer on the Army General or Special Staff.

(g) Sergeant Major of the Army (SMA).

(h) A representative from the U.S. Army Forces Command.

(i) A representative from the U.S. Army Futures Command (AFC).

(6) The DCS, G–4 is authorized to appoint an associate AUB composed of officers and noncommissioned officers to provide advice on uniform matters.

1–7. The Director/Chief Executive Officer, Army and Air Force Exchange Service

The Director/CEO, AAFES will—

a. Operate the AMCS according to memoranda of agreement and policies established in Army regulations (ARs).

b. Maintain direct contact with Headquarters, Department of the Army (HQDA), Clothing and Services Office (CSO) and Army commands (ACOMs).

c. Report monthly the dollar value of AMCS inventory on hand to the (AMSTA–LCS–PSC), E–5027 Blackhawk Road, Aberdeen Proving Ground, Maryland, 21010–5424.

d. Submit monthly electronic billings for operating costs incurred in the operation of worldwide AMCS to the CSO (AMSTA–LCS–PSC), E–5027 Blackhawk Road, Aberdeen Proving Ground, Maryland, 21010–5424, and to the U.S. Army Tank – Automotive and Armaments Command (TACOM), Integrated Logistics Support Center, Business Management Directorate (AMSTA–LCB–F/Building 45, Room L–117) 15 Kansas Street, Natick, Massachusetts, 01760–1553. Billings will be broken out by installations and will cover the periods being billed.

1–8. Commander, U.S. Army Materiel Command

The AMC will oversee the TACOM commander for the management of the Central Management Office (CMO) and CSO, who will—

a. Help ACOMs, Army service component commands (ASCCs), the exchange, and the Superintendent, U.S. Military Academy, by making periodic management-assistance visits to AMCS and clothing initial issue points (CIIPs) to ensure compliance with established policies and procedures.

(1) Recommend corrective action when needed to improve service, inventory of items, or appearance of the facilities.

(2) Function as the Army focal point for exchange inquiries on policies, concepts, interpretations, methods, and systems concerning the Army clothing program.

(3) Participate in periodic reviews of material obligations with DLA–TS and other inventory managers.

(4) Process suggestions about the Army clothing program.

(5) Maintain records, obtain data, and develop reports, studies, and projects when requested by the DCS, G–4 (DALO–SPT).

(6) Budget for and reimburse the exchange for AMCS-related operating costs.

- (7) Program, budget, and manage the AMCS Army Working Capital Fund requirements for required clothing and Organizational Clothing and Individual Equipment (OCIE) items in the AMCS.
- (8) Budget for operation and maintenance, Army (OMA) funds for subsequent facility upgrades.
- (9) Consider consolidation and collaboration with the RCs to leverage assets that perform common or similar functions.
- (10) Determine the standard list of OCIE items for sale in the AMCS based on the items most frequently involved in Financial Liability Investigation of Property Loss (FLIPL)'s and submit the list to HQDA G-4 (DALO-SPT) for approval.
- b. In concert with the Director of Clothing and Heraldry and the Chief, CSO, ensure that the supporting Defense accounting officer pays the exchange for all properly documented noncash transactions made by the AMCS.
- c. Implement Online Direct Ordering (ODO) for OCIE accountability and Central Issue Facility (CIF) Reform.

1-9. Commander U.S. Army Reserve, and Chief, National Guard Bureau

The Commander, USAR and the CNGB will—

- a. Establish procedural guidance for the operation of a USAR and ARNG central clothing distribution (CCD) and will consider consolidating operations with other Army components to leverage available assets to gain efficiencies.
- b. Disseminate CCD policy and procedural guidance in the form of a National Guard CCD management plan (https://www.ngmmc.com/gmmc_news/downloads.asp) and a CCD User Handbook (Available at: <https://www.ngmmc.com/downloads/userhandbook.pdf>).

1-10. Commanders of Army commands, Army service component commands, and direct reporting units

Commanders of ACOMs, ASCCs, and DRUs will—

- a. Designate appropriate staff elements for communication with Headquarters, AAFES and CSO.
- b. Recommend policy or procedural changes to improve AMCS operations.
- c. If command requires changes to an AMCS, they will budget for and fund the required upgrades and facilities.
- d. Conduct unannounced spot checks of the AMCS and secure technical assistance from the CSO or chief of the applicable exchange region when necessary.
- e. Provide the CSO with information about and recommended solutions to any problem that cannot be resolved at the installation or ACOM levels.
- f. Ensure compliance with AR 210-20.

1-11. Senior commanders

Senior commanders in the RA will—

- a. Evaluate the responsiveness of AMCS service to customer needs and command requirements.
- b. Provide suitable buildings for operating the AMCS in accordance with the installation master plan. Ensure that additional facilities requirements comply with the installation master plan, in that existing assets are used effectively and efficiently, thereby justifying the need before initiating a new project.
- c. Determine the requirements for the establishment, disestablishment, and hours of operation of the AMCS and annexes, together with the installation AMCS manager for the best level of customer service and economy of operation.
- d. Ensure compliance with this regulation by all members and unit commanders under their jurisdiction.
- e. Conduct spot checks of the AMCS when considered necessary and secure technical assistance from the CSO, ACOM, or chief of the applicable Exchange AMCS region when necessary.
- f. Designate in writing an officer (or civilian) in charge of the CIIP if the installation has this activity.
- g. Take corrective action on inspections pertaining to their respective areas of responsibility.
- h. Budget and fund for the upgrade of a facility required by relocation of an existing AMCS. The DCS, G-4 will approve relocations of the AMCS, and the installation will fund the relocation. Notify the Commander, TACOM Life Cycle Management Command, (CSO and the Integrated Logistics Support Center, Business Management Office, Building 4 Room 143, AMSTA-LC-W-BA, Natick, Massachusetts, 01760-1553) of all upgrades and renovations.

- i. Coordinate with the AMCS manager and CSO, to request additional OCIE items for sale in the AMCS. CSO will submit the request to DCS, G-4 (DALO-SPT) for approval.
- j. Inform the AMCS manager of any operations, field training exercises, or changes in student loads that would increase or decrease demands.
- k. Ensure any test performed on the installation involving uniforms, footwear, and related items follow the rules established by the Army activity conducting the test. Ensure that the personnel involved in the test submit their evaluation reports to the designated addressee in the allotted time.
- l. Staff the CIIP with sufficient personnel to perform functions efficiently.

1-12. Unit commanders

Unit commanders will—

- a. Ensure the Department of the Army (DA) Form 3078 (Personal Clothing Request) only contains personal clothing items listed in the common table of allowance (CTA) 50-900.
- b. Maintain control on individual charge sales and keep the approval of such sales to a minimum (in compliance with para 3-10).
- c. Ensure that the duffel bag is properly marked in compliance with paragraph 1-17. Permanent marking is not authorized.
- d. Direct the inspection and inventory of personal clothing at least annually. The record of inspection and inventory will be recorded on DA Form 3078 (Personal Clothing Request) for RA Soldiers or on DA Form 4886 (Issue-In-Kind Personal Clothing Record) for RC Soldiers. However, commanders may permit Corporals through Sergeants Major to furnish statements that all their clothing and items are serviceable (as shown in para 1-12e for RA Soldiers and para 1-12f for RC Soldiers). Commanders may conduct inspections and inventories more often if they wish. Keep only the most recent inspection and inventory result on file. Clothing inspections and inventories will be conducted:
 - (1) On arrival to Advanced Individual Training.
 - (2) On completion of 6 months (180 days) of active duty service or assignment to first permanent duty station, whichever comes later, in compliance with paragraph 5-2b(3)(b).
 - (3) On arrival of newly assigned members in compliance with paragraph 11-2.
 - (4) At duty station on return from outside the continental United States (OCONUS).
 - (5) Before departure of members for OCONUS movement or other permanent change of station (PCS) move.
 - (6) Before departure of, and immediately upon return of, members attending a service school.
 - (7) At the discretion of a unit commander, except as stated in paragraphs 1-12d(1) through 1-12d(6).
- e. For RA Soldiers, ensure the following statement is documented on a Memorandum for Record annually with signature, rank, and date: "I, name and rank, have in my possession all personal clothing issued to me on DA Form 3078. All items are in the authorized quantities, serviceable, and meet the fitting and appearance standards in accordance with AR 670-1 and TM 10-227."

Note: Soldiers will replace shortages and unserviceable items at their own expense.

- f. For RC Soldiers, ensure the following statement is documented on a Memorandum for Record annually with signature, rank, and date: "I, name and rank, have in my possession all personal clothing issued to me on DA Form 4886. All items are in the authorized quantities, serviceable, and meet the fitting and appearance standards in accordance with AR 670-1 and TM 10-227."

Note: Soldiers will replace shortages at their expense. Items found to be unserviceable due to fair wear and tear (FWT) will be turned in and replacements requested.

- g. Ensure that enlisted Soldiers under their command obtain these allowances:
 - (1) Initial allowances of personal clothing during initial processing.
 - (2) Required supplementary allowances of personal clothing, if applicable, as approved by the DCS, G-4 (see para 4-7).
- h. Ensure that authorized personal clothing is in the possession of Soldiers, and that clothing is always serviceable.
- i. Ensure that initial allowance of personal clothing items sold at AMCS is properly fitted and, if required, altered at the time of issue or sale.
- j. Ensure Soldiers have access to AMCS (facilities or online), and alteration facilities as required.
- k. Ensure that uniforms are properly fitted in accordance with TM 10-227 and AR 670-1.

- l. Ensure that clothing is worn as prescribed.
- m. Ensure that Soldiers understand that they are not required to buy items in excess of authorized allowances.
- n. Ensure that members are aware of the prohibition to sell, give, loan, barter, or pledge Army uniform clothing to unauthorized persons.
- o. Ensure Soldiers understand obtaining clothing or OCIE from the DLA Disposition Services or a commercial surplus store to exchange for serviceable items is not authorized.
- p. Commanders will inform Soldiers that the only authorized location to procure OCIE is the AMCS, and that any OCIE procured from the AMCS remains Army property. If a FLIPL has found the Soldier liable for losing/damaging an OCIE item, they will encourage the Soldier to procure the replacement OCIE items from the AMCS as preferred method over a cash collection or payroll deduction. Upon PCS, expiration of term of service (ETS), or retirement, Soldiers must turn in their OCIE either at the servicing CIF or through the ODO process. Commanders will follow the appropriate accountability procedures outlined in AR 735–5 for lost, stolen, damaged, or destroyed OCIE. CTA 50–900, appendix B, lists OCIE items that are considered uneconomical for the Government to recover. At ETS, if a Soldier is missing an item in CTA 50–900 appendix B there is no loss to the Government, no FLIPL is required, and the Soldier is not liable for the items. Prior to ETS, the items in CTA 50–900 appendix B are accountable; if they are lost and require replacement, a FLIPL is required to determine if the Soldier is liable.

1–13. Finance officers

The finance officer will start/stop the necessary action for the payment of authorized monetary allowances and collections against pay for individual charge sales.

1–14. Enlisted Soldiers

RA and Active Guard Reserve (AGR) enlisted Soldiers receive a CRA to assist in maintaining their personal clothing; this includes supplemental allowances in compliance with paragraphs 4–5 and 4–6. ARNG or USAR enlisted Soldiers receive issue-in-kind items from the CCD system. All Soldiers, including officers and warrant officers, will always—

- a. Have in their possession, in serviceable condition, the items and quantities of personal uniform clothing prescribed in CTA 50–900, tables 1 and 2.
- b. Maintain a professional military appearance. Ensure their uniforms fit properly, and that they wear them in a military manner.
- c. Replace clothing items as required with either the standard Army issue item or AUB authorized optional items.
- d. Safeguard their uniforms and equipment while under their control. During movement, Soldiers will take all reasonable measures to ensure items remain secure and will comply with all orders and instructions for proper transportation.
- e. When using approved optional items bought from commercial sources, make sure the items are certified by the project manager, Soldier survivability, and meet the specifications for the like design, shade, cloth, and fit of the military item.

1–15. Authority

- a. *Statutory authority.*
 - (1) Title 10, United States Code, Section 7562 (10 USC 7562) authorizes the President to prescribe the quantity and kind of clothing furnished to Servicemembers.
 - (2) 37 USC 418 also authorizes the President to prescribe the amount of cash allowance to be paid to enlisted Soldiers when clothing is not furnished.
 - (3) 10 USC 7621 authorizes the sale of clothing.
 - (4) 5 USC 5901 authorizes the amount of cash to be provided to civilians for the purchase of approved DA uniforms and footwear when required for wear during field exercises conducted by the military.
 - (5) 10 USC 772 authorizes the wear of the uniform by retirees, select former Soldiers, and select civilians.
- b. *Delegation of authority.* By Executive Order 10113, the President delegated the functions vested in 37 USC 418 to the Secretary of Defense.

1–16. General provisions

a. Regardless of the system or method used to furnish enlisted Soldiers with individual clothing, nothing in this regulation will prohibit the recovery of clothing when it is in the best interest of the Government to do so and when the HQDA so directs. This regulation will not restrict the Army in exercising control over personal clothing. Procedures may be modified, if necessary, to adapt to automation.

b. Any departure from provisions of the clothing allowance system will require prior approval from the ASA (ALT).

c. The mission of the AMCS is to provide military clothing and select replacement OCIE items available through cash and individual charge sales to Soldiers and other authorized personnel.

d. TM 10–8400–201–23&P provides proper fitting instructions for clothing and footwear. When Soldiers receive an item in the incorrect size from the CCD, they cannot exchange those items at the AMCS.

e. Articles of outer personal clothing (Army Green Service Uniform (AGSU) items and all-weather coats) issued as part of the initial allowance or bought by enlisted Soldiers from an AMCS will be altered, if required, to fit the Soldiers. Authorization to alter the Operational Camouflage Pattern (OCP) is only if no standard tariff size properly fits the Soldier. During the first 6 months (180 days) of active duty service:

(1) The Government will incur the cost of alterations to outer clothing made during the first 6 months of service or through the completion of initial entry training (IET), whichever occurs last. Replacement is authorized from the AMCS when physical profile changes during the first 6 months (180 days) of service are such that the cost of alterations to outer individual clothing would exceed the cost of replacement (cost of replacement less reissue or resale value of replaced items). The priority of issue is from stocks of serviceable condition code B. The AMCS manager will decide whether replacement is more economical than alteration. Commanders will authorize the exchange or alteration by processing Soldiers through the CIIP or AMCS (see para 5–11).

(2) Whenever possible, the CIIP will exchange misfit clothing and footwear for IET Soldiers before their departure for their next duty station. The clothing and footwear of Soldiers will be in accordance with AR 670–1 and TM 10–227.

(3) Soldiers may exchange misfit footwear within 90 days of initial issue. Commanders will authorize the exchange of footwear by processing Soldiers through the CIIP or AMCS (see para 5–11).

(4) After the first 6 months (180 days) of service, except at the time of issue or sale, alteration to personal clothing will be at the expense of the Soldiers.

f. Repairs to individual clothing and footwear after the first 6 months (180 days) of initial issue or after 90 days of service will be at the expense of the Soldiers.

g. The Secretary of the Army may exempt certain areas from providing a CRA System. In those exempted areas, replace personal clothing worn out through FWT through the issue-in-kind system. Under such a system, except in combat areas, the Soldiers affected will incur the costs for dry-cleaning, pressing, or laundering. Government or contractual laundry and dry-cleaning facilities will be available for areas specifically exempted. In combat areas (field laundry only) dry-cleaning, pressing, or laundering will be at Government expense. These services will be provided through necessary processing of items and returning to wearers or through exchange of soiled items for clean ones. Repair or alterations are at Government expense for enlisted Soldiers OCIE under the issue-in-kind system. Chapters 14 and 15 provides the normal issue-in-kind process for the USAR and ARNG.

h. When stock sizes (tariff) and/or alterations cannot provide the proper fit, Soldiers can submit requisitions for special-measurement clothing in compliance with paragraph 7–2 of this regulation.

i. Soldiers can submit requisitions of special-measurement footwear in compliance with paragraph 7–3 of this regulation.

j. Soldiers can submit clothing and footwear for members allergic to fabric, dye, or metal in compliance with paragraph 4–10 of this regulation.

k. Orthopedic footwear is a medical appliance and will be obtained through medical supply channels from the Veterans Administration (see AR 40–3). Conditions for issue of orthopedic footwear as medical appliances—

(1) An orthopedic professional will manufacture the footwear.

(2) Enlisted Soldiers must provide the footwear when requesting the Government pay for orthopedic alterations to standard footwear.

l. Policy for issue or sale of personal clothing to ROTC cadets and institutions is in chapters 9 and 10 of this regulation.

m. Basic policies covering the condition, appearance, and serviceability standards of clothing are in TM 10–8400–201–23&P. The CIIP and AMCS priority for issue or sale of service and utility uniforms is (including misfit exchanges):

(1) *First*. Limited or substitute standard condition code B (used) 75 percent remaining wear, fully serviceable, meeting the standards for appearance.

(2) *Second*. Limited or substitute standard condition code A (new).

n. Each AMCS will maintain DA Form 7000 (Delegation of Authority—Army Military Clothing Stores) for all commissioned officers authorized to approve or sign requests for noncash transactions on DA Form 3078. See paragraph 5–2 for more information about DA Form 7000.

o. The CIIP will maintain DA Form 1687 (Notice of Delegation of Authority—Receipt for Supplies). See AR 710–4 for guidance on DA Form 1687.

p. The procedures for submitting the DA Form 3078 are the following:

(1) CIIP will use the Army Personal Clothing Request (APCR) system to prepare the DA Form 3078 for any unfilled shortages during initial issue.

(2) Unit supply personnel will coordinate with TACOM CSO to establish APCR accounts and use this system to prepare the DA Form 3078 when Soldiers arrive with unfilled shortages that are not captured in APCR.

(3) Unit commanders will use APCR and approve the DA Form 3078 in accordance with paragraph 1–12 and will forward it electronically to the CSO (<https://da3078.natick.army.mil>; individual account needed).

(4) After approval from the CSO, the system will auto generate an email notification to the supply representative to pick up the requested item at the nearest AMCS.

(5) In the event of a net-centric failure or power outage, a hard-copy DA Form 3078 is authorized.

(6) Regardless of the method, appropriate completion of the form, as well as proper documentation as appropriate, are required. See paragraph 3–11 for more information about completing DA Form 3078.

1–17. Identification marking

a. Permanent marking of Government property is not authorized. Commanders are not authorized to direct Soldiers to permanently deface Government property. Personnel will not stencil or use other permanent markings on individual equipment. If unit commanders determine that additional identification (ID) is required, appropriate sew-on tags may be used.

b. The side-loading duffel bag has a clear plastic pocket on the end to display ID information. Insert a document showing the Soldier's rank, last name, first name, and middle initial, Electronic Data Interchange Personal Identifier (EDIP), and unit assignment (typed or handwritten).

c. The use of reinforcement tape (100 miles an hour/duct tape) is authorized for use to temporarily mark duffel bags that do not have the clear plastic pocket or if the clear plastic pocket is not serviceable.

Chapter 2

Army Military Clothing Stores

2–1. Introduction

This chapter provides policies and procedures for AMCS. Procedures may be modified, if necessary, to adapt to automation.

2–2. Establishment and closure of Army military clothing store

The CSO, with coordination through DCS, G–4 Troop Support Division (DALO–SPT), may establish an AMCS at installations servicing 300 or more Army personnel, or may close where fewer than 300 Army personnel are serviced. The senior commander will request to establish or close an AMCS, after coordination with the installation AAFES manager, through the ACOM to the CSO (AMSTA–LC–SPS), E–5027 Blackhawk Road, Aberdeen Proving Ground, Maryland, 21010–5424, for approval by the CSO. ACOMs must provide funds for initial upgrade or movement based on the estimated annual sales of Army items.

2–3. Display of clothing items

a. Displays will clearly distinguish authorized clothing, approved optional clothing items, and strictly commercial items to ensure Soldiers understand which items they are buying. Displays that are neat and

attractive create a modern retail atmosphere. Types of displays may vary from one AMCS to another; however, displays must be designed with customers and Army requirements in mind. Information and display signs will be in good taste and professional in appearance and workmanship. Prominently display prices of clothing items stocked in each AMCS.

b. Install large mirrors in selected locations to enable clerks and cashiers to see any part of each AMCS which otherwise might be obscured by display cases. The AMCS will contain readily accessible dressing rooms and mirrors for use by patrons.

c. Displayed merchandise will be readily accessible with sizes and prices visible. Display shirts, drawers, and socks by size. Adjust lighting to give the best effect on displayed items.

d. Steam or press Army Service Uniform (ASU)/AGSU coats, trousers, slacks, and skirts for sale or issue that have wrinkles, before placing on display racks.

e. Properly fit garments displayed on mannequins or forms.

f. If necessary, clean, steam, press, or reclassify shopworn garments. Protect items displayed on open shelves and open racks to prevent deterioration.

g. Separate condition code B, 75 percent wear items (used), from new items. Properly tag these items for ready ID as serviceable clothing. Remove all rank insignia from serviceable used clothing items offered for sale or issue. If obvious discoloration is noticeable after removal of the insignia, reclassify the item and transfer to the DLA Disposition Services. For medical reasons, the AMCS will not accept dirty or soiled serviceable used items.

h. Unpack and hang clothing on racks in a standby area or warehouse to allow wrinkles to diminish before hanging them in the AMCS.

i. Attach sizes of uniform items to the sleeves of coats or on trousers or skirts by clips or other methods. This will aid the customer in finding the correct size, minimize handling, and maintain stocks in the proper place.

2-4. Customer service

a. Evaluate complaints of unsatisfactory service or merchandise—and take them seriously—with the intent to improve customer satisfaction.

b. Assign responsible personnel to operate AMCS. Personnel must always present a neat appearance. They must show a friendly, gracious, welcoming attitude toward all customers. All AMCS personnel and managers will strive to provide outstanding customer service.

c. Maintain inventory levels to support demands.

d. When possible, locate the AMCS in the center of community activity.

e. The AMCS operating hours will provide optimum shopping time for supported members. Operating hours similar to other personal-service activities are most helpful and advantageous. Prominently display AMCS hours outside the building. If the AMCS is sharing a building with multiple tenants, ensure the sign indicates that there is an AMCS located inside. Inform customers well in advance of any change to operating hours. This is particularly important if the AMCS intends to close at times such as holidays or for inventories. The installation daily bulletin is a good source to announce this information. The AMCS will always be open at the published times, and patrons will be welcome to enter the AMCS until the published closing time.

f. Furnish information on item shortages to the patrons as a courtesy. Consider the use of appropriately worded signs within the AMCS, denoting shortages and soliciting customer understanding.

g. When alterations to clothing at Government expense are authorized, expeditious processing will prevent inconvenience to customers. Alteration is free to enlisted Soldiers for Army standard items. Alteration is not free to officers. Desired service time will be one to four days. When alterations at Government expense are completed, press coats and trousers that have wrinkles. When possible, locate the alteration facility close to the AMCS for customer convenience. Commercial sources with alteration contracts will establish pickup and delivery schedules convenient to the AMCS and customers.

2-5. Fitting uniforms

a. The Army has a high standard of dress and appearance for its members. To maintain this high standard, each AMCS must ensure that garments are available, free of defects, and properly fit the Soldier at the time of sale or issue. A properly fitted uniform gives Soldiers the feeling of being well dressed, creates high morale, and presents a professional military appearance. Soldiers will try on uniforms and have proper fit confirmed by trained clothing fitters prior to sale or issue; this does not apply to mail-order

purchases. This is important because garments of a given size may vary, and different people have different physical features. Only by trying on each garment can it be determined that the approved fit has been achieved.

b. Commanders will not require (and will discourage) all members from making unauthorized alterations. This includes unit commanders and commanders or commandants of service schools, officer candidate schools, noncommissioned officer schools, and academies. Garments that have undergone unauthorized alterations, such as form-fitting, pegging, or tapering, are not accepted for turn in, exchange, or reissue. The replacement of these garments will be at the expense of the Soldiers involved.

2-6. Quality control

To maintain a high standard of quality, managers must report all deficiencies found in clothing items during inspection. Managers will notify the CSO of any deficiency and will request the submission of Standard Form (SF) 368 (Product Quality Deficiency Report (PQDR)) electronically at <https://www.gsa.gov/portal/forms/type/sf>.

2-7. Inventory of personal and organizational clothing

a. Maintain reasonable availability (for sale or issue) of clothing items and accoutrements designated as personal clothing for male and female members. Special order low demand items as required. Do not stock items that do not meet Army specifications (commercially procured) without authorization from the DCS, G-4 (DALO-SPT).

b. The AMCS may stock a selection of merchandise designated as OCIE (see CTA 50-900). The CSO will select items that are most frequently involved in FLIPL's, will coordinate with the installation or community commander and AMCS manager for location specific items, and will submit recommendations of items to stock in the AMCS for DCS, G-4 (DALO-SPT) approval. A request for approval must include the proposed items and the estimated dollar value of the initial inventory of OCIE. The AMCS must maintain a copy of the approved OCIE list on site.

c. The purpose of OCIE sales is to permit the replacement of lost, damaged, or destroyed property for which members are financially liable. All OCIE bought at an AMCS, regardless of who pays for it, always remains Government property. This includes OCIE maintained at schools that host ROTC programs and all OCIE or Government property issued to them in support of the ROTC programs in accordance with AR 710-2. OCIE items available for sale are not to be used to duplicate sets of OCIE for displays or inspections, and they are not to be used for any purpose other than Government-related missions. The OCIE sold in an AMCS is not authorized for personal use such as camping or Scout activities.

d. OCIE is not for sale to local citizens of foreign nations. Unit commanders may authorize foreign students to buy replacement items lost, damaged, or destroyed for which a person is liable. Commanders will provide a letter to the AMCS authorizing the foreign student to buy the OCIE for the above purpose.

e. AMCS procures personal clothing and OCIE items from DLA-TS based on a memorandum of understanding between DLA-TS and AAFES. AMCS will establish a memorandum of understanding with the vendor or integrator if a vendor-direct method is used. These items are included in Federal Stock Classes 7210 and 8305-8475.

2-8. Cross-service support agreements

a. The local AAFES or AMCS management will coordinate with the senior commander and the CSO to initiate or terminate cross-service support agreements for AMCS support for requiring activities. AMCS management will establish a cross-service support agreement in writing to stock DLA-TS items of other services (non-Army).

b. If the host installation has members of another military service assigned, the local AMCS has a requirement to offer the sale of uniform clothing or accoutrements, unique to the other (tenant) service. The level of support provided will vary, depending on the items requested, number, and types of tenant members assigned, physical space available, and the alternative means to support (special order, mail-order, or online catalog).

(1) The unit commanders of the other services must validate their requirements by submitting formal memoranda through the AMCS to the host commander, who endorses back "approved or disapproved" to the exchange manager, who sends these documents to the exchange headquarters for review; the CSO grants or withholds final approval.

(2) The request should state how many members (officer and enlisted) require support. Attach a list of the requested military clothing items. The CSO will consider only items for which there is a genuine need. After coordination is complete, the AMCS will maintain a file copy for review by inspectors and higher headquarters.

Chapter 3

Military Clothing Sales Procedures

3-1. Authorized patrons

Members listed below may buy military clothing and OCIE items authorized for wear and use by the individual buyers, subject to limitations in this regulation.

a. Officers, warrant officers, and enlisted Soldiers of the RA, Navy, Air Force, Marine Corps, and Coast Guard on the active and retired lists.

b. Officers, warrant officers, and enlisted Soldiers of the RCs of the Armed Forces on active duty, retired, or granted retirement pay because of physical disability.

c. Officers, warrant officers, and enlisted Soldiers of the RCs of the Armed Forces who—

(1) Are not on active duty while in a Reserve pay status.

(2) Are not in a Reserve pay status; however, are required to wear the uniform while employed by the RCs for participating in training assemblies, or they have orders for future active duty training.

d. Red Cross uniformed personnel and American National Red Cross-Service Program and Army utilization personnel (see AR 210-22).

e. Civilians assigned to OCONUS commands and contract surgeons of the Armed Forces who are authorized or required to wear the uniform.

f. Cadets of the U.S. Military Academy.

g. Foreign military personnel receiving training in the United States (see AR 12-15). A letter or statement from the allied training officer (showing student's name, items, and quantities authorized) will be presented to the AMCS at the time of purchase.

h. Foreign military personnel assigned to accredited military attaches and missions.

i. Commissioned officers of the Public Health Service on active duty, retired, or granted retirement pay because of physical disability.

j. DACs and exchange associates required to wear military items during field exercises. Individuals may procure the items from AMCS, or commanders can use Government purchase cards to buy items for these individuals. Proper ID, along with a commander's statement (listing clothing items required, and quantities requested) will be presented to the AMCS at the time of sale (see para 3-7 for procedures). Insignia for DACs, as shown in AR 670-1, will be attached and worn on the Civilian uniform. Insignia will be obtained through normal supply channels.

k. Army ROTC cadets and faculty members of institutions hosting Army cadets (see para 9-1c). The applicable Professor of Military Science (PMS) will authorize the purchase by memorandum, listing the names of faculty members and cadets, to the AMCS manager. All sales will be at no cost to the Government.

l. Department of Defense (DoD) contractors from the Armed Forces Radio and Television Service are authorized to buy uniform items from the AMCS for producing television spot announcements.

m. Select former Soldiers who served honorably in time of war (declared or undeclared), whose most recent discharge from the Army was under honorable conditions (see para 3-3k for procedures) may buy the service or dress uniform; however, they are not permitted to buy the OCP (see AR 670-1 and 10 USC 772).

n. A Family member, acting as the agent for a military member, on active duty for more than 30 days, may buy items from the AMCS for the military member. The designated family member must present DD Form 1173 (Uniformed Services Identification and Privilege Card) and must attest (with a letter or verbal statement) that the items are for use by the military member.

3-2. Identification of patrons

People buying or receiving issues of clothing and equipment from an AMCS must establish their identity as authorized customers. Acceptable ID includes a valid Armed Forces ID card or DAC ID card, as appropriate. This applies to both physical storefronts and online purchases. Patrons must present valid ID to

the AMCS personnel. For online sales, personnel must set up an online account and the AMCS must validate the information before granting access.

3–3. General limitations on sales

a. Sale of the uniform and distinctive parts of the uniform are restricted to members of the Army unless otherwise authorized by law in accordance with AR 670–1 and 10 USC 771.

b. Sales to prospective enlisted graduates of officer candidate schools will be made as follows:

(1) Before making the sale, the officer candidate must present to the AMCS manager a statement of qualification signed by the school commandant or an authorized representative. The statement must indicate that the officer candidate is qualified and is expected to graduate.

(2) Items of officer clothing and insignia prescribed for graduation exercises and additional items required for wear after graduation and commissioning may be fitted, altered, and sold for cash, or, before graduation, they may be set aside up to four weeks for sale after graduation and commissioning.

(3) Candidates who fail to graduate do not need to pay for alterations or for garments that have been set aside. If uniforms set aside for sale after commissioning are not bought because a candidate failed to graduate, the AMCS will—

(a) Return unaltered garments to stock.

(b) Sell altered garments to other authorized buyers, if possible.

(4) Candidates successfully completing the course are required to buy any uniforms set aside for sale after graduation.

c. Distinctive items of the Army uniform will not be sold to officers or enlisted members of other military departments or to foreign military personnel (see AR 670–1 for clothing listed as distinctive).

d. Enlisted Soldiers cannot buy distinctive officer uniform or ID devices unless they are Reserve officers on inactive duty or are officer candidates.

e. Red Cross personnel, civilians assigned to OCONUS commands, and civilian faculty members of ROTC institutions hosting senior ROTC cadets can buy required items.

f. Sales to officers, warrant officers, and enlisted Soldiers of the RCs of the Armed Forces will be limited to items of the uniform authorized for wear in performing their military duty.

g. Sales to retired members of the Armed Forces are limited to service, dress, and mess uniforms (including accessories), footwear, physical fitness uniforms, and undergarments. See AR 670–1 for policy on the wear of ASUs and accessories by retired members.

h. Army retired members serving as JROTC instructors are authorized to buy required clothing, including the OCP and accessories, for themselves. Purchases will be at no expense to the Government. The brigade or region headquarters (RA or RC) commander will authorize the purchase by memorandum to the AMCS manager.

i. Disabled American Veterans honorably discharged from the Army on 100 percent disability, who can provide proof of that disability, are entitled to buy the service, dress, and mess uniforms (including accessories), associated footwear, and undergarments. See AR 670–1 for policy on wear of service, dress, and mess uniforms (including accessories).

j. Select former Soldiers who served honorably in time of war (declared or undeclared), whose most recent discharge from the Army was under honorable conditions, can buy specific uniform items.

(1) Periods of war or campaigns, declared and undeclared, are defined in AR 600–8–22.

(2) This authorization is restricted to specific uniform items (service, mess, and optional dress uniforms) and accessory items (headgear, insignia, medals, and ribbons) required for wear during specific occasions in accordance with 10 USC 772 or AR 670–1.

(3) All other select former Soldiers who have honorable discharges or have been discharged from the Army under honorable conditions may buy insignia, medals, and ribbons for display. Those former Soldiers may buy additional medals for wear with civilian clothing as permitted by AR 670–1.

(4) This policy does not apply in areas where international agreements prohibit the use of AMCS by retirees and select former Soldiers.

(5) This authorization does not include utility uniforms, accessory items, OCPs, boots, and items commonly available from commercial sources, such as black socks, white underwear, handkerchiefs, and black dress shoes.

(6) Buyers must first obtain permission from the senior commanders or their representatives to gain access to the installation.

(7) Commanders or their representatives will determine the intended use of the items, and they will advise the buyers of the current wear policy in accordance with AR 670–1.

(8) At the time of purchase, each buyer must present to the AMCS representative a proof of honorable discharge or discharge under honorable conditions along with a government issued photo ID card.

(9) For convenience, the DD Form 214 (Certificate of Uniformed Service), copy number 4, may be photocopied, reduced, and laminated at the buyer's expense.

3–4. Pricing

a. Clothing and footwear prices are contained in the DoD FedMall (available at: <https://www.dla.mil/working-with-dla/applications/fedmall/>) The AMCS will—

(1) Issue or sell special-measurement clothing and footwear to enlisted Soldiers using the prices in the DoD FedMall.

(2) Sell special-measurement clothing and footwear to officers using the prices in the DoD FedMall.

(3) Sell condition code B clothing (75 percent wear remaining) at 50 percent of the DoD FedMall price.

(4) Sell special-measurement clothing at the current price of like items.

b. Alteration costs will be set prices and contract operations will be approved by the CSO in advance. Prices will be at the amount best representing the total cost of the service. Collections for services will be credited as appropriation reimbursements.

3–5. Exchange on sales

a. The exchange of a DLA–TS garment or AMCS item is permitted, provided that the item is in the same condition as it was at the time of sale and bought from the AMCS. Proof of purchase (cash-register receipt) must be presented.

b. AMCS will not exchange an item because of improper fit if it is showing signs of FWT regardless of the date of sale.

c. Process for items with defects in workmanship or material—

(1) There is no time limit for returning defective DLA–TS items to an AMCS as long as the AMCS manager validates it is a product defect and not caused by FWT.

(a) All defective items returned without receipts must have valid Government contract numbers in the inside tags. Items without tags or Government contract numbers will not be accepted for return.

(b) AMCS will not accept defective items bought from an Army surplus store or commercial enterprise.

(2) AMCS will authorize repair of Government items, at Government expense, if it is economical to repair, and if the repairs would not cause visible defects.

(3) AMCS will exchange returned non-repairable Government items. The AMCS manager will follow guidelines set forth in paragraph 2–6. AMCS will not exchange OCP's due to changes in coat and trouser color/shade variations.

3–6. Sales

a. Payment may be made with cash, personal credit card, personal check, certified check, travelers' check, fund cite, or money order made payable to AAFES. AMCS managers will not—

(1) Accept a check from anyone if there is reasonable doubt that the check can be collected.

(2) Accept a postdated check.

(3) Cash a check as a matter of convenience.

(4) Accept a personal check for an amount exceeding the purchase price unless the transaction falls within the check-cashing policies of the AAFES involved.

(5) Accept a two-party check needing an endorsement.

b. When a cash-register is used, all cash sales will be registered at the time of each sale. The AMCS manager or a representative other than the cashier will verify cash sales daily. Only these two people will have access to the cash-register tape.

c. Cash refunds for returned merchandise are authorized. Cash refunds are made only if the items returned are in a new and unused condition. Each customer must show proof of purchase from AMCS.

3–7. Purchase of utility uniforms for civilians

a. Commanders may authorize OMA funds, through use of the Government purchase card, for the purchase of uniforms, undershirts, footwear, and other uniform-related items for civilian personnel. Name-tapes, nameplates, and insignia will be furnished and attached at Government expense.

b. Members who are emergency-essential and on signed mobility agreements will keep clothing while assigned within the program.

c. Upon termination of requirements, the members involved will return recoverable items to the appropriate supporting activity.

3-8. Purchase of uniforms for members of other services participating in Joint command exercises

a. ACOMs supporting Joint command exercises may not authorize the purchase of the OCP. Footwear for members of other services may be authorized for participation in field exercises.

b. Army commanders will not authorize the purchase of uniform items unless the joint command agency of the Servicemember provides OMA funds, and the Joint commander or their representative signs a statement verifying the request and authorizing the Joint command agency to release OMA funds.

c. The AMCS will not issue clothing to any person required to buy the clothing or to have it in their possession.

d. Upon reassignment, any such person will return recoverable clothing to the appropriate supporting unit. Recoverable clothing will remain as Government property.

e. Any such supporting unit will establish and maintain a clothing pool of recoverable items to support the Joint agency.

f. Uniforms will be issued to the members involved on DA Form 3645-1 (Additional Organizational Clothing and Individual Equipment Record).

g. The members will keep issued non-recoverable items.

3-9. Deferred-payment plan for uniform clothing through the use of the Military Star Card

In accordance with procedures established by the Director or CEO, Exchange, the AMCS will provide a deferred-payment plan for uniform clothing for the sale of uniforms, uniform accessories, and footwear.

3-10. Individual charge sales (by payroll deductions) to enlisted Soldiers on active duty

Unit commanders will initiate individual charge sales (by payroll deductions) only for Soldiers in a pay status and with at least 60 days of active duty remaining before the scheduled discharge or separation date of an applicant Soldier. Annotate in the "remarks" block of DA Form 3078 the date of a Soldier's separation or discharge. If the Soldier is in an undetermined confinement status or has been ordered to a confinement or correctional facility, the date of departure from the installation must also be stated.

a. Individual charge sales (by payroll deduction) are authorized to cover the emergency needs of an enlisted Soldier who is without funds to buy essential clothing needed for health and welfare. The requirement to make up shortages for an inspection is not considered as an emergency, nor will an individual charge sale be authorized if the Soldier can wait until the next regular pay-and-allowance is received.

b. Valid emergency needs that could contribute to an individual being without funds are—

- (1) Fire or theft of clothing.
- (2) Return to military control from unauthorized absence.
- (3) Release from confinement to duty.
- (4) Undue delay in receipt of pay-and-allowance.
- (5) Loss of personal funds.
- (6) Qualified compassionate reasons.

c. Individual charge sales are not authorized for—

(1) Soldiers in a non-pay status or Soldiers with fewer than 60 days of active duty remaining before separation or discharge.

(2) OCIE items.

(3) Purchase of commercial items.

d. All individual charge sales will be charged to the respective enlisted Soldiers' Military Personnel, Army (MPA), appropriation.

e. When an enlisted Soldier meets the criteria for a charge sale but is unable or refuses to sign the DA Form 3078, the appropriate unit commander may certify on the DA Form 3078 in the remarks section that:

- (1) The Soldier received the clothing.
- (2) The issuance of the clothing was necessary.
- (3) The Soldier could not or would not sign the DA Form 3078.

3-11. Processing individual charge sales (by payroll deduction)

Unit supply personnel will use DA Form 3078 in conjunction with DD Form 139 (Pay Adjustment Authorization) when processing an individual charge sale.

a. Preparation. Supply personnel responsible for the enlisted Soldier will prepare the DA Form 3078 original and make three copies. Copy 3 will be kept in the unit records. Place a check in the Individual Charge Sale block, and place the below information in the Remarks block—

- (1) The date of separation or discharge.
- (2) The date of departure from the installation if scheduled for confinement.
- (3) A statement giving the reason for issue.
- (4) A statement indicating that payment will be deducted from the Soldier's pay.

b. Verification. A Soldier-buyer will present the original and two copies of DA Form 3078 and DD Form 139 to the local finance office or servicing office of the Defense Finance and Accounting Service (DFAS) to verify the Soldier's pay status.

(1) If the Soldier is not assigned to the installation, the DA Form 3078 will be presented to the installation finance office servicing the AMCS.

(2) If the Soldier's servicing DFAS is not at the same installation as the DFAS servicing the AMCS and is not a Defense Joint Military Pay System (DJMS) input station, the DFAS will contact the Soldier's servicing finance office to verify the Soldier's pay status. If the Soldier's servicing finance office cannot be determined or contacted, then contact DFAS (Inquiries Division) by telephone or email to verify the Soldier's pay status.

(3) Verification and the symbol number of the disbursing station will be entered on DA Form 3078, and DD Form 139 must be authenticated by the local finance office or DFAS authorized representative. This applies regardless of whether the Soldier is or is not on the DJMS.

(4) Return all copies of DA Form 3078 and DD Form 139 to the Soldier.

c. Processing and purchase. The Soldier will present the original and two copies of DA Form 3078 and DD Form 139 to the AMCS sales associate for processing at the time of the purchase.

(1) The sales associate will check DA Form 3078 and DD Form 139 to ensure that the local finance officer or DFAS has verified the Soldier's pay status.

(2) The sales associate will prepare the original and two copies of DA Form 3078 as follows:

(a) Enter the quantities sold in the "Issued" column.

(b) Show the condition if other than new.

(3) The cashier will verify the signature of the Soldier and sales associate's entries and will compute the total value of the sale. The Soldier will acknowledge receipt of the purchase by signing the original and two copies of DA Form 3078 and DD Form 139 in the space provided. One copy will be given to the Soldier.

(4) The AMCS will keep one copy of the DA Form 3078 and one copy of the DD Form 139.

(5) The AMCS will bill for individual charge sales by creating an invoice and forwarding it to the CSO. The AMCS will identify the invoice as an individual charge sale and enclose a copy of the DA Form 3078 and DD Form 139. Additional examples of a completed DA Form 3078 are available on the CSO website at <https://www.tacom.army.mil/ilsc/groups/lcs/cp/cso/index.htm>. The required quantities of clothing listed on the DA Form 3078 examples are subject to change based on updates made to CTA 50-900. The AMCS will bill for each individual charge sale by creating an invoice and forwarding it to the CSO. The AMCS will identify the invoice as an individual charge sale and enclose a copy of the DA Form 3078 and DD Form 139. The CSO has developed the "DA Form 3078 Sample Booklet" to help unit commanders, supply personnel, and AMCS managers and store associates in preparing the form. The samples are based on policy outlined in AR 700-84 and CTA 50-900. This regulation takes precedence over any inconsistencies noted in the CSO sample booklet.

3-12. Internet sales or sales through the Exchange call center

a. Introduction.

(1) People authorized to buy from AMCS may order from their website at <https://www.aafes.com>, or they may order by calling the telephone numbers listed below:

Order by phone: (800) 527-2345.

Order by fax: (800) 446-0163.

Telecommunications device for the deaf: (800) 423-2011.

Commercial: (214) 465-6690.

(2) Customers OCONUS may use the following international numbers:

Belgium: 0800-7-2432.
Germany: 0800-82-16500.
Guam: 01800-636-3297.
Italy: 8008-71227.
Japan or Okinawa: 00531-11-4132.
Korea: 00308-13-0664.
Netherlands: 0800-022-1889.
Spain: 900-971-391.
Turkey: 00800-18-488-6312
United Kingdom: 0800-96-8101.

(3) AMCS commercial numbers will not accept collect calls. Use off base commercial lines if phones on base cannot be used.

(4) Address technical questions or requests for special-measurement uniforms to Joint Base San Antonio, Fort Sam Houston AMCS toll-free; individual catalogs may be obtained by using these numbers:

Phone: (800)527-2345.
Commercial: (210) 221-3794, (210) 221-4656, (210) 221-5111, or (210) 221-3797.
Fax: (800) 446-0163.
Defense Switched Network: 471-3794.

b. Exchanges. Exchanges are limited to wrong size and material defects. Items returned for exchange must be shipped in the same condition as when received.

c. Transportation charges. For all mail-order shipments, transportation charges will be prepaid. Items are normally shipped within two working days. Additional fees apply to upgrade the normal shipping priorities.

3-13. Sale of defective, soiled, or damaged merchandise of Defense Logistics Agency-Troop Support

a. If an AMCS receives defective merchandise, employees must coordinate with the CSO to process a SF 368; if the items are soiled or damaged clothing, they must process an SF 364 (Report of Discrepancy) or DD Form 361 (Transportation Discrepancy Report). In these instances, the AMCS will keep the items until disposition instructions arrive from DLA-TS.

b. If an item becomes damaged or soiled after receipt, or if the AMCS receives directions to dispose of an item that was reported on an SF 368, the AMCS manager will determine whether the item can be economically repaired or cleaned and restored to at least condition code B (75 percent wear). Condition code B garments will be marked "condition code B (75 percent wear)" in an area that will not render the garment unserviceable.

c. The AMCS will return the item to stock as either condition code A or condition code B if it can be economically repaired or cleaned (at a cost of no more than 25 percent of the standard price). Costs incurred in restoring the item to salable condition will be paid for using operating costs.

d. If an item cannot be restored to condition code B, the sale price will be reduced until it sells, or until, in the judgment of the manager, there is no market for it.

e. If the AMCS does not succeed in selling the item, the AMCS will send it to the DLA Disposition Services under locally established procedures.

3-14. Reporting shipping and packaging discrepancies

AMCS will notify the CSO of any shipping or packaging discrepancy and will submit an SF 364 in accordance with exchange operating procedures (EOP) 40-4. EOP 40-4 is accessible through the CSO Army Knowledge Online website at <https://akoffline.us/>.

3-15. Price reductions

a. Price reductions (when approved by the DCS, G-4) are authorized only when there is a difference in utility, the decreased desirability of an item because of age, condition, or model, or a need to stimulate sales to phase-out items in the AMCS. The purpose of such reductions in price is to recognize the relative value in use of the items concerned, to encourage supply economy through usage of such material, and to reduce procurement requirements for standard items.

(1) Price reductions will be offered as early as possible in the development process of new items.

(2) Coordination of phase-out or phase-in plans must take place among HQDA, DLA, AMCS, U.S. Army Soldier and Biological Chemical Command, PEO Soldier, Integrated Materiel Management Center, AAFES, CSO, DLA-TS, and TRADOC.

(a) The CSO will consider the worldwide AMCS and CIIP assets of phase-out items in developing the supply request package, which includes phase-out or phase-in plans for new item introduction.

1. The phase-in or phase-out plans will include the use of AMCS worldwide assets.

2. The estimated date of supply will be established to allow the optimum use of AMCS stocks along with other assets of phase-out items.

3. Plans will include the maximum use of AMCS assets of phase-out items by the CIIP where economically feasible.

(b) CSO will coordinate with TRADOC and AMCS to ensure the transfer of assets to CIIP at current AMCS prices. No operating costs will be charged for AMCS items transferred to CIIP.

(c) CSO will inform DLA-TS of quantities transferred from AMCS assets to fill CIIP requirements.

(d) At least 18 months before the estimated date of supply of new items, the decision will be made based on these criteria:

1. After AMCS has transferred assets to the CIIP a price reduction will be offered for the remaining stocks.

2. The price reduction of items is based on the amount of stock on hand and the wear out date or the timeline directed to remove the item from AMCS. The CSO will use the following guidelines for price reduction:

25 percent reduction for items with less than 3 months on hand stock.

50 percent reduction for items with 6 to nine months on hand stock.

75 percent reduction for items with more than 9 months on hand stock.

Additional price reductions or extending sale timelines can be considered based on current situation.

(e) Legacy condition code B (75-percent wear) items will be sold at 50 percent of the price of condition code A items discounted rate. For example, a legacy item is normally \$100 and is marked down 25 percent to \$75 (see para 3-15(2)(a)), the same legacy condition code B item would be marked down 50 percent from the \$75 to \$37.50.

(3) The CSO or AAFES will advise DCS, G-4 TS and DLA-TS of results and changes in assets during the transition.

b. During the phase-out or phase-in of clothing items in the AMCS, HQDA will provide funding to support inventory requirements for phase-in items. The proceeds to the exchange from the sales of phase-out items will be used as offsets to fund the new requirements.

c. Price reductions will be offset by decreases to the inventory-with-agent account so AAFES's accountability to the Army is reduced by the amounts of the price reductions. This will be accommodated during the year-end reconciliation of inventories. The Army loss will be confined to price reductions for those quantities currently on hand with AAFES.

3-16. Transfer of condition code B clothing

Clothing generated by the local installation supply division (ISD) or forward distribution point and classified as condition code B may be transferred to the AMCS, with reimbursement to the generating activity. A memorandum or other suitable document can be used to offer these items to the AMCS. Such a document will contain at least the national stock number, nomenclature, size, unit of issue, price, and quantity. The AMCS may, at the discretion of its staff, accept items offered; local procedures will be developed for transfers of these items.

Chapter 4

Allowances under the Clothing Monetary Allowance System

4-1. Initial allowances of personal clothing

- a. CTA 50-900, lists initial and supplemental clothing allowances authorized for enlisted Soldiers.
- b. Trainees receive their initial issue of personal clothing immediately upon arrival at Basic Combat Training (BCT). After this initial issue a DA Form 3078 is required for additional issue of personal clothing items.
- c. The DA Form 3078 will contain a statement explaining the reasons for the issue. This statement will identify the appropriate category of members shown in paragraphs 4-2a through 4-2h. Orders will be attached to the DA Form 3078. For ARNG or USAR members, they will contact their respective supply personnel to order clothing through the Kentucky Logistics Operation Center if required.
- d. Soldiers are expected to maintain their personal clothing for at least 90 days after ETS; if they choose to re-enlist within 90 days, a second issue of personal clothing will not be issued.

4-2. Members entitled to initial allowances

Initial clothing allowances are authorized for—

- a. A person on a first enlistment or induction.
- b. A person who reenlists after 90 or more days from the date of discharge. The discharge date will be placed in the “remarks” block of the clothing request.
- c. A Soldier restored to duty after sentenced to confinement or punitive discharge imposed by a court-martial.
- d. Enlisted Soldiers returning to active or drill status from the inactive reserve who were not required to attend weekend or annual training (AT) for more than 90 days are authorized a complete initial issue or allowance.
- e. Enlisted Soldiers with fewer than 90 days of separation time from the RA are authorized replacement of substandard or unserviceable personal clothing items.
- f. An enlisted Soldier who did not receive the complete initial allowance or was required to turn in clothing at the time of discharge or release from active duty (REFRAD). The initial allowance authorized will be reduced by the amount of clothing kept on discharge or REFRAD. A copy of the discharge certificate and a copy of reenlistment orders will accompany the issue request.
- g. Retired enlisted Soldiers recalled to active duty after 90 days from date of last REFRAD or date of retirement. Only one such entitlement will accrue during any 4 consecutive years.
- h. A Soldier enlisting from another service without regard to date of discharge from the previous service.
- i. Officers or warrant officers separated from the service who enlist or reenlist for other than retirement reasons. Only one entitlement will accrue during any 4 consecutive years.

4-3. Clothing monetary allowance and clothing replacement allowance

a. *Monetary allowances.* A CRA, for the cost of replacement and purchase of new items, will be paid to enlisted Soldiers annually during the anniversary month in which each Soldier entered the service. This allowance will be paid in addition to regular pay. It may be used also to buy additional quantities of personal clothing. The intent of the CRA is not to cover the normal costs of cleaning, laundering, and pressing personal clothing. There are two types of CRA: basic and standard. The dollar values of these allowances will be published annually.

(1) *Basic clothing replacement allowance.* Each enlisted Soldier is authorized to receive the basic CRA. The allowance starts to accumulate on the day after the Soldier completes 6 months (180 days) of active duty service without regard to time lost. The basic CRA will be paid for the remainder of the first 3 years of continuous active duty. The basic CRA is 70 percent of the applicable rate in effect for the standard CRA.

(2) *Standard clothing replacement allowance.* Each enlisted Soldier is authorized the standard CRA on the next day after the Soldier completes 36 months of active duty without regard to lost time. If an enlisted Soldier reenlists within 90 days after the end of the previous enlistment, then, for the purpose of this authorization, that Soldier is not considered to have a break in service, and the standard CRA will be paid for the remainder of the Soldier's continuous active duty.

b. *Determining authorization to monetary allowances.*

(1) An enlisted Soldier is not entitled to the basic or standard CRA if in a temporary status as a commissioned officer or warrant officer. This time cannot be counted in determining eligibility for basic or standard monetary allowances.

(2) Enlisted Soldiers ordered to active duty from reserve status are authorized a standard CRA after the completion of 6 months (180 days) of active duty service.

(3) A monetary allowance will not be paid in a command where the CMA system is not in effect. Allowances will be discontinued as prescribed in paragraph 4–3c. Time served in such a command will be counted in determining eligibility for the basic or standard CRA when a Soldier returns to an area where the monetary allowance is paid. ARNG members ordered to active duty for more than 179 days are authorized the CRA after 6 months (180 days) of active duty.

(4) Prisoners in a non-pay-and-allowance status, including those in restoration training, will not be paid a CRA. Rather, those prisoners will be supplied with necessary clothing at Government expense on an issue-in-kind basis. See chapter 5 for more information on clothing for prisoners.

(5) Prisoners in a pay-and-allowance status will continue to have a right to receive the CRA. Prisoners will, at their own expense, replace personal clothing that the installation correctional Officer requires for them to perform their duties while in confinement. Soldiers confined at places other than their respective home stations must also pay for clothing items required for travel to their home stations.

(6) AGR Soldiers enlisting in the RA from the RCs within 90 days after REFRAD are authorized to receive the standard CRA. This allowance starts on the day after the Soldier completes 6 months (180 days) of continuous active duty service.

c. Discontinuance of clothing monetary allowance. The custodian of each Soldier's pay record in the issue-in-kind area will discontinue the CMA. The pay order starting with foreign duty pay may be used for this purpose. The effective date of discontinuance will be at 2400 hours on the day before departure from the CMA area.

d. Reinstatement under the clothing monetary allowance. The custodian of a Soldier's pay record reinstates payment of the CRA. Resumption of the allowance will be at 0001 hours on the day of departure from the issue-in-kind area.

4–4. Increase in authorized allowances

An increase in an allowance will not be retroactive except when a Soldier who is in service before the effective date of the increase is authorized a supplemental allowance and must buy additional items no later than some future specified date.

4–5. Replacement of initial allowances with new items

When new items, other than insignia, are adopted to replace initial allowances, enlisted Soldiers on active duty tours before the effective date of the change must buy the prescribed quantities of the new items within announced time periods. New items will be introduced with an optional phase-in period. This gives enlisted Soldiers the time to save the cost of the new item from their CRA. A wear out period is announced when initial clothing allowance items are superseded.

4–6. Supplemental clothing allowance

a. Authorized supplemental allowances are listed in CTA 50–900, table 3, these items will be provided in addition to the initial allowances of personal clothing. Only one issue may be approved during any period of continuous service in the type of duty for which the supplemental allowance is authorized.

b. Unit supply personnel will fill out the DA Form 3078 in accordance with paragraph 1–6p and place this statement in the “remarks” block: “The member has not received a full or partial supplemental issue while assigned to duties authorized a supplemental allowance in CTA 50–900.” Unit supply personnel will attach proper documentation of military occupational specialty (MOS) to the DA Form 3078 for each supplemental issue. If a supplemental issue was provided, and if there was a break of 3 years or more between MOS assignments requiring a supplemental issue, unit supply personnel will place in the “remarks” block the date when the supplemental issue was made. After the supplemental issue is made, the DA Form 3078 transfers with the Soldier. Normal replacements thereafter will be at the expense of the Soldier.

c. Soldiers are required to maintain supplemental issues for 3 years or the completion of the duty for which the items were provided, whichever is longer.

4-7. Supplemental allowance authorization

CTA 50-900, table 3, contains authorized supplemental allowances. Commands may request to modify or establish supplemental allowances by submitting DA Form 5965 (Basis of Issue for Clothing and Individual Equipment) through command channels, using the guidance provided in CTA 50-900, to the DCS, G-4 (DALO-SPT), 500 Army Pentagon, Washington, DC, 20310-0500. The DCS, G-4 is the approval authority for supplemental allowances. The CAR, and the CNGB may reduce the supplemental allowance as needs dictate.

4-8. Payment and accounting for Army Green Service Uniform

a. Recruiters, recipients of the Medal of Honor, and the SMA are authorized a cash allowance to buy dress uniform components. These Soldiers can submit a DA Form 3078 in accordance with paragraph 1-6(p). If a cash allowance is permitted, it will not exceed the current AMCS price:

- (1) When the authorized items are available from military sources (that is, the AMCS), or.
- (2) If uniforms and accessories must be bought from commercial or nonmilitary sources.

b. The cash allowance will be applied to the purchase of an AGSU, consisting of cap, coat, and trousers/slacks, and the necessary accessories. The AGSU will be bought within 30 days of receipt of the cash allowance. When necessary, the commander may grant an additional 30-day extension. Collection action will be brought against the Soldier if the prescribed clothing is not procured within 30 days after the date of receipt of this allowance or after an approved extension.

c. An additional allowance can be applied to the AGSU for alterations. The amount must be documented on an alteration slip, and it can be obtained for these accoutrements:

- (1) Shoulders- sleeve insignia (unit patch).
- (2) Rank chevrons.
- (3) Service stripes.

Note. The Army will pay for these alterations, but the amount will not exceed the current exchange price for the total cost of the alterations.

d. The appropriate unit commander will authorize preparation of SF 1034 (Public Voucher for Purchases and Services Other than Personal) in the proper amount with this statement on the voucher: "The supplemental allowance is authorized by CTA 50-900."

e. The unit commander will sign the SF 1034 before sending it to the finance and accounting office (or to the U.S. Property and Fiscal Office (USPFO) for ARNG) for payment. Forward the SF 1034 in original and three copies with two copies of the order assigning the Soldier to recruiting duty, awarding the Soldier the Medal of Honor, or assigning the SMA to the servicing DFAS for payment.

4-9. Maternity uniform

a. *Exemptions for pregnancy and postpartum.*

(1) Commanders and supervisors will not require Soldiers to wear the ASU or AGSU while pregnant and for 365 days after the conclusion of pregnancy. These Soldiers are authorized the wear of the maternity and non-maternity permethrin-free OCP and Improved Hot Weather Combat Uniform (IHWCU) during and after pregnancy while safely returning to optimal fitness and body composition during the postpartum period.

(2) Pregnant and postpartum Soldiers may wear the maternity OCP trousers with the non-maternity OCP or IHWCU coat.

(3) Soldiers may voluntarily choose to end this exemption early and wear non-maternity uniforms prior to 365 days postpartum; however, no favorable or unfavorable action will be taken based on Soldiers' choice of uniform during the full exemption period. Leaders will not pressure Soldiers to end their exemption early.

(4) Soldiers exempt from wearing the ASU/AGSU while pregnant or postpartum will not be prohibited from participating in any personnel action, such as attending a semi-centralized (E-5/E-6) promotion board, due to this exemption.

(5) Soldiers who have profiles authorizing the wear of a "soft shoe" will wear an athletic (running/walking) shoe with the OCP or IHWCU.

b. *General.* Currently there are two maternity uniforms available for Soldiers: the ASU Maternity and the Maternity Utility Uniform (MUU). The ASU maternity is only available through the AMCS as a supplemental uniform. The MUU looks similar to the OCP and is available for issue through the CIF or ODO

process. There are multiple maternity items under development; further guidance will follow once items are available.

c. Supplemental issue. Female enlisted Soldiers are authorized to receive a supplemental issue of the maternity ASU (maternity shirt, slacks, and tunic listed in CTA 50–900, table 3) when the Soldier's ASU no longer properly fits. When the ASU is provided the Soldier will maintain the ASU maternity uniform items for 3 years. A new authorization may be approved every 3 years. Upon receipt of certification by a physician that the Soldier is pregnant, the unit supply sergeant or specialist will—

- (1) Verify the current price of the uniform items with the AMCS.
- (2) Fill out the DA Form 3078 in accordance with paragraph 1–6p with this statement in block 30 (“remarks”): “Issued as supplemental items as authorized by CTA 50–900” (see para 4–6).
- (3) Enclose a copy of the physician's statement (physical profile).
- (4) Print an original and four copies of the DA Form 3078. One copy will be kept in the unit suspense file, and one copy will be transferred with the Soldier.

d. Temporary issue. The MUU is available for all pregnant Soldiers, both officer and enlisted. Upon receipt of certification by a physician that a Soldier is pregnant, the unit supply sergeant or specialist will prepare a memorandum for record with the unit commander's signature. The Soldier will request the MUU from the CIF or through the ODO process.

- (1) Soldiers are authorized to retain the MUU during PCS moves if the medical profile is still in effect.
- (2) Soldiers will turn in their MUU using the ODO process or to the CIF once their medical postpartum profile is lifted.

4–10. Clothing and footwear for Soldiers allergic to fabric, dye, or metal

Soldiers allergic to fabric, dye, or metal may obtain protective clothing as follows:

- a. Obtain a physician's statement certifying the allergy and present it to the AMCS or the CIIP as appropriate.
- b. Prepare a DD Form 1348 (DoD Single Line Item Requisition System Document (Manual)) or a DD Form 150 (Special Measurements Blank for Special Measurements / Orthopedic Boots and Shoes) with a physician's certificate for footwear and send it to the DLA–TS, 700 Robbins Avenue (Building 3A, Station 4121), Philadelphia, Pennsylvania, 19111–5092. Ensure that the form contains the Soldier's name, rank, EDIPI, size, and type of footwear for each foot requiring special-measurements.
- c. Replacement of clothing items requires a physician's statement containing the reason or circumstances for the replacement.

Chapter 5

Issue Procedures for Personal Clothing

5–1. Obtaining personal clothing

a. The DA Form 3078 will be the only document used to obtain personal clothing items for RA enlisted Soldiers, Individual Ready Reserve (IRR), individual mobilization augmentee (IMA), USAR enlisted Soldiers attending IET, and ARNG enlisted Soldiers attending IET. The DA Form 3078 is the Soldiers receipt when issued clothing items. Only original or valid digital signatures are acceptable; stamps or photocopies of signatures are not authorized.

b. The DA Form 3078 is an auditable document. The form is subject to formal and informal auditing. It is a supporting document for the unit and the Field Audit Office.

c. The ARNG and USAR Troop Program Unit (TPU) supported by the Central Clothing Distribution Facility (CCDF) will use the electronic or printed forms prescribed in the CCD User Handbook.

d. The DA Form 3078 processed at the AMCS for an ARNG Soldier on initial active duty for training (IADT) must be accompanied by two copies of the Soldier's orders. The accounting classification to be charged will be annotated on the orders and entered in block 30 of the DA Form 3078. The AMCS will retain one copy of the orders, and it will forward the second copy with the DA Form 3078 to the supporting office of the DFAS.

e. The CIIP or AMCS will not accept an improperly prepared DA Form 3078, and it will not accept any form dated more than 30 days old.

f. Seasonal or deferred issues of specified CB items at CIIPs will be accomplished as directed by the ACOMs.

5-2. Issue of items to enlisted Soldiers during initial processing

a. Preparing DA Form 3078. The CIIPs normally prepare the DA Form 3078 using a DLA automated system. When an automated system is not available, prepare a manual DA Form 3078 using ink or an indelible pencil. In the "approved by" block, enter the name, rank, branch, and signature of the unit commander or the commissioned, or warrant officer representative (exceptions to policy will be on an individual basis approved by DCS, G-4 Troop Support Division (DALO-SPT)). The signature must agree with DA Form 1687 maintained at the CIIP or DA Form 7000 for AMCS. When providing the DA Form 7000 to the AMCS, the gaining unit must also attach an original or copy of the assumption-of-command orders signed by the commander. Only original autographic signatures will be accepted on the manual DA Form 3078; rubber-stamped or photocopied signatures are not acceptable. When using a manual DA Form 3078, prepare an original and three copies and forward them to an AMCS or CIIP. The sending unit will keep one copy. Each Soldier will receive from the AMCS the authorized clothing items as indicated on DA Form 3078. The AMCS will complete the applicable blocks. The unit is responsible for ensuring that cost information is in the "unit price" and "total cost" blocks. Upon completion of each transaction, the Soldier will sign the original and all copies.

b. Distribution of DA Form 3078.

(1) On completion of the issue, the CIIP or AMCS will forward the original and one copy to the servicing finance office for payment.

(2) The Soldier will keep one copy.

(3) The unit will keep one completed copy until the Soldier completes 6 months (180 days) of service or reports to his or her initial permanent duty assignment and receives all the initial issue items.

(a) Upon transfer or PCS during the first 6 months (180 days) of active duty of the member, a copy remains with the Soldier's record and goes to the new assigned unit.

(b) After the Soldier completes 6 months (180 days) of active duty or reports to an initial permanent duty assignment, an inventory and inspection of the member's clothing and footwear will be conducted by the gaining unit. If all required clothing and footwear is on hand and in a serviceable condition, the previous unit's copy of the DA Form 3078 will be destroyed. Soldiers receiving a CRA now have personal and financial responsibility for maintaining the initial issue clothing items. Units with Soldiers supported through replacement in kind will continue to use the DA Form 3078 for accountability purposes.

c. Special measurement clothing. The need for special measurement clothing and footwear is determined during initial processing. Special measurements are discussed in chapter 7, Special measurements Clothing and Footwear. Full allowances will be obtained as quickly as possible. All copies of DA Form 3078 will be stamped or marked "special measurement" at the time of processing.

d. Alteration service. Complete alterations to garments will be completed no later than 4 days after initial processing. This does not pertain to the AGSU issued at the end of BCT.

e. Undergarments. Female undergarments are a one-time cash purchase as part of the initial clothing allowance for females. Unit commanders must afford female Soldiers the opportunity to buy these items.

5-3. Issue of personal clothing at times other than initial processing

a. Issue of clothing, other than initial processing, for which a DA Form 3078 is used, includes the following:

(1) Completion of initial allowances.

(2) Completion of supplemental allowances.

(3) Gratuitous issue.

(4) Individual charge sales (by payroll deductions).

(5) Exchanges.

(6) Temporary issues from the unit's or correctional facility's excess supply.

b. An original and three copies of the DA Form 3078 must be prepared. The original and two copies will be sent to the AMCS; the third copy will be held in suspense at the unit. Exceptions are:

(1) For completion of initial allowances, enlisted Soldiers must show proof of turn in or non-receipt.

Each original DA Form 3078 with zeroed entries must be attached to the corresponding new request:

(a) For requests from new trainees.

(b) For requests for replacement of items turned in by Soldiers reenlisting.

(c) When initial issue allowances were not completed.

(2) For guidance on supplemental allowances, see paragraph 4-6.

(3) For guidance on gratuitous issues, see paragraph 5-4.

- (4) For guidance on individual charge sales (by payroll deductions), see paragraph 3–10.
- (5) For guidance on exchanges, see paragraphs 5–11 and 5–12.
- (6) For guidance on temporary issues, see paragraph 5–8a.

5–4. Gratuitous issue

Claims procedures in accordance with AR 27–20 and DA Pam 27–162 apply to members for the replacement of CB items lost, damaged, or destroyed while a Soldier is in the service. An example is Soldier's baggage lost during travel by military conveyance. Costs for the gratuitous issue will be processed using the Military Personnel Army funds. AMCS will provide clothing items to Soldiers authorized a gratuitous issue. Where available, the CIIP will provide clothing items for designated Soldiers (such as drill and platoon sergeants).

a. DA Pam 638–2 provides authority for issuing the ASU or AGSU and component items for burial of a deceased active duty Soldier (officer or enlisted). The appropriate base operation accounting classification will be placed in the Remarks block of the DA Form 3078.

b. DA Form 3078 is required and must contain a specific reason for the gratuitous issue in block 30.

c. Clothing may be replaced when authorized by Army medical departments:

(1) To prevent a spread of contagious disease, clothing will be destroyed under these circumstances.

(2) A Soldier with a deformity or an inability to wear certain items may exchange items of personal clothing, such as woolen clothing and combat boots, for cotton items or low-quarter shoes, provided both:

(a) The physical condition did not result, in whole or in part, by fault or neglect of the Soldier while in active Federal service.

(b) The medical department considers the Soldier to be fit for continued military service.

(3) A gratuitous issue is authorized to replace items damaged while administering emergency first aid to another person.

(4) A gratuitous issue is authorized to replace items of clothing which no longer fit because of an excessive weight loss or gain after the Soldier has had surgery. A medical statement describing the reason for the weight loss or gain will be submitted along with the DA Form 3078.

(5) Clothing may be replaced because of contamination. When submitting DA Form 3078 to the AMCS, attach a statement of contamination provided by the proper authority along with a statement provided by the unit commander. Contamination may be either medically or organically related. Contaminated clothing must be destroyed by appropriate personnel.

d. Clothing is replaced at no cost to a Soldier if the clothing becomes lost or damaged in a laundry or dry-cleaning facility which the Government operates. The laundry or dry-cleaning manager will prepare and approve the DA Form 3078. The appropriate base-operations accounting classification will be placed in the "remarks" block, charging the laundry or dry-cleaning account. For loss or damage at a commercial contracted facility, follow the instructions in AR 210–130.

e. Contamination resulting during natural disasters (such as hurricanes, flooding, fires, tornadoes, earthquakes).

f. Contingency assignment lasting 9 months or more with no sustainment.

g. Soldiers are responsible for replacing items of personal clothing if they become lost, damaged, or destroyed while in a commercial business establishment.

h. Soldiers are authorized to request gratuitous issue for clothing lost, damaged, or destroyed in field laundry units during exercises.

i. Soldiers are authorized to request gratuitous issue for clothing lost, damaged, or destroyed during unusually intense field exercises, training, or unique missions.

j. An exception to policy for unusual circumstances that neither meet the criteria specified in paragraphs 5–4a through 5–4i nor qualify for claims procedures, may be submitted to the first general officer in the Soldier's chain of command for approval. A form letter or blanket approval is not acceptable. Each DA Form 3078 submitted will be evaluated before approval. If approval is granted, a copy of the approved correspondence will be attached to the DA Form 3078 so that the AMCS or CIIP manager will honor the request. Approval must not exceed the quantities of authorized CB items on hand that were lost, damaged, or destroyed (authorized items are located in CTA 50–900, table 1 or table 2).

k. When Soldiers are evacuated from a theater of operations to a medical treatment facility (MTF) because of illness or injury, and their personal clothing does not accompany them, they are authorized to receive a gratuitous issue of the CB items:

(1) The commander of the MTF will authorize a gratuitous issue of uniform items sufficient to meet the needs of the Soldier. This guidance applies also to Soldiers receiving either inpatient or outpatient treatment while assigned to a Soldier Recovery Unit (SRU) and in a medical hold status.

(2) Gratuitous issues of specified CB items are authorized for Soldiers, based on individual needs. See table 5–1 for the list of authorized items.

Table 5–1 Gratuitous issue of specified clothing bag items	
Description	Quantity authorized
Coat, OCP, or IHWCU	2 each
Trousers, OCP, or IHWCU	2 pairs
Boot, combat, hot weather	1 pair
Drawers, male brief (male)	4 each
Cap, patrol	1 each
T-shirt, moisture-wicking tan 499	4 each
Duffel bag	1 each
Belt rigger, tan 499	1 each
Socks, boot, green	4 pair
Jacket, Army Physical Fitness Uniform (APFU)	1 each
Pants, APFU	1 each
Trunks, APFU	1 each
Shirt, APFU, long-sleeve	1 each
Shirt, APFU, short sleeve	1 each
Gloves insert, cold (black or coyote)	1 pair
Gloves, light-duty utility	1pair

(3) The AMCS will issue selected CB items, and the CIF will be used for the issuance of selected OCIE items to Army wounded warriors (AW2s).

(4) The gratuitous issue will not include ASU or AGSU items or items that do not normally deploy with Soldiers.

(5) Select OCIE items. The MTF or WW will coordinate with the CIF to arrange for OCIE cold weather clothing as an additional issue to the Soldiers if required. OCIE items are accountable items and not gratuitous, the items will be placed on the Soldiers OCIE clothing record.

1. A recipient of the Medal of Honor (current military or veteran) is entitled to a complete set of either the ASU or AGSU including both long and short sleeve shirts, four pairs of socks, and all associated headgear. See table 5–2.

Table 5–2 Medal of Honor recipient authorization	
Description	Quantity authorized
Belt	1 each
Coat, ASU, or AGSU	1 each
Trousers, ASU, or AGSU	1 pair
Shirt, long sleeve	2 each
Shirt, short sleeve	2 each
Buckle,	1 each

Table 5–2
Medal of Honor recipient authorization—Continued

Necktie, (four-in-hand)	1 each
Tie, bow	1 pair
Beret (black)	1 each
Cap, ASU, or AGSU	1 each
Shoes	1pair
Socks, liner,	4 each

- (1) The process for obtaining clothing for a Medal of Honor recipient is—
 - (a) After Congress approves the award, the DCS, G–4 (DALO–SPT) will provide the CSO and the AMCS with the name and the last four digits of the recipient’s social security number, unit of assignment (if still in the service), and the contact information for the DCS, G–1.
 - (b) The DCS, G–4 is responsible for the coordination with the CSO and ensuring the availability of the authorized CB items.
 - (c) The DCS, G–1 is responsible for the awards and decorations as authorized in accordance with AR 670–1 (OMA funds).
 - (d) The CSO will initiate a DA Form 3078 upon notice from the DCS, G–4. The approving authority for DA Form 3078 will be the Chief of CSO, authorizing the recipient to pick up the clothing at the AMCS.
 - (e) The CSO will coordinate with the AMCS to ensure that the clothing authorized (on the DA Form 3078) is on hand or on order.
- (2) The AMCS will expedite the clothing request from the CSO. Physical fitness socks and female undergarments are commercial items. All services can procure commercial items in according with 10 USC 1047.
- (3) Name tape, U.S. Army patch, unit insignia, and rank will be provided to officers and enlisted members, using OMA funds or as approved by the authorizing official.
 - m. The Army Direct Ordering (ADO) Program is authorized for Soldiers who perform tactical missions while deployed in support of overseas contingency operations in the U.S. Central Command (CENTCOM) area of responsibility (AOR). Units deployed into the CENTCOM AOR that are authorized ADO will submit their ADO account paperwork to the headquarters, U.S. Army Central Command G–8 stock-fund team within 30 days of arrival date in theater. ADO provides ASCC commanders with the capability to sustain individual Soldiers’ selected OCIE clothing items (OMA funds) and CB items (MPA funds) during combat operations.
 - (1) ADO is limited to the replacement of specified OCIE and CB items that become lost, stolen, damaged, destroyed, or unserviceable. ADO will not be used to obtain unauthorized OCIE and CB items in excess of the basis of issue for individual Soldiers. ADO is not an additional entitlement or allotment; it is strictly for replacement of lost, stolen, damaged, or unserviceable items. The unit commander is responsible to ensure unserviceable items are properly disposed of once ADO replacement items are received.
 - (2) Civilians and contractors are not authorized to enroll in the ADO program or to order items from the ADO program. Soldiers and units are not authorized to issue or order ADO items for DoD Civilians, contractors, or foreign nationals.

5–5. Issue and attachment of insignia

- a. Enlisted Soldiers are authorized an initial issue of standard-color and subdued insignia if wearing insignia is required because of the following:
 - (1) Grade.
 - (2) Years of active service.
 - (3) Months OCONUS in designated areas.
 - (4) Assignments.
- b. Enlisted Soldiers are authorized an initial issue of insignia (organizational), shoulder-sleeve, and nametapes when—
 - (1) Assigned to a unit.
 - (2) The command designation is changed.

- (3) Reassigned to another command.
- c. Initial and replacement nametapes and nameplates are provided at no cost to enlisted members (see AR 670–1).
- d. Insignia of rank, nameplates, nametapes, and physical fitness badges will be issued, replaced, and attached to enlisted Soldiers' ASUs and OCPs at Government expense in these circumstances–
 - (1) Promoted to a higher grade.
 - (2) Reduced in grade.
 - (3) Conversion to comparable grade.
 - (4) Authorization and receipt of a supplemental Army uniform.
 - (5) One physical fitness badge under the provisions of AR 670–1.
- e. Insignias bought from AMCS are attached at the expense of the individual Soldiers.
- f. Allowances for combat and skill badges are discussed in AR 600–8–22.
- g. The attachment of one physical fitness badge to physical fitness clothing is authorized at Government expense for any enlisted Soldier awarded the badge under AR 670–1.
- h. The replacement of insignia for enlisted Soldiers will be at Government expense when garments are defective. Normal replacement of insignia and attachment will be at the Soldier's expense.
- i. The attachment of insignia is an installation or unit responsibility. Local procedures will be developed.
- j. Officers will purchase their uniform items from the AMCS or other appropriate vendors.

5–6. Soldiers of reserve components ordered to initial active duty for training

- a. Enlisted Soldiers ordered to IADT are provided with all necessary clothing listed in CTA 50–900, table 1, 2, or both, as applicable, in the quantities shown in the AA–P column on arrival at the training site.
- b. Commanders of ARNG and USAR Soldiers who enlist more than 60 days before IADT may elect at unit expense to issue one uniform consisting of the following:
 - (1) One utility uniform; either OCP, OCP-Female, Improved IHWCU or the IHWCU-Female (coat and trousers).
 - (2) One riggers' belt, tan.
 - (3) One pair of combat boots, hot weather.
 - (4) Three pairs of socks, boot.
 - (5) One OCP patrol cap.
 - (6) One duffel bag.
 - (7) Two tan moisture-wicking T-shirts.
- c. When required by seasonal or weather conditions, these additional items may be issued:
 - (1) One pair of gloves (utility green) and one pair of glove inserts (black or coyote).
 - (2) One additional utility uniform (coat and trousers) may be issued when authorized by the state adjutant general.
 - (3) Combat boots, temperate.
 - (4) Other clothing items may be issued from serviceable condition code B stocks of the ARNG or USAR.
 - (5) The Extended Cold Weather Clothing System Layer 3 Fleece and/or Layer 6 Parka, will be issued as OCIE on the Soldiers OCIE Clothing Record by the CIF.
- d. When ARNG or USAR Soldiers are ordered to IADT, commanders will ensure that Soldiers have their personal clothing records, and all previously issued clothing under the provisions of paragraph 5–6b in their possession when reporting to the training sites. The commanders will annotate the clothing records with one of these, as appropriate:
 - (1) "Soldier in possession of clothing records but has not been issued clothing."
 - (2) "Soldier has not been issued clothing before IADT."
 - (3) "Soldier in possession of clothing records and has been issued a partial issue of clothing."
- e. Commanders of USAR or ARNG members participating in split-option training will ensure that copies of their clothing records, DA Form 4886, and all clothing previously issued accompanies the Soldier returning to training site for subsequent training.
- f. Upon completion of the initial training period under the split-option program, the Soldier returns to the assigned RC unit for normal drills. Commanders will not withdraw those items issued in excess of RC allowances as discussed in paragraph 12–5.
- g. USAR commanders will ensure that newly assigned enlisted non-prior service Soldiers ordered to IADT are prepared, processed, and forwarded to the CCDF during the initial in processing.

h. If DA Form 3078 is submitted between drill assemblies, unit commanders will delegate approval authority by memorandum to an available officer or warrant officer. A copy of the memorandum and current copy of DA Form 7000 will be forwarded to AMCS.

(1) DA Forms 3078 (Personal Clothing Request) will contain only those personal items and quantities according to paragraph 5–6*b* and stamped or annotated “non-prior service expedite” before forwarding to the AMCS.

(2) AMCS will process the DA Form 3078 by priority.

5–7. Soldiers of reserve components ordered to extended active duty

a. Enlisted Soldiers ordered to active duty within 3 months of previous REFRAD must report for duty with all Army clothing in their possession at the time of their release or discharge.

b. Enlisted Soldiers ordered to extended active duty after more than 3 months from date of release from previous active duty, or those with no previous active duty, must report for duty with all Army clothing recorded on their personal clothing records. Those records are sent from their reserve units to the new active duty stations. The use of the personal clothing record is discontinued during the extended active duty.

(1) Clothing in the possession of the Soldier is inspected to determine serviceability and shortages.

(a) Unserviceable but repairable items are repaired at Government expense.

(b) Items unserviceable and not economically repairable are replaced at Government expense.

(c) Shortages are replaced at the expense of the Soldier if the shortages occurred through the fault or neglect on the part of the Soldier.

(2) ARNG and USAR unit commanders will request clothing from the CCDF, using the procedures specified in the ARNG CCD User Handbook.

(3) While on active duty, all Soldiers begin to accrue standard CRA after the completion of 6 months of active duty in a pay status. Personnel officers or the custodians of the Soldiers’ financial-data record folders will process the necessary pay orders. Accrual of the standard CRA allowance starts on the date after completing 6 months (180 days) of active duty in a pay status.

5–8. Clothing for prisoners in Army confinement facilities

a. Temporary issues. Prisoners who are in an undetermined status and confined with the minimum clothing prescribed by the confinement facility are given a temporary issue of clothing if necessary and where available. Prisoners traveling to correctional facilities may wear personal civilian clothing; however, a temporary issue of comfort clothing may be authorized if required. All military clothing will be inventoried for serviceability to determine whether a temporary issue will be required.

(1) The senior commander is authorized to maintain minimum quantities of used clothing items at the confinement facility. The service stock listing of Army uniforms with components must be approved by the ACOM or major army subcommand commander. Whenever possible, temporary issues of clothing may be recovered, cleaned by the unit or at unit expense, and reissued.

(2) The commander at the installation where a Soldier is held will immediately determine the status of the prisoner’s clothing. At the earliest possible date, clothing will be furnished to an Army prisoner as authorized in this regulation (see tables 5–3 and 5–4 for prisoner clothing requirements).

Table 5–3
Clothing requirement for prisoners in Army correctional or confinement facilities

Personal clothing	Male	Female
Belt, rigger’s, tan 499	1	1
Boots, combat, hot weather, coyote	1	1
Belt, trousers, web, black	1	1
Buckle, belt, w/ nickel underplate	1	0
Cap, patrol OCP	2	2
Cap, synthetic microfleece, black	1	1

Table 5–3
Clothing requirement for prisoners in Army correctional or confinement facilities—Continued

Coat, OCP	2	2
Coat, ASU AB 450	1	1
Coat, all-weather double breasted	1	1
Drawers, male brief, tan	7	0
Gloves, light-duty utility	1	1
Gloves, inserts (black or coyote)	2	2
Handbag	0	1
Neck tab female	0	1
Necktie, male, black	1	0
Shoe, dress, poromeric	1	1
Shirt, long-sleeve AW 521	1	1
Shirt, short sleeve AW 521	1	1
Slacks, AB 451	0	1
Socks, liner, black	3	3
Sock, boot, green	3	3
Towel, bath	2	2
Trousers, OCP	2	2
Trousers, AB 451	1	0
Washcloth, brown	2	2
T-shirt, moisture-wicking tan	7	7
Undershirts, white cotton crewneck	2	0

Notes:

¹ Three sets of undergarments may be issued to enlisted women as necessary. Sentenced prisoners will wear prisoner clothing prescribed by the facilities in which they are confined. Appropriate attire other than the prisoner uniforms will be temporarily issued and worn for appearance at courts-martial and other appropriate occasions.

² Members transferred to detainment or confinement facilities without personal clothing will be issued clothing items at final destination as necessary.

³ Distinctive clothing for prisoners confined at the U.S. Disciplinary Barracks (USDBs) will be furnished at the facility.

⁴ Members of other services confined at the USDB will be issued required prisoner clothing.

⁵ Soldiers transferred to the USDB will not be required to report with all initial issue items. Commanders may transfer Soldiers in civilian clothing if available. Otherwise, a service uniform will be provided as a temporary issue.

Table 5–4**Clothing required for prisoners in Army correctional or confinement facilities, pretrial, or casual confinement (temporary issue)**

Organizational items	Male	Female
Bag, barracks	1	1
Seasonal items	Male	Female
Drawers, cold weather	1	1
Undershirt, cold weather	1	1

(3) Footwear and other non-recoverable items are kept by the respective Soldier in compliance with paragraph 4–3b (4) or 4–3b (5).

(4) Footwear is issued to non-Army prisoners only when the prisoners do not have footwear to perform assigned duties. Footwear issued to non-Army prisoners is to be recovered and returned to supply channels for proper disposition when no longer required for assigned duties.

(5) Clothing temporarily provided to non-Army prisoners is without reimbursement from the members or from their military services. As soon as clothing is obtained from the service (Navy, Air Force, Marines, Space Force, or Coast Guard) of the prisoners in question, the Army temporary clothing is recovered for reutilization by the unit.

b. Responsibility for issue. The commander of the unit where Army prisoners are assigned will ensure that the prisoners always have the required clothing items (see table 5–3). The correctional officers are responsible for prisoners of the other services. Soldiers who are returned to military custody at stations other than their home stations, and who are detained in a confinement status or in a non-confinement status pending disposition, are given a temporary issue of clothing if necessary (except non-recoverable items). Soldiers without an ASU may be given a temporary issue of those items if they are to appear before courts or elimination boards.

c. Regular issues.

(1) *Army prisoners.* The commanders of the Correctional Holding Detachments, Special Processing Detachments, or other units where prisoners are assigned will ensure that, during pretrial or post-trial confinement, each Army prisoner has the items required by the facility. Prisoners receiving a basic CRA or a standard CRA will obtain, if necessary, and will maintain, prescribed clothing items at their own expense. Prisoners are required to have all clothing authorizations in their possession on arrival at the confinement facilities for incarceration (see table 5–3). Replacement of clothing shortages will be at the expense of the respective prisoners if the prisoners receive pay and a CRA.

(2) *Non-Army prisoners.* Prisoners of other services are provided with temporary issues as required. After the status of each prisoner is determined, the prisoner's service is notified to provide adequate clothing for the individual's return trip to their home station. Prisoners confined in Army confinement facilities pending courts-martial or serving their sentences will be provided all necessary clothing as authorized in DoD Instruction (DoDI) 1325.07.

5–9. Initial issue to prisoners restored to duty

When a prisoner is restored to duty, before they leave for their duty assignment, they will receive an initial allowance in compliance with paragraph 4–2c. However, the USDB is excluded; instead, each prisoner at the USDB will receive an AGSU. Then the remainder of the initial allowance will take place at the new duty station. This authorization does not apply to prisoners who have no punitive discharge, and who continued to receive a CRA while in confinement.

5–10. Clothing for prisoners detained in personnel control facilities

a. A personnel control facility (PCF) is authorized to stock minimum quantities of clothing and footwear for temporary issues to detained personnel (see table 5–3 for description of clothing items and the quantities). Prisoners awaiting discharge will receive temporary issues of clothing required for performing duty at the facility. This clothing will be recovered when the prisoners are discharged. Prisoners of PCFs awaiting reassignment will receive clothing to complete their CB authorization. This issue will be at each Soldier's expense. The PCF commanders will make every effort to obtain condition code B clothing before ordering new items through the ISDs. Clothing ordered by the PCFs will be charged to the OMA fund. The

ISDs will order on an as required basis, and they will not accumulate demand data for the purpose of replenishing clothing to support the PCFs.

b. Prisoners discharged from the Army are required to return all Army clothing. Soldiers returned to military control in a pay status will be charged for all clothing they retain. See paragraph 5–14 for those in a non-pay status.

c. Undergarments for female members are not stocked in the supply system, so the purchases of those garments will be charged to OMA funds.

5–11. Exchange or alteration of misfit clothing and footwear

a. An exchange or alteration of misfit clothing and footwear after initial issue must be made within 6 months (180 days) of the date of entitlement of the Soldier involved. An exchange consists of the replacement of an item with a similar item; therefore, while making an exchange, the AMCS must receive an item similar to what it issues. Items exchanged must be cleaned and pressed, and they must meet the condition code B standards; or an exchange will not be made.

b. An exchange of misfit footwear after initial issue must be made within 90 days of the issue. Exchanges are not authorized for normal wear and tear.

c. When a unit commander decides that clothing or footwear is a misfit, the supply Sergeant or Specialist will prepare and submit the DA Form 3078 as outlined in paragraph 1–16p.

d. Hard-copy submissions will be prepared in original and three copies. A statement will be placed in the “remarks” block, explaining the exchange. The use of a single DA Form 3078 to permit the exchange of clothing items for more than one Soldier is only authorized for IET Soldiers when exchange is accomplished at a CIIP. When conducting exchanges, other than at a CIIP with IET Soldiers, a DA Form 3078 is required for each Soldier. Place a check in the “exchange” block of the form. The following information is required for the DA Form 3078—

(1) A list of the clothing or footwear.

(2) A statement on the front of the form or in the “remarks” block that the Soldier has been in the service for fewer than 6 months (180 days)—or 90 days in the case of an exchange of footwear—after the last authorization of an initial allowance. State the day, month, and year of the entry on duty.

e. The Soldier will—

(1) Go to the AMCS or CIIP. The CIIP is the preferred method of exchange when available.

(2) Present the required number of copies of DA Form 3078 to the CIIP or AMCS associate, who will arrange for a qualified clothing or shoe fitter check the fit of the garment to determine if alterations could provide the proper fit or if a different size garment is required.

f. If alterations to the garment(s) will provide the proper fit, the CIIP or AMCS associate will mark the garment(s) for alterations. If misfit garments require alterations, mark the “issue” column of DA Form 3078 with the word “alter” for any garment that can be altered. The associate will send the clothing to the alteration shop and upon completion the altered clothing will be returned to the Soldier. If all garments listed on the form can be altered, the DA Form 3078 is to be destroyed.

g. If one or more garments on the same DA Form 3078 cannot be fitted by alterations, those items should be exchanged for appropriate sizes. Follow procedures in paragraph 5–11h for all other items.

h. Misfit clothing that cannot be altered to achieve the proper fit and misfit footwear will be turned in to the AMCS or CIIP without additional documentation. The correct size clothing or footwear will be issued and recorded on DA Form 3078. First-issue priority for exchanges will be from available condition code B, 75 percent wear (used), clothing. The duplicate copy of the form will be returned to the unit commander for destruction. The AMCS or CIIP processes the original and one copy of the DA Form 3078 for financial accounting.

i. If the proper size garment is out of stock at the time requested, enter zero in the “issue” column of DA Form 3078. Return a duplicate copy of DA Form 3078 to the unit commander for filing until the exchange for the proper size is made. Send a duplicate of DA Form 3078 to the new station if the Soldier is transferred before the exchange is made. This copy is authority to exchange misfit items when the proper size is available, even though the initial 6 month (180-day) period of service may have elapsed. Destroy that copy when the exchange is made. The misfit clothing is turned in when the proper size is available.

j. Those Soldiers in the split-training-option program will be entitled to exchanges and alterations during the second phase of IADT.

k. For exchanges made at AMCS, removal, and reattachment of insignia will be accomplished through the alteration facility at no charge to the Soldier.

5-12. Exchanges of clothing for reasons other than misfit

a. During the first 6 months (180 days) of active duty, which includes basic and advanced individual training, commanders may approve exchanges of personal clothing that are damaged beyond repair incident to service or intensive training and not due to normal FWT— provided that the damage had not resulted from any fault or negligence of the Soldier. To maximize the Army's ability to resource competing requirements, uniforms should only be exchanged if they are actually damaged. Commanders may authorize replacement of personal clothing that are damaged "beyond repair" incident to service or intensive training. Commanders are responsible for the inspection of uniforms and will provide a DA Form 3078 for the replacement. Soldiers who require replacement of personal clothing/uniforms for reasons other than misfit within the first 6 months of active duty will retain possession of the unserviceable uniforms instead of turning them into AAFES or the AMCS. Soldiers will dispose of unserviceable uniforms by removing all patches, badges, and insignia, and Infrared Tabs will be cut off and shredded. The uniforms will then be destroyed in a manner that prevents future use.

b. The exchange of clothing or footwear damaged during participation in field training exercises, regardless of time in service, is not authorized. For clothing damaged during field training exercises, refer to paragraph 5-4.

c. Unit supply sergeants and specialists will prepare and submit the DA Form 3078 as outlined in paragraph 1-16*p* and will place a statement in the "remarks" block an explanation for the exchange.

d. Items turned in for exchange under this paragraph will be clean and will have no salable value. The AMCS will not take those items into their accountability but will turn them in to the local DLA Disposition Services at no value. Authorized items accepted for exchanges, when not taken into AMCS accountability, will not be charged to the write-off account 109-13. The CIIP will follow normal turn in procedures.

e. Items with obvious defects in workmanship or material will be handled thus—

(1) Repairs at Government expense are authorized if it is economical to repair the items, and if the repairs would not cause visible defects.

(2) Items returned to the issue activity that cannot be economically repaired will be accepted for exchange. The CIIP or AMCS manager will submit SF 368.

f. Items received under paragraph 5-12e(2) will be exchanged, using DA Form 3078 as outlined in paragraph 5-11. For CIIP the defective item will be turned in to the supporting ISD and will be processed under dollar value accountability. AMCS will make turn ins in accordance with EOP 40-4.

g. For exchanges made at AMCS, removal, and reattachment of insignia will be accomplished through the alteration facility at no charge to the Soldiers involved.

5-13. Initial and gratuitous issues to Soldiers isolated from supporting installations

When enlisted Soldiers are isolated from the installations where they are based for support, the assigned unit commanders will process initial and gratuitous issues thus—

a. *Initial issue.* Personal clothing items, when required to complete initial allowances, are obtained from the AMCS of the installation providing support.

b. *Gratuitous issue.* Gratuitous issues are processed as indicated in paragraph 5-4*h*.

c. *Submission of form.* DA Form 3078 is submitted only to the supporting installation.

5-14. Non-pay status

a. When enlisted Soldiers are in a non-pay status, issues of clothing are authorized if necessary. Individual charge sales will not be prepared for clothing issues for Soldiers in a non-pay status. Clothing ordered will be chargeable to OMA funds and through normal supply channels.

b. Serviceable recoverable items will be withdrawn when the issue of clothing is no longer required by the Soldiers involved. Commanders of units other than confinement or control facilities will turn in withdrawn serviceable clothing to the ISDs.

Chapter 6

Clothing Initial Issue Point

6-1. Introduction

- a. Procedures may be modified, if necessary, to adapt to automation. This includes changes to DA Form 3078 and DA Form 4886 to make them more suitable to the automated system. However, the automated system must meet these requirements to establish effective internal accounting control.
- b. The CIIPs are staffed and operated under the guidelines for baseline services. The goal of TRADOC is to clothe each Soldier with 100 percent of their authorized clothing as stated in CTA 50-900. Clothing and footwear will be fitted in accordance with TM 10-227 before Soldiers leave the CIIPs or the distribution centers. If 100 percent of the CB items are not issued during initial processing, then commanders will make every possible effort to obtain needed clothing for the Soldiers involved. Clothing forms (DA Form 3078) will not be destroyed until 100 percent of all authorized issues have been made and the Soldiers reach their initial permanent duty stations. DA Form 3078 will be kept for RC members in compliance with paragraph 12-6c.

6-2. Concept of operations

CIIPs—

- a. DLA-TS (as an agency of the U.S. Government) “owns” the inventory in the CIIPs. DLA-TS has designated the CIIP inventory as depot assets of the DLA-TS. The DLA-TS will direct the transfer of stock among the CIIP sites. Adjustments to CIIP accounts will be in accordance with DLA guidance and operating procedures. Adjustments include, but are not limited to, price changes and inventory adjustments.
- b. The overall management of CIIP operations, including the ownership and maintenance of all buildings, equipment, and personnel, falls under U.S. Army Sustainment Command (ASC). The policies and procedures associated with the issuance of clothing by the CIIPs are coordinated through collaboration and cooperation among the DCS, G-4 (DALO-SPT), TRADOC, ASC, and the CIIPs.
- c. The operation of the CIIPs is assigned to the custodial officer appointed by the Army Field Support Brigade (AFSB) commander within that select region. There are four main CIIP centers and two reside in each AFSB footprint.
- d. The appointed custodial property officer and supported staff will perform Supply and Distribution functions, to include receipt, storage, issue, and inventory of DLA owned material in accordance with DoDM 4140.01, DoD Supply Chain Materiel Management Procedures, Installation Baseline Level of Service Standards, and DLA standard operating procedures (SOPs).
- e. Funds to operate the CIIPs are managed through ASC.

6-3. Inventories

- a. Formal inventories are taken twice a year with at least 4 months between inventories as follows:
 - (1) DLA will determine the procedures and times of the inventories.
 - (2) When a new manager or custodial officer is appointed.
 - (3) Informal inventories are taken as required between formal scheduled inventories. These inventories are taken to determine the condition of the account and the losses, gains, errors, price changes, and replenishments.
- b. Facilities may be closed for a period not to exceed three workdays when formal inventories are made.
- c. Coordination with TRADOC must occur prior to any CIIP shutdown to reduce impact on training schedule.

6-4. Operations

- a. All CIIP operating sites will maintain stocks of complete tariff sizes of CB items and footwear (see Supply Bulletin 10-523).
- b. All clothing must be free of wrinkles before try on and issue.
- c. All footwear and outer garments will be tried on and fitted while the Soldiers wear proper garments. For the proper fitting of uniforms and footwear, see TM 10-227 or TRADOC SOPs for CIIPs.
- d. Required alterations will be made within 5 days after issue.

- e. Only authorized alterations will be made.
- f. No alteration will change the approved concept of fit.
- g. The requirements for special-measurement clothing or footwear are discussed in chapter 7 of this regulation.

6-5. Physical layout and processing

a. Efficiency in operation can best be obtained by using a self-contained facility that has areas for the following:

- (1) Adequate storage space.
- (2) Orientation and disrobing.
- (3) Recording physical measurements.
- (4) Providing an orderly sequence for issuing initial allowances of clothing.
- (5) Providing a final check of items issued, alterations made, and pressing performed.

b. The CIIPs, other than Army (OTA) locations, and other distribution centers will be attractive and will provide services in such a way as to make favorable impressions on the new Soldiers.

c. An orientation about the clothing issue procedures and the mechanics of the monetary allowance system for clothing will precede the recording of body measurements (see chap 4). Proper fitting and wearing of the uniform will be emphasized. Before arrival at the CIIP, Soldiers to be processed will have obtained fresh showers and fresh haircuts.

d. The importance of proper fitting of uniforms and footwear must be stressed, rather than processing at a high rate. Showing training films on fitting Army uniforms and footwear is encouraged for maximum use of on-the-job training. Issue sequence will be established locally. Each Soldier must ensure to have received all items issued. After the completion of issuing, each Soldier will sign all copies of the receipt for the transaction.

e. An issue may be provided when a Soldier reports to the reception station.

f. Soldiers will not sign DA Form 3078 or receipts until they receive the clothing.

g. Exchanges for misfit garments (see para 5-11) and damaged items (see para 5-12a), will be made within the established time limits.

h. If a Soldier does not meet the requirements of TM 10-227 before departure from IET, misfit exchange will be made.

6-6. Alteration facilities

Alteration facilities will be established at each CIIP, OTA location, or distribution center. There must be enough equipment to ensure that all clothing issued to Soldiers is altered adequately to achieve proper fit. The authorized repair shops and contractual alteration vendors will be used to make alterations.

Chapter 7

Special-Measurement Clothing and Footwear

7-1. Special measurement clothing

Special measurement clothing items are manufactured to the specific measurements of a particular person. These items are authorized only for Soldiers who cannot be properly fitted with standard tariff sizes or by authorized alterations. Unless directed otherwise, Soldiers take all special measurement clothing with them on PCS moves. Retired members are not provided with special measurement clothing.

7-2. Procedures for the supply of special measurement clothing

a. If a Soldier cannot be fitted from tariff sizes or by authorized alterations at the time of initial issue or sale, that Soldier may be measured for special-measurement clothing. The measurements are recorded on DD Form 358 (Armed Forces Measurement Blank—Special Sized Clothing for Men) or DD Form 1111 (Armed Forces Measurement Blank—Special Sized Clothing for Women). ARNG requirements may be ordered by using the automated process specified in the CCD User Handbook.

b. The CIIP, OTA, or distribution center prepares DD Form 358 and DD Form 1111 in quadruplicate and sends them to the ISD. Then the ISD prepares DD Form 1348-6 (DoD Single Line Item Requisition System Document, DoD (Manual-Long Form)). The name of the Soldier for whom special-measurements form is attached and a description of item ordered are entered in the "remarks" column of the form.

(1) The originals of DD Form 1348 and either DD Form 358 or DD Form 1111 are submitted to the Commander, DLA-TS (DLA-TS-FRC) (Room 310), 700 Robbins Avenue, Philadelphia, Pennsylvania, 19111-5092. Requisition priority 06 is used for requests for initial issue clothing for new Soldiers in compliance with AR 725-50.

(2) The supply officer or designator keeps one copy of DD Form 1348-6 and one copy of the special measurement form.

c. Two copies of the special measurement form are annotated to show the assigned requisition number. One copy is returned to the preparing activity. The supply officer sends the other copy to the commander of the Soldier being fitted. This copy is then filed with the Soldier's assigned unit. It is destroyed when the Soldier receives the item. Follow up action is maintained on the supply status until the transaction becomes complete, and the items arrive.

d. AMCS staff members prepare DD Form 358 and DD Form 1111 in compliance with EOP 40-4. When items are received, the AMCS or CIIP notifies the Soldier's commander that the items are available. The unit supply sergeant or specialist prepares a DA Form 3078 as outlined in paragraph 1-6p when the items are to be issued. For a hard-copy submission, include the original and four copies.

e. If the Soldier is transferred before the requisitioned items arrive, these actions are required:

(1) The Soldier's commander provides a copy of the transfer orders to the OTA, AMCS, distribution center, or CIIP.

(2) The OTA, AMCS, distribution center, or CIIP immediately—

(a) Advises the commander, DLA-TS, of the new address of the Soldier.

(b) Cites the requisition number.

(c) Requests that the clothing be forwarded to the Soldier's new location.

(3) The commander, DLA-TS, immediately advises the OTA, AMCS, distribution center, or CIIP whether the change can be made.

(4) If the clothing arrives at the station after the Soldier is transferred, the AMCS, OTA, distribution center, or CIIP ships the items to the AMCS of the new station by the most expeditious means. A copy of the order transferring the Soldier is sent with the items.

(5) If the DA Form 3078 or a receipt indicates the non-receipt of one or more special measurement items, the Soldier's commander immediately notifies the AMCS or CIIP. The notification will initiate a follow up action, and a resubmission of a special measurement requisition for the same item or items can be prevented.

f. If items are received after the Soldier is honorably discharged or relieved from active duty, the Soldier is advised that the items are available and can be bought within 60 days. If the Soldier does not wish to buy the items within the 60 days, the items are processed for turn in.

7-3. Special measurement footwear

a. Special measurement footwear consists of boots or shoes that must be manufactured for size only. Those items are not included in regular sizes stocked in the depot system. Rather, they are manufactured to a Soldier's specific measurement. Special measurement footwear is included under the clothing replacement system. Retired members are not provided with special-measurement footwear.

b. That footwear is authorized only for Soldiers who cannot be properly fitted from standard tariff sizes. Unless directed otherwise, Soldiers take all special measurement footwear with them on PCS moves.

c. Commanders of ACOMs may approve the issue or sale of authorized allowances of combat boots and shoes to active duty Soldiers with mismatched feet to ensure a proper fit of both feet. Soldiers will pay the current standard price of only one pair of such footwear. The Army CIIP, OTA, distribution center, or AMCS issuing or selling this special footwear is authorized to dispose of the remaining unused footwear through DLA Disposition Services.

7-4. Procedures for supply of special measurement footwear

a. A Soldier who cannot be fitted properly with regular-tariff sizes of footwear is sent to the local medical facility. A member of the medical office prepares a DD Form 150 (Special Measurement Blank for Special Measurement /Orthopedic Boots and Shoes) in quadruplicate. The form is forwarded to the AMCS, where someone prepares a DD Form 1348-6 in quadruplicate for a trial pair of special measurement footwear. When both low-quarter shoes and combat boots are required, the combat boots are the trial pair. The name of the Soldier and the type of footwear are annotated in the "remarks" column of the requisition.

(1) Originals of DD Form 1348–6 and DD Form 150 are mailed to the Veterans Integrated Service Network, 3 VA Medical Center (Network Prosthetics), 423 East 23rd Street, New York, New York, 10010–5011.

(2) The AMCS keeps two copies of DD Form 150 and DD Form 1348–6.

(3) The requisition number is annotated on DD Form 150. One copy is sent to the unit commander of the Soldier requesting the special measurement footwear.

b. The AMCS manager arranges an appointment between the Soldier and the local medical facility on receipt of the trial pair of boots and the fitting report from the VA Medical Center. The fitting report must be kept with the footwear. A medical officer determines whether the footwear fits properly and then completes the fitting report thus—

(1) If the footwear does not fit, the medical officer records all changes required on the fitting report. The medical facility returns the report and the footwear to the AMCS manager, who returns the fitting report and the trial pair of footwear to the VA Medical Center for correction.

(2) If the trial pair fits properly, the medical officer completes the fitting report and forwards it to the AMCS manager. The AMCS manager completes the issue or sale as prescribed in paragraphs 3–6 and 5–3.

c. After the trial pair is fitted properly, the AMCS prepares a requisition for the balance of the footwear authorized for issue or sale to the Soldier. The requisition is sent with the fitting report to the Defense Orthopedic Footwear Clinic.

d. On receipt of the remaining footwear and later deliveries of replacement special measurement footwear, the procedures in paragraph 7–4b apply. When the issue or sale is complete, the annotated DD Form 150 is forwarded to the unit for filing in compliance with AR 25–400–2.

e. When a Soldier needs replacement footwear, the Soldier reports to the AMCS with the copy of DD Form 150 (for the previous issue or sale). The AMCS refers the Soldier to a medical facility to determine whether the Soldier's foot measurements have changed. If measurements have changed, a new DD Form 150, marked "revised," is prepared. This form is sent with the requisition. Otherwise, replacement footwear is requisitioned with a statement that the previously requisitioned measurements are satisfactory. The original DD Form 150 or a copy of the new revised form is marked with the requisition number. The form is sent to the Soldier's unit for retention.

f. The AMCS manager ensures that DD Form 150 is forwarded promptly to the VA Medical Center.

g. When a Soldier is transferred before the requisitioned items arrive, or if the Soldier has become honorably discharged or relieved from active duty, the procedures in paragraphs 7–2e and 7–2f apply. The VA Medical Center is notified of the Soldier's new duty station.

7–5. Prices of special measurement clothing and footwear

See paragraph 3–4 of this regulation.

Chapter 8

Civilian Clothing

8–1. Introduction

a. This chapter implements 37 USC 418–419 and Department of Defense Directive (DoDD) 1338.05, which provide policy for the civilian clothing allowance (CCA) for officers and enlisted members. DoDI 1338.18 provides procedures, Servicemembers directed by competent authority to dress in civilian clothing more than half the time while performing official duty, as a military requirement, are eligible to apply for a CCA. By law, an officer is authorized a CCA only if the officer is assigned to a permanent duty station at a location outside the United States (see para 8–2b). Enlisted Soldiers who are on extended active duty and assigned within or outside the United States are eligible to apply for a CCA (see para 8–2a). This includes classified duties, but it does not include officers or enlisted Soldiers who are discharged from the service after release from confinement, and whose punitive sentences have been served.

b. The CCA program applies also to USAR or ARNG members on orders to active duty for more than 179 days who meet the requirements in this chapter.

c. Further information may be obtained from the Commander, U.S. Army Human Resources Command (AHRC–ALL–S), 1600 Spearhead Division Avenue, Fort Knox, Kentucky, 40121–5205.

8-2. Who may receive this allowance?

a. Enlisted Soldiers. When wearing civilian clothes while performing official duty, regardless of where assigned, as a military requirement more than half the time, and when approved by the appropriate official as stated in paragraph 8-3, enlisted Soldiers may be authorized this allowance. Enlisted Soldiers may receive payment of this allowance 90 days before their report dates as stated in their orders to procure the clothing prior to assuming their new duties. The criteria is as follows:

- (1) Duty at the White House. The military aide decides whether civilian clothing is necessary or suitable.
- (2) Performing Congressional escort duties. The Chief, Legislative Liaison, decides whether civilian clothing is necessary or suitable.
- (3) Assigned to intelligence, security, or related activities requiring the wearing of civilian clothing.
- (4) Assigned to permanent or temporary duty (TDY) in a foreign country where the host-nation Government prohibits U.S. military personnel from wearing their military uniforms.
- (5) Assigned or attached to Army attaché offices. The DCS, G-2 decides whether civilian clothing is necessary.
- (6) Assigned to a military assistance advisory group (MAAG). The chief of the MAAG decides whether civilian clothing is necessary.
- (7) Assigned to an explosive-ordnance disposal (EOD) unit to protect the President of the United States or other high-ranking officials.
- (8) Assigned to duty in support of protective missions of the U.S. Secret Service or as explosive-detector dog (EDD) handlers.
- (9) Assigned to a law-enforcement activity, as a military-police investigator (MPI), or to the U.S. Army Criminal Investigation Division (USACID).
- (10) Assigned to AFC. Enlisted personnel assigned to AFC who are required to wear civilian clothing more than half the time while performing official duty.

b. Officers. By law an officer is authorized a CCA only if the officer's permanent duty station is outside the United States. The officer may receive a payment of this allowance 90 days before the report date as stated in the orders. Examples include officers who are—

- (1) Assigned to permanent duty or TDY in a foreign country where the host-nation Government prohibits U.S. military personnel from wearing their military uniforms.
- (2) Assigned outside the United States to intelligence, security, or related activities requiring that civilian clothing be worn.
- (3) Assigned outside the United States or attached to Army attaché offices, including trainees as foreign-area officers in-country. The DCS, G-2 decides whether civilian clothing is necessary.
- (4) Assigned outside the United States to MAAG activities. The chief of the MAAG decides whether civilian clothing is necessary.

c. Training with industry. Officers and enlisted Soldiers in the training with industry program do not qualify for CCA.

8-3. Who may approve this allowance?

Officers and enlisted Soldiers who are required to wear civilian clothing more than half of the time while performing official duty, and who desire a CCA, will ask their unit commanders to create the written justification required in compliance with paragraph 8-5. Each unit commander will forward the request for approval to the first General or the first Senior Executive Service (SES) official in the Soldier's chain of command for approval. Approval authority for a CCA may not be further delegated below the first General or the first SES official. The following types of requests require special handling:

a. CCA requests for officers or enlisted special agents of the CID will be sent from the unit commander to the Director, USACID, 27130 Telegraph Road, Quantico, Virginia, 22134-2253, for verification and approval authority.

b. Requests for enlisted MPI Soldiers will be sent from the unit commander to the losing or gaining ACOM points of contact for approval. MPI requests must conform to procedures in AR 190-30.

c. Requests for officers and enlisted Army attaché Soldiers cannot be submitted until the members officially sign in with the U.S. Army Intelligence and Security Command (INSCOM). Requests will be sent from the Soldier's unit commander to the Commander, INSCOM (U.S. Army Field Support Center) (IAPE-MP), Fort Meade, Maryland, 20755-5905, for verification of attaché status.

d. Classified requests for a CCA must be processed using secure means from the Soldier's unit commander to the gaining ACOM for approval.

e. Requests for officers performing duties as foreign-area officers must be forwarded through the appropriate supporting personnel officers at Fort Meade, Maryland; Fort Shafter, Hawaii; or U.S. Army Security Assistance Agency, Latin America, at Fort Buchanan, Puerto Rico, before the applicable command approval.

8-4. Types and quantities of this allowance

The types of assignments or conditions under which civilian clothing may be required can vary. For this reason, the specific type and quantity of clothing cannot be fixed. However, the clothing must meet the generally accepted standards for business, dress, and work in the settings where the members will serve. The purchase of items or accessories, or the quantities of them, will not be authorized unless they are necessary to the performance of the official duties in question. The rates for a CCA will be effective at the beginning of each fiscal year (on 1 October), and they will be stated in the DoD Pay Entitlement Manual. The category of allowance and the criteria for each allowance are the following:

a. *Initial permanent duty civilian clothing allowance.* This allowance is authorized when an enlisted Soldier is initially assigned to a normal tour of permanent duty requiring the full-time wearing of civilian clothing, or when an officer is initially assigned outside the United States to a normal tour of permanent duty requiring the full-time wearing of civilian clothing.

(1) An initial permanent duty CCA will not be paid to any member more than once in any 3-year period, or if the servicemember has been out of a qualifying permanent assignment for fewer than 12 months.

(2) If a member receives a follow-on permanent assignment requiring the wearing of civilian clothing within 3 years of receiving a permanent CCA or within fewer than 12 months after completing such a qualifying permanent assignment, the member will have a right to receive another permanent duty replacement CCA.

(3) A member who has received a TDY CCA within the 12 months of starting an assignment authorizing a permanent duty CCA will have the permanent duty CCA reduced by the applicable TDY CCA.

b. *Permanent duty replacement civilian clothing allowance.* The permanent duty replacement allowance is equal to one-third of the initial permanent duty CCA. The permanent duty replacement CCA is authorized to officers and to enlisted Soldiers thus—

(1) Beginning on the Servicemember's anniversary month of the qualifying permanent assignment that calls for the CCA, if Servicemember is projected to serve at least 6 more months in a qualifying permanent duty assignment, a permanent duty replacement CCA will be paid. If Servicemember is projected to remain in the assignment fewer than 6 months beyond the anniversary month, the replacement CCA will not be authorized. However, if the member does indeed serve at least 6 more months in the assignment past the anniversary month, then the replacement allowance will be paid.

(2) If the member receives a follow-on permanent assignment requiring the wearing of civilian clothing within 3 years of receiving an initial permanent duty CCA, or within 12 months after completing a qualifying permanent assignment, the member will have a right to receive the permanent duty replacement CCA on the original anniversary date.

c. *Temporary duty civilian clothing allowance.* In accordance with DoD Financial Management Regulation (DoD FMR), Volume 7A, Chapter 29, as a general principle, the TDY CCA is for use when the permanent duty allowance is not applicable. Officers are only eligible if assigned outside the United States. Not more than one TDY CCA is authorized during any three-year period. Further, the payment of a TDY CCA is not authorized for Soldiers during an in-transit stopover at a location where civilian clothing must be worn, Servicemembers transiting or visiting foreign countries, to Soldiers on TDY for fewer than 15 days, or Soldiers on TDY for any reason other than on official duty. Requests for TDY CCAs must meet the provisions of paragraph 8-2, they need strict supervision, and the authorizations must not be abused. TDY CCAs are authorized when duty is performed for at least 15 days, either consecutive or cumulative. Reenlistment within 3 months after separation is considered as continuous active duty for this purpose.

(1) *A temporary duty allowance (for at least 15 days, consecutive, or cumulative, but fewer than 30 days).* This is authorized either to enlisted Soldiers, or to officers who are assigned to TDY outside the United States, who are required to wear civilian clothing at least 15 days, consecutive, or cumulative, but fewer than 30 days within any 30-day period. This 15-day minimum requirement does not apply to EOD personnel or EDD handlers on duty in support of protective missions of the U.S. Secret Service, to

couriers of the Defense Courier Service, or to Defense Threat Reduction Agency military personnel (DoD FMR), Vol. 7A, Chapter 29, paragraph 5.3.2.1.

(2) *Temporary duty allowance (for more than 30 days)*. TRADOC Regulation 37–2. This is authorized either to enlisted Soldiers, or to officers who are assigned to TDY outside the United States, who are required to wear civilian clothing more than 30 consecutive or cumulative days within any 36-month period. The maximum allowable amount is two-thirds of the initial permanent duty CCA less any amount paid during the past 36 months.

8–5. Procedures for requesting this allowance

a. Officers and enlisted Soldiers eligible for CCAs will request them no later than 30 days before departure or upon arrival at the new duty assignment or the TDY station. However, when officers and enlisted Soldiers who are eligible to receive CCAs, and who have received PCS orders to OCONUS locations, they may receive the payment of the CCAs within 90 days before their respective report dates (as stated in their orders) – to avoid undue hardship on the Soldiers because of the cost or unavailability of civilian clothing at many OCONUS locations. This advance payment will not affect any Soldier's anniversary date for subsequent payment at the end of the tour.

(1) The unit commander of each subject member will submit a memorandum to the first General or first SES official in the Soldier's chain of command for approval. The memorandum will include all the information necessary about the member and the circumstances. A failure to state this will cause a delay in processing and a possibility of disapproval: name, rank, DoD ID, MOS, and special-skill identifier.

(2) The memorandum must include the requesting Soldier's name, rank, or DoD ID number, a written justification with type of civilian clothing required (business or business casual), and a copy of the orders (if applicable). The written justification is extremely important in enabling the reviewing official to approve or disapprove the request. If the orders to the TDY or assignment state that civilian clothing is required, then a copy of the orders must be included. If the orders do not state a requirement for civilian clothing, but the host Government requires the wearing of civilian clothes the commander of the gaining unit, or the U.S. ambassador to the host-nation, will request civilian clothing be added to the orders. If a Soldier is required to wear civilian clothing full-time for official duty for a reason other than a requirement of the host Government, then a written justification must be included. The justification must be detailed enough that the request can stand alone, and it must describe the details about the relationship of the anticipated duty to intelligence, security, or other such activity. The justification must include the following:

- (a) The date of the expiration of the term of service, retirement, or REFRAD of the requesting Soldier.
- (b) The date when the Soldier arrived at the current assignment.
- (c) The date when the Soldier is due to rotate from the assignment; the date eligible for return from OCONUS or PCS date.
- (d) The new date of departure from the assignment due to an extension.
- (e) The starting and ending dates of the subject TDY or assignment.
- (f) The starting and ending dates for the mandatory wearing of civilian clothing, inclusive of date referenced in paragraph 8–5b.

b. The request must include this statement, which the unit commander will verify: "This Soldier will be required to wear civilian clothing full-time for official duty for about (number) months."

8–6. Procedures for receiving this allowance

a. The approving authority authorizing payment of the CCA will send a memorandum to the local Defense Military Pay Office and will send a courtesy copy of the approval memorandum to the requesting Soldier's unit for the member's personnel file.

b. Commanders have the direct supervision and responsibility for expenditures. They will ensure that–

- (1) Full use is made of garments provided under the clothing allowance system.
- (2) Only clothing required in performing duties is bought.
- (3) Each requesting Soldier must buy clothing within 30 days of receiving the allowance. The Soldier will verify the purchase(s) by presenting the sales receipt(s) to the member's supervisor or unit commander.

- (4) The payment of allowances is to be recorded in each Soldier's record of pay-and-allowances.
- (5) If a Soldier does not use the funds (or all of them) for the purpose authorized, the unit commander, together with the local DFAS, will prepare a DD Form 139 to start collection action against the member.

(6) If a Soldier does not receive the funds because of a change in assignment or a REFRAD, the unit commander will endorse the original memorandum back to the approving authority for accountability.

(7) Civilian clothing issued or bought under this regulation is expendable property and does not require military accountability. A Soldier may permanently keep civilian garments issued to them. However, the civilian garments must be available for use in other assignments during the 3 years after the authorization.

(8) Officers and enlisted Soldiers who must wear civilian clothing are responsible for the upkeep of their military clothing while they wear civilian clothing.

Chapter 9

Supply of Individual Clothing for Senior and Junior Reserve Officers' Training Corps

9-1. Purchase limitations

a. Uniform items, including footwear, clothing, and embellishments, such as insignia and devices, may be provided to schools hosting ROTC programs. The acquisition of these items is limited to those authorized in CTA 50-900. ROTC units will submit requisitions by using DA Form 2765-1 (Request for Issue or Turn in) to the proper support installations, or as otherwise prescribed by Headquarters, U.S. Army Cadet Command (USACC). Emergency requirements for ROTC units may be submitted to AMCS in compliance with paragraph 9-5e.

b. Purchases from the AMCS are limited to those items in paragraph 9-1a. Individual ROTC cadets are not authorized to buy any item except as provided in paragraph 3-1k. When a senior commander determines that the AMCS is unable to provide clothing, then the institution will submit requisitions, by using DA Form 2765-1, to the correct supply source.

c. An institution may want ROTC military science (MS) IV cadets, scheduled to be commissioned, to wear the prescribed Army uniform at graduation or commissioning exercises. The institution must wait 90 days before the anticipated date of commissioning, to act as the agent for the cadets and buy the uniforms or other clothing for the cadets on a cash-basis only. ROTC cadets are not authorized to receive uniform allowances until they receive their commissions, report for active duty, and pass physical examinations. Therefore, cadets will not buy uniforms for commissioning, nor will they be required to reimburse the institutions for those expenditures on the behalf of the cadets. Purchases under this authority:

(1) May be made from the AMCS.

(2) Are limited to not more than 90 days before graduation.

d. After receiving a certificate of pregnancy in the case of a cadet, a PMS may authorize the purchase of a maternity ASU and a maternity OCP for an SROTC cadet in compliance with CTA 50-900. For reserve personnel, Army (RPA) and OMA purchases, funds will be used as appropriated. Use the nearest AMCS or online military catalog-sales procedures to buy ASUs. Use standard Army supply procedures to procure the OCP, except when a catalog or credit card purchase is authorized because of the remote location of an ROTC unit. Purchases are limited to one ASU and one OCP per pregnant SROTC cadet. Maintaining an inventory of maternity uniforms at the unit level is not authorized.

9-2. Limitations on issue

a. Uniforms and equipment will be issued to enrolled members of the ROTC program (either JROTC or SROTC). The use of uniforms and equipment is limited to the activities that best achieve Army objectives.

b. Foreign students who meet the criteria established in AR 145-1 are authorized to wear Army uniforms.

c. Conditional and auditing students are not authorized to wear Government-bought uniforms and equipment or to receive a commutation allowance (see AR 145-1).

9-3. Conservation of uniform clothing

a. The PMS or senior Army instructor at each ROTC unit will ensure that serviceable uniforms on hand are applied against current and future needs, based on firm enrollment data.

b. Cleaning and restoring issue-in-kind uniforms and making authorized alterations (such as sleeve and trouser lengths, minor changes in waist measurements, and sewing on authorized embellishments) will be done before an issue or reissue to ROTC cadets. This is done under contract at the lowest rates,

consistent with satisfactory workmanship. Cost is at Government expense, except as indicated in paragraphs 9–3b (1) and 9–3b (2).

(1) Purchases, restoring of uniforms, and footwear will be funded by using appropriated funds.

(2) Each cadet will pay for cleaning and normal maintenance of uniforms and footwear in their possession. Cadets are not required to clean their uniforms for turn in or to pay for repair or restoration caused by FWT.

c. Under the allowances prescribed in CTA 50–900, each enrolled ROTC cadet is authorized to receive one pair of shoes. Each cadet is also authorized two pairs of cotton socks.

(1) Maintenance, repair, and replacement of shoes, combat boots, and socks, while in the possession of cadets, are at the expense of the individual cadets, except under the conditions in paragraph 9–3c(2).

(2) At schools where uniforms are furnished on an issue-in-kind basis, when shoes, combat boots, or socks become lost or destroyed while in the possession of a cadet, the replacement will be at the expense of the Government only when the loss or destruction occurred during ROTC training but not through the fault or neglect of the cadet.

9–4. Requisitioning channels

a. Supply of individual clothing and distinctive insignia normally comes from distribution depots. Supply from support installations may be made as provided in paragraph 9–4c under these circumstances:

(1) When stock is available to meet ROTC requirements, and an overall savings to the Government is realized. Support installation requisitioning objectives will not be increased to meet annual ROTC requirements.

(2) When a school is located near a support installation, the use of Government vehicles is authorized when available at the installation.

b. All requisitions, including those for special-measurement items, will be submitted to the supply source through the support installation, unless otherwise prescribed by Headquarters, USACC. The support installation will provide the fund cite, and it will send the requisition to the proper supply source. The supply source will then send the shipment directly to the ROTC unit.

c. Excess serviceable stocks of ROTC clothing will be turned in to the supporting ISD.

9–5. Requisitioning procedures

a. For requisitions placed on DLA activities or National Inventory Control Points, see AR 725–50.

b. DA Form 2765–1, as prescribed by Headquarters, USACC, is used to request items of clothing. Assign and record a document number from the expendable or durable document register for the ROTC unit's clothing requests.

c. Each year ROTC units will submit requisitions, using DA Form 2765–1, for uniform items for the following year after the close of the school year just finished. ROTC funds are cited on all requisitions. Requisitions are prepared thus—

(1) Requisitions normally are based on the actual enrollment at the beginning of the previous school year, less quantities of serviceable items on hand. Quantities may be increased to provide likely increases in enrollment. Caution must be taken in the quantities approved to prevent excess at the ROTC unit.

(2) Maximum inventory is authorized for emergency, replacement, and sizing. To provide flexibility in the availability of a variety of sizes, each ROTC unit may keep an extra amount not more than 20 percent of its enrollment.

(3) Additional uniforms may be requisitioned at later enrollment periods if stocks on hand are insufficient, or if they cannot be used to fill the requirements (because of mismatches in sizes). In such cases, the requisition will be based on the actual measurements (to the nearest tariff sizes) of the cadets who cannot be furnished uniforms from present stocks. Requisitions of this sort will be held to the minimum.

d. For JROTC cadets an extra amount of not more than 20 percent of the predicted sized uniformed items (based on JROTC enrollment) may be requisitioned and stocked at all JROTC units for emergency replacement, sizing, and distribution.

e. To accommodate emergency requirements for ROTC units, the PMS of an ROTC unit determines that an emergency exists for items of clothing that normal requisitioning does not allow enough time, a DA Form 3078 for each cadet will be prepared to acquire items from the AMCS at the support installation. The unit supply sergeant or specialist will submit the DA Form 3078 in accordance with paragraph 1–6p.

f. When hard copies of the DA Form 3078 are used during network outages, these requirements apply:

(1) The AMCS will not process bulk issues of clothing under this provision, so do not create bulk request.

(2) The DA Form 3078 will be prepared in seven copies, with one copy kept for the unit's suspense file and the remaining six copies forwarded to the budget analyst of the support installation controlling the funds for the support of the ROTC unit.

(3) The budget analyst will provide certification of fund availability and will place applicable cost code data on the DA Form 3078 in block 30. The analyst will keep one copy for fund control and will forward the five remaining copies to the AMCS.

(4) The AMCS will complete the transaction, return one copy to the cadet or the unit, keep two copies for the AMCS, and will forward the two remaining copies, batched under ROTC, to the servicing installation. If the item is not available, the document will be returned through the budget analyst of the support installation to the requisitioning institution.

g. The above procedures apply only to emergency requirements for ROTC units; they are not intended to cover routine supply transactions. ROTC units will verify the availability of items before submission to the AMCSs. Items not available from AMCS will be requested through the ISD budget analyst.

9-6. Measuring instructions

a. Non-recoverable items. Headquarters, USACC, establishes, and implements the procedures for the management and control of non-recoverable items.

b. Uniform items. Taking measurements of ROTC cadets to requisition sized uniform items is subject to the requirements of the applicable fitting manuals.

c. Special sizes. ROTC cadets of unusual stature may require clothing in sizes other than those listed in the size schedules.

(1) Instructions for measuring these cadets appear on DD Form 358 and DD Form 1111.

(2) Those forms will be attached to requisitions for special-size clothing items. The requisitions will be sent to the Commander, DLA-TS (DLA-TS-FRC), Room 310, 700 Robbins Avenue, Philadelphia, Pennsylvania, 19111-5092.

d. Shoe measurement. Applicable fitting manuals contain instructions for measuring shoes requisitioned from Government sources. Procedures for the supply of special-measurement footwear are contained in chapter 7. A DD Form 150 will be completed for any student requiring special footwear. The form is attached to special-measurement shoe requisitions. The requisitions will be mailed to the Veterans Integrated Service Network, 3 VA Medical Center (Network Prosthetics), 423 East 23rd Street, New York, New York, 10010-5011.

9-7. Supply of individual clothing through the commutation of uniform allowance

See chapter 10.

9-8. Purchase of individual clothing from Army stocks

See paragraph 9-1.

9-9. Issue and sale of footwear and sale of personal clothing

a. Accountability for combat boots, low-quarter shoes, women's pumps, and non-recoverable items will not be maintained by the military-property custodian (MPC), military-property specialist (MPS), Army ROTC property book officer (PBO) or primary hand receipt holder after the issue to Army ROTC cadets; instead, such issues to cadets will be recorded on hand receipts.

b. Army ROTC cadets will be responsible for all leather footwear issued to them. SROTC cadets who fail to complete the first school year of either the basic or advanced course, along with JROTC cadets who fail to complete the first year of their program, will be given an opportunity to buy their leather footwear at 50 percent of the current sales price. Cadets who decline the opportunity to purchase the shoes or boots must turn them in with all the other clothing items. The disposition of items turned in will be as prescribed by Headquarters, USACC, under proper accountability exemption provision in compliance with AR 710-2. Reimbursement or turn in by ROTC cadets will not be required for such items that have been in their possession for at least one complete school year. Accountability will be re-established for leather footwear by preparing DA Form 4949 (Administrative Adjustment Report (AAR)) as "Cadet Return," with an attached roster of students. The AAR will be recorded on the document register and posted to the property book. Used boots and shoes will be posted to a separate property book page with the word

“unserviceable” inserted on the first and last transaction lines to allow accounting for used and new footwear. The bulk turn in of unserviceable items will be conducted at least annually. Turn in will be made to the supporting installation. Reimbursement or turn in will not be required for such items that have been in the possession of students for at least one complete school year.

c. CTA 50–900 prescribes the ROTC authorized allowances for the issue of personal clothing to each SROTC cadet. SROTC cadets may buy the ROTC authorized allowance of personal clothing, less shoes, and recoverable items that have been used for 2 school years (also applicable to clothing issued as replacement due to FWT and for newly fielded clothing items issued) at 50 percent of the current sales price contained in DoD FedMall. This provision also exists for cadets who are to be commissioned through the early-commissioning program or those who have completed MS IV within 90 days of expected commissioning.

d. The procedures for collecting and accounting for the sales of footwear and uniform clothing to ROTC cadets are thus—

(1) At a school where the Army has property accountability, cadets will pay by using postal or bank money orders or cashier’s or certified checks, each of which must be made payable jointly to the DFAS and the supporting installation. This avoids the need to handle cash. The Army ROTC PBO or the primary hand receipt holder will transmit the pay instruments to the appropriate DFAS with a completed DD Form 362 (Statement of Charges/Cash Collection Voucher) made in triplicate. Each collection voucher will show that the funds remitted represent payment for the goods bought. The representative of the ROTC unit will file a receipted copy from the DFAS.

(2) Schools with property accountability will prescribe procedures for collecting from the cadets concerned. Each school will prepare and forward the checks and money orders to the appropriate DFAS. The remittance will be accompanied by a statement, which will clearly show the quantity and type of items sold.

(3) For each remittance the DFAS will prepare a DD Form 362 and send the original and a receipted copy to the school as a credit voucher. If one or more payment instruments are made payable to the U.S. Treasury, they will be accepted and processed immediately notwithstanding the inscription.

(4) The remitted funds will be credited as “appropriation refunds” identified to the specific fiscal station of the related support installation.

9–10. Accounting for clothing

a. All individual clothing items, including insignia, are exempt from the formal property accountability procedures contained in AR 710–2. Headquarters, USACC, is responsible for developing measures to control and safeguard against the loss of clothing items due to fraud, waste, and abuse.

b. Individual clothing will be issued to cadets on DA Form 3645–1. Each person receiving the property will sign and date the clothing record, acknowledging the responsibility for the property in the event of loss or damage (see AR 735–5).

c. In cases where one PBO, MPC, or MPS is accountable for multiple ROTC units (that is, several high schools with JROTC units or extension centers or cross-enrolled schools with SROTC units), separate jacket files will be maintained for receipts covering clothing items issued to the respective ROTC units. The PBO, MPC, or MPS may issue clothing items in bulk to the units on DA Form 2062 (Hand Receipt / Shortage Listing). Issues to individual cadets will be done by the hand receipt holder as specified in paragraphs 9–11a through 9–11e. In this instance the hand receipt holders maintain the cadet-clothing hand receipts on file at the ROTC units.

d. All JROTC and SROTC cadets are required to sign a statement declaring, “I understand that, if I owe a debt to the Government due to a loss, damage, or destruction of individual clothing, I consent to the notification of the debt to my parent(s) or guardian(s) and notification of the debt to my school, along with a request that my school withhold my grades and transcript pending the payment of my debt.”

9–11. Storage of clothing at the end of each school year

a. At the end of each school year, all ROTC cadets will turn in all clothing issued to them; they will turn it in to the PBO, MPC, or MPS or designated hand receipt holder.

b. The PMS of any SROTC unit may authorize enrolled SROTC cadets to keep non-recoverable items during the summer months. The PMS may also authorize cadets scheduled to attend SROTC advanced camp or ranger camp to keep additional items.

- c. The MPCs of JROTC units may authorize enrolled JROTC cadets to keep non-recoverable items only.
- d. Enrolled ROTC cadets (senior or junior) are not required to have clothing items cleaned before turn in.
- e. The PBOs or MPCs (SROTC or JROTC units) will clean and renovate clothing in accordance with existing instructions. Storage will be in such a manner as to simplify reissue to cadets during the following school year.

9–12. Investigation of financial liability for property

Any loss, damage, or destruction of items of individual clothing by cadets will be accounted for in accordance with AR 735–5 (not applicable to footwear).

- a. If a ROTC cadet admits fault, then allow the cadet to reimburse the Government, using DD Form 362, Statement of Charges / Cash Collection Voucher. Cadet payments will be processed as the school may prescribe.
- b. Quarterly, each school will forward to the DFAS of the support installation a check or U.S. postal money order made payable to the DFAS. The reimbursement will be accompanied by a completed DD Form 362 in triplicate. The DFAS of the support installation will review DD Form 362 for adequacy, and it will deposit the funds. A receipted copy of the DD Form 362 will be returned to the ROTC unit.
- c. If a ROTC cadet does not admit fault or drops out of the ROTC program without returning individual clothing items, then initiate a DD Form 200 (Financial Liability Investigation of Property Loss) in accordance with AR 735–5.
- d. After following all the procedures set out in AR 735–5, if the approval authority determines that financial liability is appropriate, efforts to recoup the debt to the Government will be made, including these:
 - (1) Send a letter to parent(s) or guardian(s) by certified mail, with return receipt requested, informing them of the debt.
 - (2) Send a letter to the school, requesting it withhold grades and transcripts pending the payment of the debt.
- e. The initiator will ensure that DD Form 200, block 1 and blocks 3 through 11, are completed. Block 13 will be left blank. The DD Form 200 will be assigned a document number and will be signed by the accountable officer before forwarding the DD Form 200 to the approving authority. The appointing and approving authority will complete blocks 13 and 14, as applicable, in accordance with AR 735–5. In no case will an approving authority relieve a cadet when there is evidence, prima facie or otherwise, of negligence on the part of the cadet.

Chapter 10

Commutation of Uniforms for Reserve Officers' Training Corps Cadets

10–1. Introduction

Cadet Command is authorized to make monetary payments as substitution for issuing uniforms. Cadet Command is authorized to make substitution payments for all cadets regardless of contract status. Some of the institutions qualifying and approved for substitution payments are as follows:

- a. Military colleges include Virginia Military Institute, Norwich University, The Citadel, and University of North Georgia.
- b. Military Junior colleges (MJC)s include Valley Forge Military Academy and Junior College, Georgia Military College, Wentworth Military Academy and Junior College, Marion, and New Mexico Military Institutes.
- c. Civilian colleges with Corps of Cadets include Virginia Polytechnic Institute and State University and Texas A&M University (College Station), Mary Baldwin College/Virginia Women Institute for Leadership.

10–2. Requesting commutation funds

The authorized representative of each school electing commutation of uniforms or reverting to issue-in-kind uniforms must request authority by 1 June of the year preceding the desired effective school year. The request will show the total expected number of students in MS I, MS II, MS III, and MS IV. Requests will be forwarded to the Commander, USACC (ATCC–TT), Fort Knox, Kentucky, 40121–5205.

10-3. Restrictions on payments

Schools identified in paragraph 10-1a-c will draw issue-in-kind uniforms for cadets enrolled in a partnership school.

10-4. Payments of funds

Commutation payments will be made directly to the cadets after an initial probationary period of enrollment, not more than 60 days.

10-5. Authorized commutation

Commutation funds will be expended to support only the following:

- a. Uniform items, issue-in-kind, or issue to cadets on campus.
- b. Uniform items, cadet-type, worn similar to issue-in-kind uniform items. This includes traditional uniform items, such as capes, when worn with cadet-type uniforms and insignia and accessories (see AR 145-1).

10-6. Disposing of uniforms

Uniforms bought with commutation funds are not Government property, and they do not require accountability as prescribed in AR 710-2 and AR 710-4. Uniforms bought with commutation funds become the personal property of the cadets.

10-7. Uniform commutation rates

The OSD announces commutation rates each year. The intent is for this rate to cover the cost of uniform purchases by SROTC cadets. However, cadets may be required to pay out of pocket any cost (for the purchase of uniforms) in excess of the commutation payments. Commutation applies to these cadets:

- a. Basic course cadets in MS I and MS II enrolled at qualifying schools identified in paragraph 10-1a-c. The definition of "enrolled basic course cadet" is contained in AR 145-1. The Government issues payments to cadets for the MS I and MS II school years. Each of those school years lasts 9 months. The schools may require cadets to pay any cost in excess of what the cadets receive from the Government to buy uniforms.
- b. Contracted advanced course cadets in MS III and MS IV, enrolled at qualifying schools identified in paragraph 10-1a-c. The beginning of the MS III year for each cadet, the Government issues a one-time payment to each cadet to cover uniform expenses for the MS III and MS IV school years (18 months altogether). The schools may require cadets to pay any cost in excess of what the cadets receive from the Government to buy uniforms. However, if a cadet contracts during the MS IV year, only one-half of the established MS III rate will be paid.
- c. Cadets not eligible for commutation funds—
 - (1) Generally, those who are not fully enrolled (see AR 145-1).
 - (2) Auditing students as described in AR 145-1.
 - (3) Conditional students according to AR 145-1. However, when the status of a cadet becomes changed from "conditional" to "enrolled," then the cadet becomes eligible for a commutation payment (see AR 145-1).
 - (4) Foreign students not meeting criteria established in AR 145-1.

10-8. Functions

- a. During December of each year, the Director, DLA-TS, will provide the military department with the current price list of uniform items to be used the following fiscal year.
- b. The DFAS will—
 - (1) Process commutation payments to cadets via the Defense Joint Military Pay System-Reserve Component (DJMS-RC) or ROTC for those submitted by the battalion that are certified and eligible to receive commutation.
 - (2) Provide commutation obligation feedback to the USACC via the monthly reports of the DJMS-RC or ROTC pay system, showing commutation payments by cadet and by school. The monthly pay reports show the payments by cadet, which go to the host ROTC battalions.
- c. The DCS, G-1 will—
 - (1) Prescribe the standard uniform items (for basic and advanced cadets) in quantities authorized.

(2) Develop the commutation rates, based on the ASU and established procedures for annual rate reviews.

(3) Submit to the ASA (ALT) an estimate of the rates of commutation based on the latest DLA-TS clothing rate, by sex and by course, not later than 1 July of each year.

(4) Classify schools as MCs or MJCs.

d. The Commander, U.S. Army Accessions Command (USAAC), will—

(1) Budget for commutation funds.

(2) Provide funds to DFAS for commutation payments.

(3) Submit pay transactions via the DJMS-RC and ROTC pay systems for the issuance of payments to those cadets determined eligible by the respective ROTC battalions for uniform commutation allowances. Those payments will be made via electronic funds transfer to the cadets' checking or savings accounts on file with the DJMS-RC or ROTC pay systems. Those cadets without checking or savings accounts will receive hardcopy checks (made payable to the cadet) at the host ROTC battalions.

(4) Establish policies and procedures to ensure that requisitions of authorized CTA 50-900 do not result in inventory excesses above the levels authorized by this regulation.

(5) Prescribe policies and procedures for the procurement, issue, and wearing of cadet insignia, awards, badges, and decorations that are not inconsistent with law or policy.

(6) Help the DCS, G-1 with an estimate of annual commutation rates.

e. The ROTC brigade headquarters will—

(1) Provide help to schools asking to change from commutation funds to the issue-in-kind system or vice versa. Final approval must be obtained from the Commanding General, USACC.

(2) Ensure that cadet data is accurately entered into the cadet command database.

(3) During regularly scheduled inspections, validate the eligibility of schools to participate in commutation.

f. The PMS of each ROTC unit will—

(1) Prepare and pre-certify all pay transactions for uniform commutation for all eligible cadets via the cadet database.

(2) Ensure the eligibility of cadets to receive commutation payments.

(3) Commutation payments are included in the end-of-month checks, which may also include monthly subsistence and flat-rate-book payment, depending on the status of the cadet. The PMS must verify amounts for accuracy before transmission of the data to the Headquarters, USACC.

(4) If an underpayment or overpayment is identified, the administrative technician will immediately contact the applicable pay point of contact at the Headquarters, USACC, and the Pay Operations Division for assistance. Ensure the return of any unclaimed hardcopy checks to the Headquarters, USACC, Pay Operations Division, Fort Knox, Kentucky, 40121-5205.

(5) Process within 10 days of receipt.

10-9. Eligibility for commutation funds for uniforms

Commutation is payable to ROTC cadets enrolled in the basic (MS I and MS II) and advanced (MS III and MS IV) courses for at least 45 consecutive days under these conditions:

a. *Basic course.* The current rate of commutation is payable for each enrolled member 45 days after entry into MS I or MS II. A cadet compressing MS I and MS II will be eligible for the payment of commutation funds only once during the school year.

b. *Advanced course.* The rate of commutation in effect during the school year that the claim is made is payable only once for each contracted member. This is 45 days after enrollment in the advanced course and normally occurs at the MS III level. The rate is paid at the MS III and MS IV years, and no further payments are authorized. However, if a cadet contracts during the MS IV year, then the rate of payment will be made at half the rate of that of the MS III rate.

c. *Conditional students.* Commutation payments are not payable for participating conditional students or non-contracted advanced course cadets; however, commutation may be paid to conditional students who become eligible and have enrolled for at least 45 days.

10-10. How to obtain uniform commutation funds

Guidance for proper documentation for commutation payments is included in the cadet database, Battalion End User's Manual, and the DJMS-RC or ROTC Procedural Guidance Manual for School Year Operations.

10–11. Inactivation or change in system

Guidance for proper documentation for commutation payments is included in the Cadet Command Information Management System database, the Battalion End User's Manual, and the DJMS–RC or ROTC Procedural Guidance Manual for School Year Operations. (To access that database, users must have special permission from the USAAC, Deputy Director, Information Support Activity, Chief Information Officer, and DCS, G–6.)

10–12. Transfers of enrolled cadets

a. A cadet in a basic course may not claim or receive commutation funds if the cadet has received a commutation payment while attending another school listed in paragraph 10–1a-c.

b. A cadet in an advanced course may not claim or receive commutation funds if the cadet has received a commutation payment for participation in an advanced course while attending another school listed in paragraph 10–1a-c.

c. With the approval of the PMS at the gaining military school, an additional commutation is authorized for cadets who have become transferred because of a discontinuance of the program at the previous school of those cadets.

Chapter 11

Transfers of Enlisted Soldiers on Active Duty

11–1. Losing command

a. Upon receipt of a Soldier's assignment orders, the unit commander of the Soldier directs a clothing inspection or inventory for that Soldier. However, commanders may allow corporals through sergeants major to furnish statements, as shown in table 12–1, that they have all their clothing, and that all items are serviceable. For any Soldier with 6 months (180 days) or more of active service remaining, a copy of DA Form 3078 will be kept until all initial issues have been completed, and the Soldier has reached the initial permanent duty station. Clothing in the possession of Soldiers is inventoried against the personal clothing allowances. Each item is inspected for serviceability, fit, and appearance. Soldiers being reassigned for separation must sign receipts or complete a turn in (see para 12–10). Shortages are made up by cash purchases.

b. Initial and supplemental allowance items that are unserviceable or are not in the possession of the Soldier are repaired or replaced at the Soldier's expense. Supplemental allowance items need not be maintained after the duty is completed (see exception in para 4–6b).

c. Enlisted Soldiers normally transfer with a complete initial allowance of clothing items. When a clothing item is not available to complete the initial allowances, the Soldier is transferred without a complete allowance.

d. A copy of DA Form 3078 is kept with each Soldier's unit file until all initial issues have been completed, and the Soldier reaches the initial permanent duty station.

e. Excluded are enlisted Soldiers transferring from an OCONUS area to a continental United States (CONUS) area for immediate separation. Clothing shortages and replacements are obtained at the Soldier's expense.

11–2. Gaining command

a. On arrival of an enlisted Soldier reassigned to an activity for permanent duty, the unit commander directs a clothing inspection or inventory for that Soldier. However, commanders may allow corporals through sergeants major to furnish statements, as shown in table 12–1, that they have all their clothing, and that all items are serviceable.

b. Shortages of previously issued items, disclosed by inspections or inventories, are replaced at the Soldier's expense. Unserviceable items are repaired or replaced at the Soldier's expense.

c. Shortages in initial allowances must be obtained within 15 days after assignment.

11–3. Clearance from clothing repair, Army military clothing stores, and alteration facilities

a. When an enlisted Soldier is transferred to another station, the unit commander of the losing command requires the Soldier to obtain a clearance from the AMCS installation clothing repair and alteration facilities before leaving the station. This does not apply to a transfer to a hospital as a patient. The facility

completes a DA Form 137–2 (Installation Clearance Record) in duplicate for each Soldier. Instructions are printed on the form.

b. Unit commanders will advise enlisted Soldiers alerted for movement or placed on orders that they are responsible for clothing and footwear left in commercial establishments or the exchange.

c. When an enlisted Soldier is transferred to a hospital as a patient, the unit commander is responsible for getting the clearance. If articles of personal clothing or footwear left for repair or alteration in either Government or civilian facilities are not ready at the time when the Soldier transfers, then arrangements will be made to ship the items to the Soldier at the new station. Those shipments are made at Government expense.

Chapter 12

Retention and Disposition of Organizational Clothing and Individual Equipment Clothing

12–1. Introduction

Procedures may be modified, if necessary, to adapt to automation. Retained issue policy is in CTA 50–900. The policy is listed here as reference.

12–2. Retained issue policy for organizational clothing individual equipment

a. *Concept of operations.*

(1) Retained issue program identifies individual OCIE items authorized for retention for all Soldiers (Enlisted and Officers) to begin at IET and Army Senior Reserve Officer Training Corps (SROTC). The program addresses PCS and recovery of OCIE prior to expiration term of service (ETS).

(2) The policy applies to all RA, Army Reserve, and ARNG.

(3) Starting 4th Quarter Fiscal Year 2020, Tank-Automotive & Armaments Command (TACOM) CMO executed a phased implementation plan to gradually transition initial issue of retained OCIE from the first unit of assignment to begin at IET. TACOM CMO will incrementally increase the number of OCIE items issued at IET as retained issue until the entire Soldier OCIE Retained Issue menu is achieved.

(4) All IET Soldiers will receive the complete list of items on table 12–1 Soldier organized clothing individual equipment retained issue no later than 1 October 2022. Subsequently, TACOM CMO will provide disposition instructions to the installation CIFs to account for the reduced requirement. The list on table 12–1 will be reviewed annually, changes will be in CTA 50–900. Transitioning individual Soldiers to the Appendix A list of OCIE will occur over time during their PCS moves with the CIF adjusting the Soldiers OCIE record to match Appendix A as close as possible with available inventory during in and out processing. OCP OCIE does not have a wear out date and is authorized for continued use.

b. *Instructions for table 12–1. Soldier Organizational Clothing Individual Equipment Retained Issue.* The Maneuver Center of Excellence will determine the list of OCIE required for all Soldiers to perform Warrior Task Training. Soldiers will retain these items from initial issue until the Soldier reaches ETS. Officers will return OCIE items when they leave the Army for the IRR or resign their commission. SROTC cadets that leave the ROTC program prior to commissioning will turn in their OCIE to the ROTC department.

(1) The Maneuver Center of Excellence, using the Soldier-as-a-System Integrated Product Team, will review and update this Table as necessary each calendar year and submit changes to the Office of the Deputy Chief of Staff, G–4, DALO–SPT for publication.

(2) When a Soldier reaches ETS, or otherwise leaves the Army, commanders will direct a final layout inspection. The Soldier will turn in recoverable items to the supporting CIF or through the OCIE Direct Ordering process. CTA 50–900 has a list of items that are not recoverable.

c. *Instructions for regional items.* Regional items will not be retained. Soldiers will acquire items used specifically for arctic, jungle, and desert environments from the supporting CIF or through OCIE Direct Ordering process and turn in these items while out processing for PCS or ETS. Recovered regional items are returned to the Regional Logistics Supply Center for cleaning, repair, and refurbishment. These items will be reissued to personnel entering the designated regions.

d. *Operational Camouflage Pattern transition.* During the transition of Universal Pattern Camouflage to OCP the legacy Operation Enduring Freedom Camouflage Pattern can be used synonymous with OCP items.

e. *Current Soldier/total Force.* As Soldiers PCS and out process, the CIF personnel will clean up the Soldiers' record as much as possible by collecting legacy items that are not in Appendix A and remove

items from the record that are not recoverable (for example, Flame Resistant OCPs from a deployment). The CIF will contact the CMO for disposition instruction for items not listed in The retained issue Appendices is available in CTA 50–900.

f. Enlisted Soldier discharge or separation. Enlisted Soldiers will keep all non-recoverable items when discharged or separated from active- or reserve-duty service; enlisted Soldiers transferred to a USAR Control Group will keep personal clothing in compliance with tables in CTA 50–900.

Table 12–1
Retention of personal clothing items for Soldiers transferred to U.S. Army Reserve control groups

Transferred From	Type of Transfer	MOS qualified	6 MOS or less service	Clothing kept 6 MOS, and 3 years	Clothing kept 4 years	DA Form 4886 required	Responsible for completing DA Form 4886	Other requirements
RA	Normal REFRAD at ETS AR 635–200	Yes	All ¹	All	All	Yes	Commander of last unit of assignment or attachment	Member signs the statement as shown in table 12–5
	Completion of IADT (IRR direct enlistment) AR 601–210	No	N/A	N/A	N/A	N/A	N/A	N/A
ARNG USAR Unit	Completion of required service AR 135–91	Yes	All ²	All ²	All ²	Yes	Same as #1	Same as #1
	Unsatisfactory unit participation AR 135–91	No	N/A	N/A	N/A	No	N/A	None
	Released to active duty	N/A	N/A	N/A	N/A			
RA, ARNG, or USAR unit	Did not meet medical procurement standards, sole surviving son or daughter, or parenthood AR 635–200 and AR 135–178							
	Dependency/hardship/parenthood AR 635–200 and AR 135–178	Yes	All ^{2,3}	All ^{2,3}	All ^{2,3}	Yes	Same as #1	Same as #1
	Pregnancy AR 635–200 and AR 135–178							
	Entry level / unsatisfactory performance AR 635–200 and AR 135–178	No	None ⁴	None ⁴	N/A	No	N/A	None

Table 12–1

Retention of personal clothing items for Soldiers transferred to U.S. Army Reserve control groups—Continued

Transferred From	Type of Transfer	MOS qualified	6 MOS or less service	Clothing kept 6 MOS, and 3 years	Clothing kept 4 years	DA Form 4886 required	Responsible for completing DA Form 4886	Other requirements
------------------	------------------	---------------	-----------------------	----------------------------------	-----------------------	-----------------------	---	--------------------

Notes:

1. IRR direct enlistees will have their clothing adjusted to full allowances before transfer to IRR.
2. ARNG Soldiers will keep clothing as determined by the applicable state adjutant general.
3. Keeping uniforms includes only those items already issued to Soldiers before ID for reissue. No further adjustment is authorized.
4. Non-recoverable items, such as underwear or footwear, may be kept by Soldiers.
5. This includes those Soldiers who immediately reenlist in the IRR or discharge from the RA.

(1) Personal clothing allowances will not be brought up to date when a person is discharged or separated from the service. This includes enlisted Soldiers leaving an OCONUS area for CONUS for immediate separation.

(2) When members do not have the items that are normally turned in, processing will be thus—

(a) Enlisted Soldiers will reimburse the Government for missing recoverable clothing.

(b) Enlisted Soldiers will not need to pay for items never received or previously turned in (with proof).

(3) Items will be turned in at each Soldier's last duty station:

(a) At the time of turn in, a DA Form 3078 will be prepared, in triplicate and properly annotated. The receiving facility will keep the original. The Soldier will keep a copy. One copy is placed in the Soldier's interactive Personnel Electronic Records Management System (iPERMS).

(b) At the time of turn in, a DA Form 3161 (Request for Turn in) is prepared and properly annotated, including a commissioned officer's certification of the FWT status of unserviceable items. Two copies, in addition to any required to physically accompany the turn in, are produced. The Soldier keeps one copy, and one copy is placed in the enlisted Soldier's iPERMS.

(4) Members transferring to the ARNG or USAR will, in every instance, report to their units with all personal clothing. DA Form 4886 will be used to establish accountability.

(5) Members transferring to the USAR control groups will keep personal clothing in compliance with table 12–1.

12–3. Members with more than 3 years of active duty

a. RA members with more than 3 years active duty who are discharged under honorable conditions may keep all clothing items in their possession. The turn in of recoverable items is determined by the unit commanders.

b. Members who are released from active duty (REFRAD) and transferred to ARNG or USAR units will, in every instance, keep all personal clothing in their possession. Voluntary turn in of those items is not authorized. DA Form 4886 will be used to establish accountability. See paragraph 12 and table 12–1 and the RC personnel update.

c. Below is an example of a statement of receipt of personal clothing—

Installation (Name); Date, (Day, Month, and Year).

The personal clothing listed on DA Form 3078 is now in my possession.

Signed (Signature of Person Discharged or Released).

d. RA members who are REFRAD and transferred to USAR control groups will keep personal clothing in compliance with table 12–1. (See the RC personnel update).

12–4. Members with three or fewer years of active duty

a. RA members who are discharged under honorable conditions with three or fewer years of active duty are permitted to keep all clothing items.

b. RA members who are REFRAD and transferred to ARNG or USAR units will, in every instance, keep all clothing in their possession. DA Form 4886 will be used to establish accountability (see table 12–1, para 12–2).

c. RA members who are REFRAD and transferred to USAR control groups will keep personal clothing in compliance with table 12–1. (See table 12–1 and 12–2).

12–5. Members with fewer than 6 months (180 days) of active duty

a. Any members with fewer than 6 months (180 days) of active duty who received an honorable, general, or other-than-honorable discharge may keep one ASU and the component items. Soldiers who are processed under deferred-issue procedures, along with those who are separated or discharged before they receive complete issues, will not receive further issues (not even ASUs). Processing members discharged or separated from service for medical reasons is discussed in paragraph 12–8.

b. Members with fewer than 6 months (180 days) of active duty who are REFRAD and transferred to USAR control groups will keep their personal clothing in compliance with table 12–1.

c. When an Army active duty member fails to complete training, that Soldier will turn in all clothing and equipment (except non-recoverable items). These procedures apply—

(1) All recoverable OCIE will be returned to the CIF.

(2) Personal clothing will be turned in to the installation supply officer for disposition thus, condition code A or B will be transferred to the AMCS or JROTC or SROTC units, as appropriate; condition code H will be transferred to the Demilitarization Reutilization Marketing Service.

12–6. Soldiers of the reserve components on initial active duty for training

a. When the RC Soldiers complete their training, they will return to their home stations with all their personal clothing issued at the Army training centers. Any item in need of repair or exchange will be repaired or exchanged by the training installations. Accountability will be established by DA Form 4886, which will be completed by the training unit commanders before the departure of the Soldiers from their training. The original of the form is to be filed in each Soldier's iPERMS.

b. All OCIE items are turned in unless the local senior commander directs otherwise.

c. When ARNG trainees fail to complete training and are released back to their home stations, their clothing issues will be withdrawn. These procedures apply—

(1) The training unit commanders (or their designee) will inventory each trainee's personal clothing, documenting the inventory on a DA Form 3078 by entering the unit, home station, and items inventoried.

(2) One copy of DA Form 3078 will be placed in a trainee's iPERMS for return to the trainee's ARNG unit, and one copy will be mailed to the trainee's state USPFO.

(3) The training unit will turn in recovered personal clothing, using DA Form 3078, with copies of the member's orders, to the installation clothing-recovery facility.

(4) Upon receipt by the installation clothing-recovery facility, the clothing and DA Form 3078 will be inventoried. The installation will ensure that credit is provided to the National Guard Bureau (NGB) based on the ratio of turn ins that were ARNG compared with the total of RA, USAR, and ARNG. Credit provided will be 50 percent of the DoD FedMall price for recovered items in condition code B.

(5) The installation clothing-recovery facility will keep one copy and send the second copy of DA Form 3078 to the supporting DFAS for forwarding to the USPFO of the Soldier's home station.

d. The clothing of ARNG trainees dropped from the rolls or discharged at training installations will be withdrawn. The procedures in paragraphs 12–6c(1) through 12–6c(5) will apply.

e. When a USAR trainee fails to complete training, the member will turn in all clothing and equipment except non-recoverable items. These procedures will apply—

(1) Procedures discussed in paragraph 12–6c(1) will apply to the commander of the training unit.

(2) The installation supply officer will—

(a) Classify items.

(b) Determine the serviceability of the items.

(c) Credit RPA funds.

(d) Transfer used serviceable items to the AMCS if required for sale or issue.

(e) Turn in unserviceable items to the DLA Disposition Services.

12–7. Soldiers of the reserve components who transfer from reserve components to Regular Army

Enlisted Soldiers who are discharged to join the RA will keep all their personal clothing. A complete inventory will be conducted before release. All shortages will be accounted for under AR 735–5. All totals will be carried forward to the next blank column of the DA Form 4886. The original DA Form 4886 will be

forwarded to the gaining unit and each Soldier will hand carry a copy to the gaining unit. One copy will be kept at the unit level for 90 days.

12-8. Members discharged or separated for medical reasons

a. Members who are honorably discharged or separated for medical reasons, and who have completed at least 6 months (180 days) of active duty, may keep their personal clothing.

b. A member discharged or separated before the completion of at least 6 months (180 days) of active duty may keep one ASU, component items, and non-recoverable items that were issued before the ID for separation or discharge.

c. Civilian outer clothing will be issued if necessary. The cost to the Government will not exceed \$40 for each person.

d. Members REFRAD and transferred to USAR control groups will keep the personal clothing that was issued before the ID for discharge (in compliance with table 12-1).

12-9. Members accepting commissions or appointments as warrant officers

Members discharged to accept commissions or appointments as warrant officers may keep all authorized personal clothing in their possession at the time of commissioning or appointment. This includes ARNG and USAR members.

12-10. Members discharged under bad-conduct or dishonorable conditions

a. Soldiers receiving a dishonorable discharge, a bad-conduct discharge, or a discharge under other-than-honorable conditions may keep only non-recoverable items that were issued before the ID for separation or discharge. Civilian outer clothing is authorized in compliance with paragraph 12-10b.

b. Civilian outer clothing will be issued if necessary to all members discharged for reasons as shown in paragraph 12-10a. The cost to the Government will not exceed \$40 for each person.

(1) Outer clothing for both male and female members will be of suitable civilian attire. Males are issued shirt and trousers. Females are issued skirt or slacks and blouse. A jacket is authorized when required for comfort during travel. When weather conditions warrant, wearing an all-weather coat is authorized. It may be procured from the AMCS when condition code B stock of the all-weather coat is available. The cost will be 50 percent of the acquisition cost.

(2) Requests from the USDB for civilian clothing are sent through the General Services Administration, using the federal supply schedules. If sizes are not available through federal supply schedules, local procurement is authorized.

(3) All other installations will buy civilian clothing locally.

(4) Requests for funds for local purchases of civilian clothing will be sent through normal supply and command funding channels. The purchases of that clothing will be charged to OMA funds.

c. Prisoners in pretrial confinement and those sentenced only to confinement are transferred to the confinement facilities with the clothing items listed in table 5-4. The senior commanders may establish local policy to limit the number of items authorized. These procedures apply:

(1) Before the departure of a prisoner to a confinement facility, the unit commander or a designated representative will conduct an inventory and inspection of the military clothing in the prisoner's possession or control. The items will be recorded on DA Form 3078. Safekeeping, inventorying, and using DA Form 3078 are covered in paragraph 12-12. The inventorying officer will sign the original and all copies of the form. The disposition of the form will be:

(a) The original will be placed in the prisoner's iPERMS.

(b) The unit commander will keep one copy.

(c) One copy will be given to the prisoner.

(d) When the member leaves the confinement facility and returns to duty, the original will be sent with the member's records to the unit of assignment. Shortages in initial issue clothing will be replaced at the expense of the Soldier upon returning to duty.

(2) Prisoners collecting the basic or standard monetary allowance will maintain prescribed clothing at their own expense.

(3) The unit commander of a prisoner keeps and secures for safekeeping any military clothing not required at the confinement facility.

d. If a member becomes confined in a civilian confinement facility, the unit commander of that member keeps and secures the military clothing of that person but not longer than one year. If one year passes

without the return of the member, then the unit commander will turn in the clothing through normal supply channels. The turn in documents will be placed in the prisoner's iPERMS.

e. Prisoners transferred to an Army correctional holding detachment are allowed outer clothing necessary for health and comfort during transport. If a prisoner's sentence includes a punitive discharge, then the prisoner's unit commander will turn in all other military outer clothing of that prisoner. Non-recoverable items are excluded.

12-11. Statement of receipt of personal clothing

a. All enlisted Soldiers discharged or separated from the RA will read and sign the statement shown in paragraph 12-11d.

b. If a Soldier reenlists within 3 months, the list of items turned in will be used to provide an issue-in-kind of like items.

(1) This list may be prepared on DA Form 3078.

(2) An officer or warrant officer having knowledge of the items turned in will place a statement in DA Form 3078.

(3) The unit will keep one copy of the DA Form 3078. That form will be filed in accordance with AR 25-400-2. One copy will be placed in the Soldier's unit file, and one copy will be given to the Soldier.

c. Members who are REFRAD and transferred to the ARNG or USAR, including a USAR control group, will sign the statement shown in paragraph 12-11d. That statement will be entered on the appropriate side of DA Form 4886. To ensure the proper accountability of personal clothing, commanders of the last unit of assignment or attachment will ensure that DA Form 4886, with the signed statement on the appropriate side, will be prepared and placed in the unit files of the Soldier.

d. The clothing statement for Enlisted Soldiers with remaining Reserve obligations is "I, [name], understand that I am required to maintain all personal clothing items in my possession as indicated on the DA Form 4886 in a serviceable condition until the expiration of my reserve obligation, on [date]. I further understand that, if I am mobilized as a Soldier of the reserve, I will be required to take with me all items on the attached form to my designated mobilization site. A failure to do so will result in a requirement of me to reimburse the Government for all missing items."

e. When Members become separated from ARNG or USAR units and transferred to USAR control groups for completion of their reserve obligations in accordance with AR 140-10 or National Guard Regulation 600-200, they will be required to sign the statement shown in paragraph 12-3. The original of the signed statement will be placed in the Soldier's unit file. If a Soldier is unavailable for signature, the unit commander will certify the quantities previously issued to the Soldier and in the possession of the Soldier. The commander's certificate will be attached to the Soldier's clothing records and placed in the Soldier's unit file before transfer.

f. When members become discharged from the RA, if any of them elect to immediately enlist in the ARNG or USAR, including USAR control groups, those Soldiers must sign the statement shown in paragraph 12-3c. The commander of such a Soldier's last unit of assignment (or the separation point for a Soldier returning from OCONUS for separation) will complete the DA Form 4886 to establish the accountability of uniforms in that Soldier's possession. The original of DA Form 4886 and the original of the signed statement will be placed in the Soldier's iPERMS.

12-12. Non-retention of clothing

a. Soldiers discharged from active duty without a Reserve obligation may elect not to keep uniform items. This means forfeiture of future clothing entitlement after discharge or separation from the service.

b. The unit commander of such a Soldier will authorize an approved local request for the non-retention of military clothing. The member signs the request, and a commissioned or warrant officer will confirm it. The signed request will be filed in the Soldier's unit file.

12-13. Clothing items not authorized for retention

a. All basic-issue clothing, except organizational property, such as patches and crests, will remain with the Soldiers when they are transferred. The unit will ensure that an accurate inventory is done before transfer as a part of the Soldier's out processing. The clothing records will be included in the iPERMS of the respective Soldier (see para 14-9).

b. Recoverable clothing items are withdrawn, classified, and turned in to the supply system (see para 1–16a). If they are not required in the supply system, they are turned in to the DLA Disposition Services. In the RCs, recoverable clothing items are processed as prescribed by the User Handbook.

12–14. Clothing of absentees

a. *Inventory.* The abandoned property of a Soldier absent without leave (AWOL) from the unit will be inventoried without delay after the procedures in paragraphs 12–14a(1) and 12–14a(2). These procedures apply only if the enlisted Soldier lives in troop billets.

(1) The unit commander will designate a commissioned officer, warrant officer, or noncommissioned officer in pay grade E5 through E9 to conduct the inventory. The unit commander and the inventory officer will validate that the clothing abandoned belongs to the absent Soldier. Another member of the unit or activity will witness this inventory.

(2) The inventory officer will—

(a) Make sure that the clothing is not exchanged for the clothing of any other Soldier.

(b) Prepare a DA Form 3078 in original and three copies. Record on this form the items and quantities of personal military clothing. Excesses of personal military clothing above authorized levels will not be recorded on DA Form 3078. These items will be included on the personal effects inventory. See DA Pam 600–8 for instructions on the inventory of privately owned military personal property. The person conducting the inventory will enter the words “Inventoried by” and sign in the “remarks” block of the DA Form 3078.

(c) Ensure that the witness and the unit commander or designated representative verify and initial this form.

(d) Place the original of the inventory in the Soldier’s duffel bag or other suitable container. Keep the other three copies in the unit suspense file pending further action.

b. *Safekeeping.* Inventoried clothing of an absent Soldier discussed in paragraph 12–13a will be secured in the unit’s facilities or in a secured storage area designated by the senior commander.

c. *Return of the absent enlisted Soldier.* When an absentee Soldier returns, their clothing is re-issued. The Soldier will acknowledge receipt of the clothing by signing all copies of DA Form 3078. The Soldier will be given copy three of the inventory. The unit commander determines whether the Soldier has the initial allowances of personal clothing. Shortages are replaced at the Soldier’s expense.

12–15. Clothing of enlisted Soldiers dropped from the rolls

Clothing of enlisted Soldiers who are AWOL is inventoried, safeguarded, and retained in the unit facilities or other suitable storage area in compliance with paragraph 12–13. When the Soldier is returned to military custody or dropped from the rolls as a deserter, the clothing of that person will be disposed of thus—

a. If the absentee is returned to an installation other than the home station of that person before becoming dropped from the rolls, the commander of the home station will—

(1) Ship the abandoned clothes to the Soldier’s new station if the Soldier will not return to the home station.

(2) Determine the expense to the Government for shipping the clothes.

(3) Forward the information to the new station for the collection of shipping expenses from the Soldier’s pay.

b. When a Soldier is dropped from the rolls as a deserter, that person’s clothing is removed from the unit facilities or other secured areas. Recoverable items are turned in to the ISD. This information will be entered on the turn in document—

(1) Identity of the Soldier and the assigned unit.

(2) Statement of the date when the Soldier was dropped from the rolls.

(3) Statement that all abandoned recoverable items listed on DA Form 4886 are included.

c. The unit commander or representative (above the grade of E4) will inventory the clothing of ARNG and USAR Soldiers dropped from the rolls.

(1) DA Form 4886, DA Form 3161 (Request for Issue or Turn in), or DA Form 3078 will be prepared and will accompany the clothing upon turn in. The turn in documents will—

(a) Identify the Soldier and the assigned unit.

(b) Contain a statement of the date when the Soldier was dropped from the rolls.

(c) Contain a statement that all abandoned recoverable items listed on DA Form 4886 are included.

(2) The appropriate accountable officer (USPFO for ARNG) will keep the original of the turn in document. One copy will be sent to the Soldier's unit for filing. In the ARNG, a copy is sent to the state Adjutant General for inclusion in the Soldier's permanent file. All abandoned property in the ARNG will be turned in to the USPFO in compliance with paragraph 15–10.

(3) Records are disposed of according to AR 25–400–2.

d. Clothing for Soldiers returned to military control after abandoned clothing has been disposed of is replaced at the Soldier's expense. This includes Soldiers of the ARNG and the USAR.

e. According to AR 735–5, adjustment action will be taken for clothing not returned or recovered from ARNG Soldiers who are discharged or dropped from the rolls.

12–16. Clothing of hospitalized members

a. *Hospitalized at duty installation.* When an enlisted Soldier is hospitalized at a medical facility at the duty installation, these actions will be taken:

(1) The facility commander, by the fastest means and within 24 hours after admission of the Soldier, will advise the Soldier's unit commander.

(2) The unit commander will immediately ensure the clothing and personal effects of the hospitalized person is secured and safeguarded in unit facilities or other secure areas.

(3) If the Soldier does not return within 120 hours, the clothing and personal effects will be inventoried according to paragraph 12–13.

b. *Transferred to an off-post hospital.* When an enlisted Soldier is to be transferred to a hospital away from the duty installation, these procedures apply—

(1) The personal clothing will accompany the patient to the hospital whenever possible. This applies to any Army, Navy, or Air Force hospital or any local civilian hospital servicing a military installation.

(2) The commander of the medical facility will, by the fastest way, advise the unit commander of the transfer.

(3) If the Soldier does not return to the unit within 72 hours, the unit commander will ensure that the Soldier's clothing is taken to the medical facility.

(4) The Soldier will sign the unit's copy of DA Form 3078 to acknowledge the receipt of the clothing. If the Soldier's physical condition precludes signing, the commander of the medical facility will designate an officer to acknowledge the receipt of the clothing on behalf of the Soldier. That officer will then make certain that the clothing accompanies the Soldier to the new hospital.

c. *Transferred to medical holding detachment.*

(1) On learning that a Soldier has been assigned to a medical holding detachment, the unit commander prepares a statement on letter-size paper. Format is shown in paragraph 12–16c(2).

(2) Below is an example statement of personal clothing belonging to person transferred to a medical detachment: "The items and quantities of personal clothing belonging to (name, DoDI #, and organization), appearing on the attached DA Form 3078 were given to (Soldier's name) before transfer to (name of medical detachment)."

(3) The unit commander will sign the statement and include on the statement the commander's rank, unit, and organization. The statement will be attached to a copy of DA Form 3078 and kept in the unit's records.

d. *Shipment of clothing.*

(1) Sometimes emergencies make it physically impossible for Soldiers to take clothing with them on transfer to off-post hospitals. When that happens, the unit commander (within 24 hours after learning of the transfer) will—

(a) Ship the clothing to the Soldier at Government expense.

(b) Place the original of DA Form 3078 in a secure container.

(c) Prepare a statement on letter-size paper. A suggested format appears in paragraph 12–16d(1d).

(d) An example statement of shipment of clothing are items and quantities of personal clothing belonging to (name, DoDI #, and organization), appearing on the attached DA Form 3078 were shipped by (number of the Government bill of lading) on (date) by express, motor freight, or less than carload freight. (Cross out the methods of shipment not applicable).

(e) Sign the statement and include on the statement the commander's rank and unit.

(f) Forward the statement and a copy of DA Form 3078 to the commanding officer of the medical holding company or detachment.

(2) If the shipment is not received within a reasonable time, the commander of the medical holding company or detachment will send a tracer for the missing clothing. The tracer will be sent to the Soldier's parent organization through the proper ACOM. If the clothing has become lost through no fault of the Soldier, then the unit commander will furnish the hospital with a copy of DA Form 3078. Personal clothing shown on the form will be replaced gratuitously.

12-17. Clothing of enlisted members on ordinary or emergency leave, temporary duty, or pass

a. *Safekeeping.* All Soldiers are responsible for safekeeping the clothing and equipment not accompanying them during authorized absences.

b. *Storage.* Unit commanders will provide adequate storage facilities for Soldiers use during authorized absences.

c. *Transferred to another unit while on emergency leave or temporary duty.* An enlisted Soldier may be transferred to another unit while on emergency leave or TDY. After receiving this information, the unit commander will without delay cause all applicable inventories of military and personal effects to be conducted in accordance with DA Pam 600-8 and DA Pam 710-2-1. Military clothing and personal effects will be shipped to the Soldiers at Government expense. OCIE not authorized for retention will be exempt from this provision.

d. *Soldiers of the Army National Guard of the United States and U.S. Army Reserve.* Soldiers of the ARNG and the USAR are required to secure their individual clothing when the unit commander does not provide space within the armory or reserve center facilities.

12-18. Abandoned and unclaimed clothing in laundries and dry-cleaning plants

a. *U.S. Army laundries and dry-cleaning plants.* Some uniform clothing items are abandoned or left unclaimed in Army laundries and dry-cleaning plants. Items will be dropped from laundry accountability records after 90 days in compliance with AR 210-130.

b. *Commercial establishments.* Army funds will not be expended to recover unclaimed and abandoned CB items of Soldiers from commercial facilities. If an outside facility voluntarily returns such clothing to an Army installation without payment, the clothing will become the property of the Government, and it will be processed through normal channels.

c. *Gratuitous issue.* Gratuitous issue of clothing authorized by paragraph 5-4 is not authorized to Soldiers abandoning clothing and footwear.

d. *Deceased members.* See AR 638-2.

12-19. Unclaimed repaired or altered clothing left in Government or commercial facilities

a. Articles of personal clothing left by Soldiers in Government clothing repair shops for alteration or repair are considered abandoned after 120 days. Abandoned clothing is turned in through normal supply channels.

b. Articles of personal clothing left by officer or enlisted Soldiers in commercial concessions for alteration or repair will be disposed of in accordance with paragraph 12-19.

12-20. Deceased members

a. Authority for obtaining an ASU and component items for burial of eligible deceased military Soldiers is found in AR 638-2.

b. Procedures for the withdrawal of clothing and equipment from deceased Soldiers, is found in see AR 638-2.

c. The mortuary office or mortuary affairs coordinator will—

(1) Take an ASU from the Soldier's personal effects if it is in a serviceable condition. If an ASU cannot be found, one will be issued by the AMCS or bought locally at Government expense.

(2) Prepare a DA Form 3078 according to paragraph 5-2 showing the items of military clothing required. The appropriate base operation accounting classification will be placed in the Remarks block quoting disposition of remains funds as chargeable for reimbursement. The mortuary officer or mortuary affairs coordinator may approve the DA Form 3078 pertaining to the burial of deceased active duty Soldiers. This document will be hand carried to the AMCS manager who will process the issue.

(3) Request insignia, awards, and decorations on DA Form 2765-1 through normal supply channels.

Chapter 13

Alterations

13–1. Alterations at Government expense

Alterations to personal clothing at Government expense are limited to authorized outer items. Alterations will be made—

- a. At the time of issue or sale (all cash and individual charge sales to enlisted Soldiers).
- b. On receipt of uniform items obtained through mail-order purchases.
- c. During the first 6 months (180 days) of service under the clothing allowance system when outer clothing becomes too small or too large because of major changes in height or weight.
- d. When on the issue-in-kind system. (ARNG and USAR pays for alterations).
- e. At any time damage is not the fault of the enlisted Soldier (see para 5–11).
- f. USAR and ARNG of the United States enlisted Soldiers in remote sites are authorized local alterations (see para 14–19).

13–2. Alterations at enlisted Soldier's expense

Under circumstances other than those in paragraph 13–1, alterations are made at the Soldier's own expense, such as exchange commercially procured uniforms. Alterations may be made in commercial facilities or in Government operated clothing repair facilities. If Government facilities are used, these conditions apply—

- a. The clothing repair facility is physically located at the Army installation.
- b. The workload in the repair facility permits use of the facilities for this purpose.
- c. No additional members are necessary to do the work.

13–3. Facilities available to officers and warrant officers

Army commissioned officers and warrant officers may use the clothing repair facility for the alteration of individual clothing at the discretion of the post commander. The type and quality of work is the same for both enlisted Soldiers and officers. Alteration service is extended to enlisted Soldiers before officer members when the workload in the repair facility does not permit use of facilities at the same time. Alteration services rendered for officer members are at the expense of the officer.

13–4. Authorized alterations

Authorized alterations to clothing are shown in tables 13–1 and 13–2. Also, USAR and ARNG enlisted Soldiers in remote sites are authorized local alterations (see para 14–19).

Table 13–1
Authorized alterations for men's uniforms

Item: Coat, all-weather, black

Alteration: Sleeves, hemline

Item: Trousers¹

Alteration: Bottoms, crotch, seat, waist

Item: Coat

Alteration: Shoulders, collar, sleeves, side, or back seams, hemline, button alignment, back waist length, sleeves ornamental braids adjustment

Item: Shirt (long sleeves and short sleeves)

Alteration: Sleeves², back, or side seams

Notes:

¹ Alterations to uniforms, OCP are limited to shortening the trouser length. Alterations will be done in accordance with TM 10–227.

² The long sleeves of the ASU shirt can be shortened only if they are one inch or more excess length. The buttons on cuffs may be set over. Alterations will be done in accordance with TM 10–227.

Table 13–2
Authorized alterations to women’s uniforms—Continued

Item: Coat, all-weather, black
Alteration: Sleeves, hemline

Item: Coat
Alteration: Shoulders, collar, sleeves, back, or side seams, back waist length, hemline, button alignment, bust, sleeves ornamental braids adjustment

Item: Skirt
Alteration: Waist, hemline

Item: Slacks
Alteration: Back or side seams, bottoms, crotch, seat, waist

Item: Shirt, Cotton and/or poly, Tuck In, Shade #521
Alteration: Sleeves¹ back or side seams

Note: The long sleeves of the ASU shirt can be shortened only if they are one inch or more excess length. The buttons on cuffs may be set over. Alterations will be done in accordance with TM 10–227.

13–5. Wounded Warrior Clothing Support Program for U.S. Army Medical Command Wounded Warrior transition units

- a. The MTF where the AW2 is recovering will provide necessary adaptive clothing while on inpatient and outpatient status. Adaptive clothing includes items such as, shorts, shirts, undergarments to accommodate for tubing, amputation, burns, and other injuries.
- b. When an AW2 enlisted Soldier or officer is evacuated to an MTF because of injuries or illness, the medical treatment commander will authorize sufficient uniform clothing on a gratuitous basis to meet the Soldier’s needs (see table 5–1).
- c. A gratuitous clothing issue will be authorized for AW2s who are being provided medical treatment on an outpatient basis, assigned to the SRU, and are in a medical hold status.
- d. The gratuitous clothing issue request DA Form 3078 requirement will be completed within 30 days of the WW being assigned to the MTF unless there are medical reasons or other circumstances that prevented the WW from receiving clothing earlier. This is a one-time gratuitous clothing issue based on the WW emergency medical evacuation from theater.
- e. WWs, officers, and enlisted who continued on active duty (COAD) and continued on Active Reserve (COAR) are authorized to receive additional CB items when prescribed by an MTF occupational therapist (OT) or physical therapist (PT) as outlined in paragraphs 13–6d(1) through 13–6d(3).
- f. MTF OT or PT members will provide a written statement memorandum supporting the reason why the AW2 did not receive clothing within 30 days.
- g. The Remarks block will include this statement: “Operation “name of operation” emergency evacuated from theater. The member has not received a full or partial gratuitous clothing issue while in the Wounded Warrior Clothing Support Program (WWCSP).”

13–6. Wounded Warrior Clothing Support Program clothing modification and alterations procedures

The WWCSP provides Army AW2 the ability to have their military clothing items modified or altered for wear depending on the extent of the injuries sustained as a result of combat operations and special footwear (commercial boots, athletic shoes, and shoes) as prescribed by the OT or PT. These services are provided to the WWs at no cost to RA Soldiers who continue on active duty, active USAR Soldiers, active ARNG Soldiers, COAR Soldiers, and fit-for-duty Soldiers.

- a. Soldiers requiring uniform modification or alterations must have a DA Form 3078 personal clothing request with the uniform measurements prescribed by an OT or PT. The DA Form 3078 will be signed by unit commander.
- b. Soldiers will take their uniforms and completed DA Form 3078 to the exchange alteration concessionaire. The exchange concessionaire will perform the requested service to meet the OT or PT guidelines for the Soldier’s need. The alteration work on the Soldier’s uniform is completed and ready for pickup in approximately 3 to 5 business days.

c. Soldiers requiring special commercial footwear must have a prescription from an OT or PT and signed by unit commander.

Note. OT or PT clinics at MTFs may buy commercial footwear or commanders can use local purchase using a Government purchase card (OMA funds).

d. COAD, COAR, and fit-for-duty Soldiers (enlisted and officers) will obtain required CB items as prescribed by the OT or PT as follows:

(1) COAD or fit-for-duty Soldiers will continue to receive their CRA to procure CB items from the AMCS.

(2) COAR or fit-for-duty Army enlisted Soldiers will continue to receive their CRA CB items using the issued-in-kind process from the Kentucky Logistics Operation Center.

(3) COAD, COAR, and fit-for-duty officers (RA, USAR, and ARNG) will receive CB items using the gratuitous issue program, personal clothing request, on DA Form 3078 submitted to the AMCS.

e. The WWCSF provides CB items and free modification or alterations to WWs that are in transition, recovery, training, and return-to-duty status (COAD, COAR, and fit-for-duty Soldiers).

13–7. Wounded Warrior Clothing Support Program alterations criteria

a. Alterations to all uniform and clothing items must be designed to fit as best as possible while also ensuring functionality is maintained without significantly changing the outward appearance of the uniform. These are some of the ways in which clothing may be modified or altered by the alteration facility—

(1) Change fastening systems. Replace buttons with hook and loop, laces, or zippers.

(2) Tailor the uniform and clothing to provide the Soldier a proper fit based on medical profile or condition.

(3) Use Velcro or other attachments on the uniform, trouser, or slacks legs, or shirt or coat sleeves because of limb amputation or other medical profile conditions.

b. When modification or alterations are required in areas without an Exchange Concessionaire Medical Command will pay for local modification and alterations as prescribed by the OT or PT.

13–8. Unauthorized alterations

Alterations will not be made if they—

a. Cause a material change from the approved concept of fit of the garment.

b. Change a garment to about the same size as another standard tariff garment, unless size substitutions are made by the source of supply.

Chapter 14

Issue-in-Kind System for U.S. Army Reserve Personal Clothing

Section I

U.S. Army Reserve Central Clothing Distribution Facility

14–1. Extension of Central Clothing Distribution Facility

The DLA–TS has extended the contractor-operated CCDF to serve USAR customers.

14–2. Mission

The mission of the CCDF is to provide USAR enlisted Soldiers authorized issue-in-kind with their total requirements for military clothing, including insignia and decorations, from a single location. Ordering is primarily via the website at <https://www.kyloc.com> with other options for units lacking Internet access. Requests for CCDF website access are processed through the Army Reserve. Orders are configured and shipped directly to units in Soldier kits with name and Army tapes, as applicable, affixed.

Section II

Central Clothing Distribution Facility

14-3. Inventories

The CCDF inventory of new material is owned by DLA-TS. The USAR is billed monthly for issues to their units during the previous month. The billing and billing-validation processes are described in the CCDF management plan.

14-4. Sale of clothing by the Central Clothing Distribution Facility

Only individuals authorized issue-in-kind are supported by the CCDF. The CCDF does not make cash or credit sales. Individuals may buy needed clothing from AMCS facilities or the exchange (internet or mail-order sales options), see chapter 12.

Section III

Issue-in-Kind for U.S. Army Reserve Personal Clothing

14-5. Introduction

The issue-in-kind for personal clothing, when authorized by the Secretary of the Army, is accounted for on DA Form 4886.

a. Entitlements to initial personal clothing allowances are discussed in chapter 4. Replacement of clothing is on a one-to-one basis, such as boots for boots, or OCPs for OCPs. Minimum-usage criteria under which clothing exchanges are authorized is established as 3 years from date of initial issue. Exceptions must be authorized by the unit commander. Replacement clothing is clothing issued to replace lost, damaged, or destroyed clothing. If due to FWT and not fault or negligence of the individual, the replacement clothing is free. If due to fault or negligence, replacement is at the individual's expense.

b. Exchanged or surplus items will be turned in to the support installation for disposition. Before turn in of clothing to the supply system—

- (1) Make proper entries to the expendable or durable document register.
- (2) Remove quantities turned in from the Soldier's DA Form 4886.
- (3) Place a copy of the turn in document in the individual's personal clothing record file.

c. All requests for initial issue or replacement of personal clothing, except for ASU insignia and name plates, will be made using a DA Form 3078. The form will be completed using the online DA Form 3078 System. To access the system, follow the instructions provided in paragraph 1-4g(1). DA Form 3078 will be prepared on an individual basis and filed in accordance with AR 25-400-2. It will be entered in the expendable or durable document register and a copy kept as a suspense document, processed through the CCDF at <https://www.kyloc.com>. Upon receipt of clothing, items will be posted to the expendable or durable document register and the Soldier's DA Form 4886. A copy of the DA Form 3078 will be kept in the supporting document file for 2 years. Personal clothing will not be stocked in unit supply rooms. Personal clothing held in the supply room pending issue or turn in (serviceable or unserviceable) will be tagged with the enlisted Soldier's full name, rank, and DoD ID. Inventory of personal clothing for try on is not authorized. Appropriate measurement procedures are contained in TM 10- 523. Detailed procedures in these publications will be followed as closely as possible to avoid ordering wrong sizes.

d. Insignia, nameplates, and nametapes are ordered through normal supply channels, using DA Form 2765-1. Multiple requests for nameplates or nametapes may be ordered using a single DA Form 2765-1 with an attached alphabetical name roster. Insignias may be stocked in unit supply rooms and issued as required in compliance with paragraph 5-5.

e. OCP nametapes, rank insignia, Army tapes, and U.S. Flags are requested from the CCDF.

14-6. Requests for personal clothing

a. Requests for personal clothing are submitted using DA Form 3078 at <https://www.kyloc.com>. Requests for personal clothing will not be consolidated. One request will be completed for each individual, whether for initial or replacement issue. Approving authority for individual orders will be the commander or their representative. Ordering official and approving official should not be the same individual.

b. USAR units are responsible for ensuring Soldiers possess all CB items before attending advanced individual training. Initial issues for prior service Soldiers will be made by following the procedures above.

Recruiters must ensure all Soldiers are properly in-processed with the USAR unit before any school attendance. Ample time must be allowed for the issue of uniforms.

c. On receipt of items, the unit will—

- (1) Make proper entries to the expendable or durable document register.
- (2) Post-quantities of personal clothing received to the Soldier's DA Form 4886 in compliance with paragraph 14–5. Keep in compliance with DA Pam 25–403.

14–7. Inventory of personal clothing upon receipt

Upon receipt of personal clothing, whether by mail from the CCDF or issued at the AMCS, supply personnel receiving the clothing will immediately inventory the items against the DA Form 3078. If the inventory matches the issued quantity, the person receiving the clothing will sign DA Form 3078. This will be maintained on the Soldier's DA Form 4886 in compliance with paragraph 14–5.

14–8. Army Reserve Soldiers ordered to annual training or service schools

a. Soldiers ordered to AT, active duty for training, or service schools (179 days or fewer) normally have their required or authorized clothing before reporting for training. Soldiers who are short of clothing items may draw from the AMCS at their training site. These procedures apply to the following:

(1) *Unit Soldiers.*

(a) The unit commander will provide a letter stating the Soldier has not received clothing items needed for training.

(b) The unit supply representative will prepare a DA Form 3078 in accordance with paragraph 1–16p.

(c) The DA Form 3078 will be processed through the AMCS to the CSO for authorization and payment.

(d) The Soldier reports to AMCS to receive requested items.

(2) *Individual Ready Reserve or individual mobilization augmentation Soldiers.* See paragraphs 14–16 and 14–17. The school commandant or training unit commander will determine the uniform requirements for course attendance or unit training and complete the DA Form 3078.

b. AMCS will process the requests.

c. This statement will be placed on the front of the DA Form 3078: "I understand that the uniforms issued to me as indicated on the front of DA Form 3078 must be maintained in a serviceable condition by me until the end of my reserve obligation. In addition, I am required to be in possession of these uniforms for all future training periods or upon reporting to my designated mobilization site in the event the reserve forces are mobilized. Failure to do this will result in my being required to reimburse the Government for any missing uniform items." Statement to be followed by the individual's signature, rank, and DoD ID, date signed.

d. AMCS will process requests on a fill or kill basis.

e. A copy of DA Form 3078 and the Soldier's signed statement will be placed in unit file and forwarded to the enlisted Soldier's home station. The unit supply personnel will requisition any shortages from the CCDF. Unit supply personnel will process statement of charges in accordance with AR 735–5 for all items previously issued that the Soldier failed to take to the training site. Personal clothing issued in excess of reserve allowances, in accordance with CTA 50–900, USAR–RPA, will not be withdrawn from the Soldier; however, issue-in-kind replacements are not authorized until the reserve allowances are met.

f. It is the unit commander's responsibility to ensure that issues are properly posted to Soldier's DA Form 4886.

14–9. Accounting for personal clothing

a. Unit or activity commanders will ensure that Soldiers have at all times all items posted to their clothing record in their possession and in a serviceable condition. Commanders will conduct inspections or inventories of personal clothing annually to ensure that all items are on hand and serviceable.

b. Authentication of annual clothing inventory or inspection will be recorded as follows:

(1) The quantity on hand will be recorded in the next available column of DA Form 4886. The authentication will be "PER INV," dated, and signed in the signature or date block of DA Form 4886 by the individual conducting the inventory and/or inspection. If non-supply personnel are conducting the inventory or inspection, they will be at least one grade higher than the individual being inspected.

(2) For items that are not serviceable because of FWT, a turn in will be initiated and a replacement will be immediately requested. An adjustment document, in accordance with AR 735–5, will be initiated for those items that are short or unserviceable because of individual neglect.

(3) Commanders may permit corporals through sergeants major to furnish a statement, as shown in paragraph 1–12e and f that they have all personal clothing items, and all items are serviceable.

c. Replacement of clothing is authorized when–

(1) Personal clothing becomes unserviceable through FWT (see para 14–1b).

(2) Soldier has a weight variance as a result of a medically approved weight control program as prescribed in AR 600–9.

(3) It becomes unserviceable (destroyed or lost) through no fault of the individual.

(4) It is destroyed by order of a medical officer.

(5) It is destroyed by a natural disaster, such as fire or flood.

d. These actions are taken when a new DA Form 4886 is required:

(1) The previous balances are posted in the first column. The unused blocks in the column are ruled out in ink. The date and signature of the person are placed at the bottom of the column. The old DA Form 4886 is kept in accordance with AR 25–400–2.

(2) If DA Form 4886 is lost, the unit commander directs that an inventory of personal clothing be taken. Quantities of items in laundries or in repair shops are counted as inventories on hand. Based on this inventory, a new DA Form 4886 is prepared. The new form is annotated in the Remarks block: Replaces lost form. Quantities on hand within authorized allowances are placed in column one. Items less than the allowance are replaced at the Soldier's expense unless they prove that the items were never issued.

14–10. Accounting for personal clothing when Soldiers are released from initial active duty for training

a. When Soldier returns from IADT, USAR unit, or activity commanders will ensure that personal clothing issued at reception or training center has been posted to DA Form 4886. This posting will be completed no later than the second battle assembly after Soldier returns from IADT.

b. Issues made at the reception or training center on DA Form 3078, will be posted to the Soldier's DA Form 4886 and kept in the individual clothing record, in compliance with AR 25–400–2. If a DA Form 3078 is not received from the training center, initial postings to the DA Form 4886 will be made from the results of a clothing inventory.

c. If clothing becomes unserviceable due to FWT, replacements, not to exceed authorized allowances, are made.

d. When there is a lack of clothing and the clothing record shows that items were issued, Soldiers must replace them at their own expense or sign a statement of charges.

14–11. Accounting for personal clothing when members are released from active duty with a reserve contractual obligation

a. Soldiers having a contractual obligation will bring all their personal clothing with them when they report for their first training assembly. This includes Soldiers arriving after REFRAD duty and those reporting from the USAR control group.

b. Prepare a DA Form 3078 for all replacement and initial issue shortages. The DA Form 3078 will be placed in the Soldier's iPERMS before the Soldier departs for their active duty for operational support (ADOS) assignment. Upon arrival at ADOS assignment station, the ADOS commander will sign and date the new DA Form 3078 for the shortage items. The Soldier will hand carry the DA Form 3078 to the AMCS for issue of the clothing items.

(1) During the first battle assembly a 100 percent showdown inventory will be conducted of all personal clothing in the Soldier's possession. The inventory will be recorded on the Soldier's DA Form 4886 and annotated "No DA Form 3078, account established by inventory."

(2) If the prior service Soldier has all required personal clothing issued from active duty, only the reserve allowance will be accounted for on the DA Form 4886.

(3) When the Soldier's file arrives and the DA Form 3078 or DA Form 4886 reflects that items were issued but not accounted for during the initial inventory, supply personnel will advise the Soldier that replacement will be at the Soldier's expense. This may be accomplished by the Soldier going to AMCS and purchasing the missing items, or unit supply personnel initiating a DD Form 362, in accordance with AR 735–5.

(4) If the Soldier elects to use the DD Form 362, the DA Form 3078 will be marked replacement. Supply personnel will enter in the Remarks block (block 30) this statement: "Statement of charges document number xxxx–xxxx" and the fund cite.

14-12. Accounting for personal clothing on change of status

- a. When the assignment or duty station of a Soldier changes within or between RCs, the personal clothing record will be transferred to the gaining organization. All personal clothing, to include supplemental items in CTA 50-900 will remain in the possession of the Soldier. USAR Soldiers will not be permitted to hand carry clothing records to new unit assignment.
- b. USAR Soldiers discharged to accept a commission or warrant officer appointment will keep authorized clothing in their possession at the time of appointment. Obsolete or unserviceable items will not be replaced. DA Form 4886 will be closed out and annotated with the remark: "Soldier discharged to accept a commission or warrant officer appointment (as applicable). Records will be maintained in accordance with AR 25-400-2."
- c. Soldiers who have or have not satisfactorily completed their obligation or enlistment will keep all personal clothing on separation.
- d. The DA Form 4886 for Soldiers being separated from the unit and transferred to a USAR control group for completion of their reserve obligation will be processed according to the procedures in paragraph 12-10 and table 12-1. A copy of the Soldier's DA Form 4886 and transfer orders will be maintained at the losing unit in the Soldier issue file for 2 years.
- e. Soldiers who are leaving a TPU to come on special active duty for training (SADT) will keep all personal clothing. Personal clothing authorization for SADT personnel is the same as that for the RA.

14-13. Processing turn ins of personal clothing

When no requirement exists, personal clothing is turned in to the DLA Disposition Services at the supporting installation. Accounting procedures will be established to ensure the turn in of personal clothing, if appropriate, is credited to the proper appropriation. Personal clothing unique to the ROTC program will be turned in to the ISD at the supporting installation. In the USAR, turn ins and requests for replacement of personal clothing items will be processed thus—

- a. All personal clothing turned in by, or withdrawn from Soldiers, will be turned in to the installation turn in point on the appropriate documents at the supporting installation. A document number will be assigned to the turn in document from the expendable or durable document register.
- b. When a replacement is requested and the Soldier does not turn in a like item or have a statement from the commander for a size change, and a review of their clothing record shows that an initial issue was made, the appropriate adjustment document will be initiated in compliance with AR 735-5.
- c. In addition to the supply officer and supply sergeant, turn ins may be acknowledged by civilian unit administrators or any commissioned or warrant officer designated, in writing, by the unit commander.

14-14. Personal clothing for U.S. Army Reserve Soldiers departing for 30 days or more of active duty for operational support

Before Soldiers departing for 30 days or more ADOS, the unit commander will—

- a. Conduct a 100 percent personal clothing showdown inspection and record the results of the inspection in the next available column of DA Form 4886. This column will be annotated "INV," dated and signed by the unit commander or their designated representative. When clothing that was previously issued is missing, an adjustment document, in accordance with AR 735-5, will be initiated for the missing items before the Soldier departs for the ADOS assignment.
- b. Prepare a DA Form 3078 for all replacement and initial issue shortages, up to the USAR allowances. The DA Form 3078 will be placed in the Soldier's iPERMS before the Soldier departs for their ADOS assignment. Upon arrival at ADOS assignment station, the ADOS commander will sign and date the new DA Form 3078 for the shortage items. The gaining unit will process the request through the CCDF or, when the unit does not have CCDF access, the Soldier will hand carry the DA Form 3078 to the AMCS for issue of the clothing items.
- c. Ensure that the Soldier's DA Form 4886 is placed in the unit file for forwarding to the ADOS assignment station, keeping a copy for the Soldier's personal clothing record file.

14-15. Personal clothing for U.S. Army Reserve Individual Ready Reserve Soldiers

- a. The commander of the attached training unit or RC activity commander at the supporting installation will—

(1) Inventory the uniform items in the Soldier's possession (if any) when reporting for training, using DA Form 3078 or DA Form 4886. This inventory will be verified by the unit commander, supply officer, or Director of Reserve Component Support (DRCS).

(2) Determine any additional uniform item requirements based on their training orders and unit's scheduled training. The minimum amount of personal clothing considered essential by the attached unit commander or DRCS for completing IRR training requirements will be requested. The issue of ASUs and component items will be made only if required for the performance of duty or if the training orders indicate the Soldier is required to complete an official DA photo in accordance with AR 640–30 while on training.

(3) Prepare an additional DA Form 3078 in six copies and annotate USAR and IRR in the category block. For IRR or IMA Soldiers, put this statement in block 30, "Authorized by HRC (AHRC–ALL–S), Fort Knox, Kentucky, 40121–5205." The sixth copy of DA Form 3078 is maintained by the requesting activity as a suspense copy.

(4) The Soldier will be required to sign the statement as shown in paragraph 14–8.

b. The IRR Soldier will take the original and four copies of DA Form 3078 to the AMCS for issue of personal clothing. AMCS issues the clothing and keeps the original and three copies. The fifth copy is given to the Soldier as a receipt. If additional copies are needed, they will be provided by the unit commander or the DRCS.

(1) AMCS will process the requests on a case-by-case basis. Procedures for processing the clothing request are in chapter 5. Funds are charged to RPA.

(2) The unit commander will forward one copy of each DA Form 3078 containing the statement in paragraph 14–9b(3), and a copy of the Soldier's training orders to Commander, HRC, Fort Knox (AHRC–ALL–S), 1600 Spearhead Division Avenue, Fort Knox, Kentucky, 40121–5205.

c. On completion of training, Soldiers will keep all clothing items.

d. IRR Soldiers attached to units or other DA organizations in an inactive duty training without pay status (points only) may be issued uniforms as required for the performance of such training as in paragraph 14–16. The approval authority for such issue is the commander of the unit of attachment.

e. Exchange of obsolete or damaged uniforms may be made as discussed in paragraph 14–18.

14–16. Issue-in-kind for Individual Ready Reserve or individual mobilization augmentation Soldiers

a. Replacement of obsolete, damaged items due to FWT will be made as follows:

(1) Obsolete or damaged uniforms will be turned in to the unit supply. Unit supply sergeant will prepare DA Form 3078 for replacement of the items in accordance with paragraph 1–6p. For IRR or IMA Soldiers, put this statement in block 30, "Authorized by HRC (AHRC–ALL–S), Fort Knox, Kentucky, 40121–5205."

(2) The Soldier will report to AMCS for issue of the items.

(3) The AMCS will process the request on a case-by-case basis and keep the original and three copies. The Soldier will keep one copy and furnish the unit commander with two copies of the DA Form 3078.

(4) IMA unit commanders will keep a copy of DA Form 3078 and DA Form 4886 for IMA Soldiers. These forms will be maintained in accordance with AR 25–400–2.

(5) A completed copy of the DA Form 3078 or a current copy of DA Form 4886 will be sent to the Commander, HRC, (AHRC–ALL–S), 1600 Spearhead Division Avenue, Fort Knox, Kentucky, 40121–5205.

(6) After the wear out date on obsolete items has been achieved, the obsolete items will be replaced. This does not include optional items.

(7) The unit supply will dispose of all obsolete or damaged uniform items in accordance with established disposal procedures.

b. Lost items will be replaced by the Soldier.

14–17. Soldiers of the Active Guard Reserve and active components assigned to troop program units

a. Upon arrival of AGR or active duty Soldiers to a USAR TPU for permanent duty, the commander of the TPU will direct an inspection and inventory of all personal clothing of each such Soldier. Shortages of initial issue items will be requested within 15 days of assignment (see para 14–19c). Missing clothing items, other than initial issue shortages, will be replaced within 30 days of assignment at the expense of the Soldiers involved.

b. At the commander's discretion, corporals through sergeants major may furnish statements, as shown in table 1–2, certifying that they have all the required clothing in accordance with CTA 50–900, and that all items meet the appearance standards of AR 670–1.

c. Enlisted AGR Soldiers begin accruing the CRA, and they are not authorized issue-in-kind replacement of personal clothing, after they complete 6 months (180 days) of their active duty tours and receive the CRA. AGR or active duty Soldiers receiving the CRA must buy replacement and new-issue personal clothing.

14–18. Unauthorized alterations

Commanders will not permit unauthorized alterations to personal clothing. Authorized alterations are identified in tables 13–1 and 13–2. Replacement for items that have undergone unauthorized alterations, such as formfitting, pegging, or tapering, will be replaced at the expense of the Soldiers involved.

14–19. Authorized alterations

USAR enlisted Soldiers in remote sites are authorized to obtain alterations at local shops, and they will receive reimbursement for these alterations—

a. Alterations on uniforms issued from the CCDF will be obtained locally, using a Government purchase card per unit commanders guidance.

b. Alterations on uniforms bought at AMCS:

(1) The U.S. Army Soldier and Biological Chemical Command will request funds in the budget to cover the cost of the alteration of DLA–TS ASUs bought at AMCS for USAR enlisted Soldiers in remote sites.

(2) Commanders will ensure that enlisted Soldiers are measured, that the measurements are entered on each Soldier's DA Form 3078, and that the form is sent to the exchange.

c. USAR procedures for the alteration of DLA–TS ASUs for USAR enlisted Soldiers in remote AMCS sites are as follows:

(1) The AMCS will prepare an alteration slip for each Soldier a DA Form 3078, including the Soldier's name on the alteration slip. Alteration slips must be processed within 90 days.

(2) Commanders will send alteration slips to the AMCS for reimbursement.

(3) The AMCS will issue checks to the order of the Soldiers involved (in amounts up to the authorized cost of alterations in paragraph 14–20c(2)), and it will forward the checks to the appropriate units of the Soldiers.

d. USAR local alterations made at Government expense or for reimbursement are limited to these and cannot exceed AAFES alterations costs—

(1) Coat-sleeve hemming.

(2) Trouser hemming.

(3) Slack hemming.

(4) Skirt hemming.

(5) Waist alteration.

(6) Seat alteration.

(7) Any additional alterations required to make the uniform fit in accordance with AR 670–1, cost to be determined.

14–20. Clothing for Soldiers enrolled in the Reserve Officer Training Corps Simultaneous Membership Program

a. Soldiers enrolled as officer trainees under the ROTC Simultaneous Membership Program according to AR 601–210 will be issued their personal and OCIE initial clothing allowances listed in CTA 50–900 in the same manner as other USAR Soldiers.

b. If personal clothing or OCIE issued to ROTC Simultaneous Membership Program Soldiers becomes lost, damaged, stolen, or destroyed, the USAR unit (to which the ROTC Simultaneous Membership Program trainee is assigned) will submit the appropriate adjustment document— DD Form 200 (when an investigation is required) or DD Form 362 (when liability is admitted)— as required by this regulation and AR 735–5, then the unit will send the form through command channels to the appointing or approving authorities and inform the Soldier and cadet that the AMCS is an authorized source to procure replacement items of OCIE.

14–21. Exchange or replacement of personal clothing for Soldiers of U.S. Army Reserve troop program units

a. Exchange of personal clothing. This is authorized when—

(1) USAR TPU Soldiers complete at least 3 years USAR service from the date of the initial clothing issue. For prior service Soldiers, the date of the initial clothing issue is further defined as the date when a Soldier is brought up to full USAR clothing authorization. This establishes 3 years as the minimum-usage criteria under which clothing exchanges will be authorized. This does not, however, constitute a blanket authorization to exchange all items of personal clothing simply because they are 3 or more years old.

(2) Items become unserviceable through FWT.

(3) Items are required because of size change (gain or loss of weight).

b. Replacement of personal clothing. This is authorized when:

(1) Items become lost, damaged, or destroyed through no fault or negligence of the requesting Soldier. A memorandum signed by the unit commander is required in compliance with AR 735–5, in lieu of other adjustment documents.

(2) Items are destroyed by order of a medical officer. A statement signed by the medical officer or unit commander is required in compliance with AR 735–5, in lieu of other adjustment documents.

(3) Items become lost, damaged, or destroyed through fault or negligence of the requesting Soldier and are adjusted by adjustment documents (DD Form 362) in compliance with AR 735–5.

c. Exchange of personal clothing items.

(1) When a Soldier informs the unit of a need for an exchange of clothing, the unit supply sergeant or specialist will make a determination of serviceability before making a recommendation for exchanging and requesting the replacement item or items.

(2) Items that do not meet the minimum-usage criteria will not be requisitioned without the signature of the unit commander.

(3) After the requested clothing items are received at the unit, the exchange of clothing will take place between the supply sergeant or specialist and the Soldier.

(4) Copies of DA Form 3078 requesting clothing exchanges are filed in the personal clothing records of the requesting Soldiers, and the copies serve as indicators to determine and prevent excess clothing exchanges.

(5) Unit supply sergeants or specialists prepare DA Form 3078 in accordance with paragraph 1–6p.

d. Replacement of personal clothing items.

(1) The unit supply sergeant or specialist will complete DA Form 3078 in compliance with paragraph 14–14 and will check “replacement” in block 12.

(2) Clothing replacement requires statements justifying such transactions in all cases. The statement can be included on the DA Form 3078, or it can be in the form of an attached memorandum or statement signed by the unit commander or medical officer. Adjustment documents in accordance with AR 735–5, including document numbers, may also be attached.

Chapter 15

Clothing Support to the Army National Guard

Section I

Army National Guard Central Clothing Distribution Facility

15–1. Establishment

The DLA–TS has established a contractor-operated CCDF to serve ARNG customers.

15–2. Mission

The mission of the CCDF is to provide ARNG enlisted Soldiers with authorized issue-in-kind items with all their requirements for military clothing, including insignia and decorations, from a single location. Ordering is available at <https://www.kyloc.com>, with other options for units lacking Internet access. Requests for CCDF website access are processed through the appropriate USPFO or logistics readiness centers. Orders are configured and shipped directly to units in Soldier kits with name and Army tapes affixed as applicable.

15–3. Inventories

- a. The CCDF inventory of new material is a property of DLA–TS. States are billed monthly for issues to their units during the previous month. The billing and billing-validation processes are described in the CCD management plan.
- b. The CCDF inventory of used, recyclable garments are a property of the NGB. Recycling is centrally funded by the NGB, and issues to units are made as free issues.

15–4. Sale of clothing by the Central Clothing Distribution Facility

The CCDF supports only individual Soldiers authorized for issue-in-kind. The CCDF will not make cash or credit sales. Soldiers needing to buy clothing will use AMCS facilities, exchange internet, or mail-order sales (see chap 12).

Section II

Issue-in-Kind of Personal Clothing for Members of the Army Reserve National Guard

15–5. Introduction

- a. The ARNG will use the issue-in-kind system in the replacement of personal clothing.
- b. Entitlements to initial allowances are discussed in chapter 4.
- c. The retention and disposition of clothing is discussed in chapter 12.
- d. Alterations will be made at Government expense under the provisions of chapter 13.
- e. ARNG requirements for personal clothing are provided by a CCDF operated by a DLA–TS contractor. Policy and procedures for the operation of the CCD system are established by NGB and disseminated to the states in a CCD Management Plan and to units in a CCD User Handbook. The states tailor the User Handbook to their unique requirements by insertion of state policies into its appendix D, and the states then distribute the handbook to their respective units.
- f. Each state appoints a CCD state administrator, who is responsible to the USPFO or the director of logistics for administration of the CCD program within the state.
- g. The units submit their requests for personal clothing directly to the CCDF via the Internet, using the CCDF website at <https://www.ngmmc.com> or <https://www.ngmmc.ngb.army.mil>. The units use the electronic DA Form 3078. Units lacking Internet access can order by facsimile, email, telephone, or U.S. Mail. The toll-free voice number is (888) 255–1131, and the toll-free fax number is (888) 356–2443.
- h. Personal clothing will be accounted for on DA Form 4886. The overprinting of that form is authorized. The unit commanders or their representatives may acknowledge turn ins.
- i. Neither ARNG officers (including warrant officers) nor ARNG enlisted Soldiers receiving a CRA are authorized for support by using the issue-in-kind or the CCDF. Unit commanders will establish an expendable- or durable document register for personal clothing not available through the CCDF. Completed document register pages will be filed in compliance with AR 25–400–2. The last name of the Soldier for whom the clothing is ordered will be shown in column N, “remarks,” of the document register.

15–6. Requests for personal clothing

- a. For an ARNG unit to receive support from the CCDF, these three actions must take place:
 - (1) The CCD state administrator or a designee must register the unit’s DoD Activity Address Code with the CCDF.
 - (2) The CCD state administrator or a designee must have a user ID and a password.
 - (3) The CCD state administrator or a designee must allocate ordering authority to the unit.
- b. The ordering process employed by ARNG units is described in detail in the CCD User Handbook. Units with Internet access will order via the Internet.
- c. Most orders will be processed for single Soldiers. All items required for one Soldier can be ordered on a single order, and the items will be shipped together as a Soldier kit.
- d. The CCDF ordering system will also accept bulk orders from any DoD activity address code or from other units authorized to order from the CCDF. However, the CCDF will issue no more than 35 shoulder-sleeve insignias, and no more than 10 of each of any other item on a single bulk order.
- e. Federal awards, decorations, and insignia are available by requisition from the CCDF. States are encouraged to make and disseminate policy to restrict bulk orders.

f. Requests for special-measurement clothing or footwear will be processed as outlined in chapter 5 of the CCD User Handbook.

g. ARNG units are authorized to establish an on-shelf inventory of rank and organization shoulder insignia. Inventory is not to exceed five sets of rank insignia per enlisted grade, subdued, and brass, and 25 of each applicable type of shoulder-sleeve insignia. Other items of personal clothing may be stocked if specifically permitted by state policy.

h. Disposition of DA Form 3078 will take place thus—

(1) The original will be posted to the appropriate DA Form 4886 and filed in the individual's clothing file.

(2) The DA Form 3078 will be destroyed after review by the Command Supply Discipline Program inspection team.

15–7. Army National Guard members attending annual training, Army area school, or Army service schools other than initial activity duty for training

a. Unit commanders are required to ensure that ARNG members are equipped with all required personal clothing from ARNG stocks before their departure for attendance at AT, National Training Center, Joint Readiness Training Center, overseas-deployment training, Army area school, or Army service school.

b. The season, the location of the school, the duration of the training, and the nature and type of schooling or training will determine the type and quantity of clothing to be taken to or issued at the school or other installation. Prior coordination by the State adjutant general with the commandant of the school or other organization is required to ascertain the specifics or special clothing requirements. Such coordination will ensure that the required clothing will accompany the Soldiers or will be available for issue at the destination.

c. When ARNG enlisted members arrive for AT, Army area schools, or Army service schools without adequate clothing, senior commanders are authorized to issue the required items or to replace unserviceable items from the AMCS on a case-by-case basis thus—

(1) For each such Soldier the unit supply sergeant or specialist of the student's company or detachment will prepare a DA Form 3078 and will provide the AMCS with five copies of the DA Form 3078, with two copies of the Soldier's orders attached.

(2) All such ARNG members will present their ID, the five copies of the DA Form 3078, and two copies of their orders showing the accounting classification to be charged at the AMCS.

(3) It is the unit commander's responsibility to ensure that issues made under the provisions of paragraph 14–8f be properly posted to the Soldier's DA Form 4886.

(4) DA Form 4886 and DA Form 3645 (Organizational Clothing and Individual Equipment Record), accompanying the student or forwarded to the school by other means, will be returned to the ARNG unit to which the Soldier is assigned.

(5) The USPFO will reimburse Army area schools or Army service schools that require ARNG students or cadets to have or additional quantities of items not authorized to the ARNG.

(6) Clothing and equipment above school requirements and in the possession of the student upon reporting to the school will not be withdrawn by the school or installation. The replacement of excess items that become unserviceable is not authorized. Unserviceable excess items will be turned in to the USPFO.

d. It is mandatory that special-measurement clothing and footwear be requisitioned by the USPFO for issue to ARNG enlisted members before their departure for an Army area school or Army service school. Such items are not stocked at Army installations.

15–8. Accounting for personal clothing

a. DA Form 4886 will be used to account for all personal clothing issued to Soldiers who are eligible for support through the issue-in-kind system.

b. Unit commanders will ensure that Soldiers always have in their possession and in a serviceable condition those items posted to their clothing records. Commanders will conduct inspections of personal clothing at least once annually to ensure that all items are on hand and serviceable. The date of the last inspection will be recorded in the "remarks" block. In the space provided, the members conducting the inspection will print their respective names, rank, and date of inventory and will sign in pencil. Items lost, damaged, or destroyed through neglect or by means other than those indicated in paragraph 15–9 will be adjusted in compliance with AR 735–5. Commanders may permit corporals through sergeants major to furnish statements in lieu of inspection that they have all their clothing, and that all items are serviceable.

c. These actions are taken whenever a new DA Form 4886 is required:

(1) The previous balances will be posted in ink on the new form in the first column. The unused blocks in the column will be ruled out in ink. The signature of the member, along with the date, will be placed at the bottom of the column. The old DA Form 4886 is kept with the Soldier's personal clothing record until the next Command Supply Discipline Program review.

(2) If a DA Form 4886 becomes lost, the unit commander will direct that an inventory of that Soldier's personal clothing be executed. Quantities of items in laundries or repair shops will be inventoried as on hand. Based on that inventory, a new DA Form 4886 will be prepared. The new form will be annotated in the "name" block with the words "replaces lost form." Quantities on hand within authorized allowances are placed in column 1. Items less than the allowance are replaced at the Soldier's expense, unless the Soldier proves that the items were never issued.

d. To track the frequency of exchanges or replacements which do not result in a change of an item recorded on the ARNG Soldier's DA Form 4886, these actions are required:

(1) In the "Date of Last Issue" (Date of Last Issue) column for the affected item, write in pencil the Julian date of the exchange and in parentheses the quantity exchanged. (Example: "0273 (1)" would denote an exchange of one item on 30 September).

(2) Maintain a maximum of three Date of Last Issue entries for each type of item. When a fourth exchange takes place, erase the oldest entry, and replace it with the current entry.

15-9. Accounting for personal clothing on change of status

a. When the assignment or duty station of an enlisted Soldier changes within or between states, ARNG units, or the USAR, the personal clothing record will be transferred to the gaining organization. All personal clothing (not including OCIE) will remain in the possession of the Soldier.

b. Members discharged from the ARNG will return personal clothing upon separation, as prescribed by table 12-1 and by the CCD User Handbook. DA Form 4886 will be adjusted to show clothing items kept, and it will be filed in the Soldier's unit file.

c. ARNG enlisted Soldiers placed on orders in excess of 179 days will keep all their personal clothing. These members will begin to receive a CRA after the sixth month of continuous active duty, and they will no longer be authorized for issue-in-kind replacement of personal clothing. After the sixth month of continuous active duty, DA Form 4886 is no longer required for those members. However, they must continue to maintain CB allowances, and they must remain subject to the annual showdown inventory unless they are corporals or above, and the commander allows them to furnish statements in lieu of inspection that they have all their clothing, and that it is serviceable.

d. Soldiers discharged from the RA and enlisting in the ARNG within 90 days will report to their units with all personal clothing in compliance with paragraph 12-1e and the personal clothing receipt and statement described in paragraph 12-10. Members reporting to their units without that personal clothing receipt and statement will be required to adjust for the missing clothing (see AR 735-5).

e. Soldiers who have completed their obligation will have their DA Form 4886 filed in their unit files. If a member returns to the ARNG within one year, items kept will be inventoried and checked for serviceability. Missing items of the kept personal clothing will be replaced at the member's expense.

f. Officers and warrant officers transferring into the ARNG, along with enlisted Soldiers who become commissioned as officers or appointed as warrant officers in the ARNG, are not authorized for issue-in-kind replacement of personal clothing items. DA Form 4886 is not required for those members. However, they must continue to maintain their CB allowances, and they will remain subject to the annual showdown inventory unless the commander allows them to furnish statements in lieu of inspection that they have all their clothing, and that it is serviceable.

15-10. Turn ins

a. Serviceable turn ins of clothing cost-effectively recyclable will be made as prescribed in the CCD User Handbook. States may establish in-state recycling programs for other garments if such programs comply with NGB guidance found in the CCD Management Plan. Other clothing turned in by Soldiers will be processed as prescribed by the CCD User Handbook.

b. All turn ins will be documented on DA Form 3161. One copy of the form will be kept in the clothing record of any Soldier involved.

c. Turn ins of used or obsolete new items of clothing not cost-effectively recyclable will be marked as prescribed in the CCD User Handbook and returned to the respective Soldiers for disposition.

Unserviceable clothing will receive a FWT determination by a RA or ARNG officer as prescribed in paragraph 12–1 of this regulation and in 32 USC 710(f).

d. Items determined to be unserviceable for reasons other than FWT will be accounted for by an appropriate adjustment action under the provisions of AR 735–5.

15–11. Exchange or replacement of personal clothing

a. Exchange of personal clothing is authorized when—

(1) ARNG enlisted Soldiers complete at least 3 years of service in the National Guard. 3 years is the minimum-use criterion under which clothing exchanges will be authorized.

(2) Items become unserviceable through FWT.

(3) Items are needed because of size change (such as a gain or loss of weight).

b. Replacement of personal clothing is authorized when:

(1) Items are destroyed or lost through no fault of the Soldier.

(2) Items are destroyed by order of a medical officer.

(3) Accountable records for items are adjusted in accordance with AR 735–5.

c. The following method will be used to exchange clothing: The Soldier informs the unit of the need to exchange clothing and presents the old garment to a unit representative for a FWT determination. If an ARNG or active officer is not available to make an FWT determination, the unit representative will receive the turn in from the Soldier and prepare a DA Form 2402 (Maintenance Tag) or DA Form 3161 as prescribed by the CCD User Handbook. The unit will hold the clothing pending an FWT determination by an ARNG or active officer. The unit representative will submit an exchange clothing request to the CCDF in compliance with paragraph 15–6. After the requested clothing arrives at the unit, the exchange of clothing will take place. A pencil notation of the exchange will be posted to the Soldier's DA Form 4886 as prescribed by the CCD User Handbook. Turn ins are made in compliance with paragraph 15–10.

d. The following method will be used to replace clothing: The Soldier informs the unit of the need to replace clothing. A unit representative will determine a replacement of clothing, in compliance with paragraph 15–11b and will adjust DA Form 4886 as necessary. A unit representative will submit a replacement clothing request to the CCDF in compliance with paragraph 15–6. After the requested clothing arrives at the unit, the issue of clothing will take place. DA Form 4886 will be adjusted to show new on hand quantities. A pencil notation of the issue is posted to the Soldier's DA Form 4886 as prescribed by the CCD User Handbook.

e. The CCDF will recycle those types of personal clothing that can be cost-effectively recycled and can meet the serviceability standards established by the NGB. The cost of recycling will be centrally funded, and issues will be made without charge to the requestors.

Chapter 16

Evaluations and Inspections

16–1. Deputy Chief of Staff, G–4

The DCS, G–4 will establish internal controls to provide reasonable assurance that obligations and cost are in compliance with applicable laws; that funds, property, and other assets are safeguarded against waste, loss, unauthorized use, or misappropriation of revenues, and that expenditures are properly recorded and accounted for.

16–2. Evaluations

The Headquarters, TACOM, CSO is the authorized agent responsible for the conduction of evaluations of the exchange-operated AMCS.

a. Garrison senior commanders and the exchange general managers will provide administrative and technical help as the CSO may request for the evaluation.

b. The CSO will furnish an annual evaluation report through the exchange headquarters for the general managers and the evaluated facilities. The evaluation report will contain the CSO's findings and recommendations. The CSO will continue to monitor and follow up on incomplete actions related to the evaluation.

c. The CSO will use professional judgment and will explicitly identify the key internal controls essential to the operation of the AMCS.

d. The CSO will develop an internal control evaluation and will publish it as an appendix to this regulation to be used by managers in evaluating key internal controls.

16–3. Internal controls

- a.* Formally designed procedures– annual inventories and reconciliations.
- b.* Checks and balances– limitation of access.
- c.* Recurring reports, internal reviews, supervisory monitoring, and performance reviews.
- d.* Physical devices– secured installations, facilities, storages, files, and safes.
- e.* Key internal controls are essential to ensure that processes operate as intended, and that resources are safeguarded from fraud, waste, and misuse.

16–4. Purpose

This regulation provides the following internal controls which directly relate to the General Accountability Office standards for internal controls:

- a.* Communicate guidance throughout the organization.
- b.* Contribute to the good management of Government resources, including human capital.
- c.* The controls of this regulation will not exceed the benefits derived; however, a certain amount of risk will be accepted in this regard.

Appendix B

Internal Control Evaluation

B-1. Function

The function of the process is to evaluate the efficiency and effectiveness of the issue and sale of personal clothing.

B-2. Purpose

The purpose of this evaluation is to help users in evaluating their key management controls. It is not intended to cover all controls. Key internal controls are essential for ensuring that processes operate as intended, and that resources are safeguarded from fraud, waste, and misuse.

B-3. Instructions

Answers must be based on the actual testing of key internal controls by utilizing one of four test methods which are Inquiry, Observations, Examination, or Re-performance. Inquiry regarding a control's effectiveness does not, by itself, provide sufficient evidence of whether a control is operating effectively and generally is corroborated through other types of control tests (observation or inspection). Answers that indicate deficiencies must be explained and corrective action identified in supporting documentation. These internal controls must be evaluated at least once every 5 years. Certification that the evaluation has been conducted must be accomplished on a DA Form 11-2 (Internal Control Evaluation Certification).

B-4. Test questions

- a. *Military clothing: general information and/or overall appearance.*
 - (1) Are the clothing displays neat and attractive (see this regulation)?
 - (2) Are dressing rooms accessible and serviceable (doors close, mirror, and chair) (see this regulation)?
 - (3) Are sizes and prices clearly displayed (see this regulation)?
 - (4) Are garments displayed on mannequins/forms properly fitted (see this regulation), dust-free, and conform to AR 670-1?
- b. *Review documentation and/or DA Form 3078.*
 - (1) Do enlisted Soldiers receive alterations of DLA-TS items at no cost (enlisted only)?
 - (2) A review of alteration certificates for compliance (see EOP 40-4, 8-27).
 - (3) Do alteration shop workers separate DLA-TS from exchange alteration certificates before logging them into the alteration certificates and the Alteration Shop Control Sheet (see EOP 40-4, 8-27)?
- c. *Alterations.*
 - (1) Do enlisted Soldiers receive alterations of DLA-TS items at no cost (enlisted only)?
 - (2) A review of alteration certificates for compliance (see EOP 40-4, 8-27).
 - (3) Do alteration shop workers separate DLA-TS from exchange alteration certificates before logging them into the alteration certificates and the Alteration Shop Control Sheet (see EOP 40-4, 8-27)?
- d. *Supply management.*
 - (1) Are PQDRs for defective merchandise received by the exchange military clothing reported to the CSO (see this regulation)?
 - (2) Were the PQDRs submitted within 30 days after identifying the quality deficiency (see this regulation)?
 - (3) Is the merchandise for all PQDRs held until receipt of disposition instructions, and is all merchandise properly identified to reconcile with the PQDR documents.
 - (4) Has the exchange manager received disposition instructions for PQDRs and disposed of the merchandise as prescribed by the disposition instructions?
 - (5) Are requests for supply discrepancy reports submitted by the exchange to the CSO within 45 days (see EOP 40-4)?
 - (6) Has DD Form 1348-1A (Issue Release/Receipt Document) been reviewed, and have discrepancies been noted (see EOP 40-4)?
 - (7) Has the exchange submitted requests for full-time equivalent to the CSO for disposition (see EOP 40-4)?

(8) After reviewing requisition documents, is the AMCS ordering process in compliance with exchange directive of requisitioning weekly (see EOP 40–4)?

e. Merchandising.

(1) Are condition code B clothing items received (see this regulation)?

(2) Are the condition code B clothing items displayed separately from the new clothing items (see this regulation)?

(3) Are the condition code B clothing items clearly marked and identified with correct pricing (50 percent off the federal regulated price) (see this regulation)?

(4) Are the condition code B clothing items depreciated after 60/90 days and credited to the 109–12 account (see this regulation)?

(5) Are the condition code B standards enforced when exchanges are made at the Clothing Sales Store (see this regulation)?

(6) Does any optional or non-uniform display distract the view of DLA–TS items (see EOP 40–4)?

(7) Does the AMCS transfer DLA–TS merchandise in accordance with EOP 40–4?

(8) Is there an exception to policy on file for transfers to non-appropriated facilities (see EOP 40–4)?

f. Organizational clothing and individual equipment.

(1) Is the AMCS manager aware of the policy outlined in the memorandum of agreement (MOA) between HQDA and Headquarters, AAFES on stocking OCIE items (see para 1–4b (1)).

(2) Was there an attempt to contact the CIF to verify list with their inventory (see this regulation)?

(3) Does the CIF maintain a stock of items available at the AMCS (see this regulation and EOP 40–4)?

(4) Is there an approved letter on file and up to date for the items of OCIE stocked (see this regulation and MOA)?

(5) Do the items on the shelf match the letter (see this regulation and MOA)?

(6) Are there MOS-specific OCIE and/or non-MOS-specific OCIE on sale?

B–5. Supersession

This evaluation replaces the evaluation previously published in AR 700–84, dated 22 July 2014.

B–6. Comment

Help to make this a better tool for the issue and sale of personal clothing by submitting comments to the DCS, G–4 (DALO–SPT), 500 Army Pentagon, Washington, DC, 20310–0500.

Glossary of Terms

Army and Air Force Exchange Service

The AAFES is a joint command of the Army and Air Force, under the jurisdiction of the Chiefs of Staff of the Army and Air Force, which provides exchange and motion picture services to authorized patrons.

Army military clothing store

A designated facility where Army uniforms, components, and insignia items are kept for sale or issue to authorized persons.

Central clothing distribution

A process involving the supplying of ARNG requirements for issue-in-kind personal clothing, insignia, and decorations from a single distribution facility. Items are ordered by units directly from the distribution facility and shipped directly from the facility to units as Soldier kits.

Central clothing distribution facility

A distribution center operated by a DLA–TS contractor that receives orders for personal clothing, insignia, and awards directly from units, customize uniforms by affixing specified insignia and ships by small parcel carrier to the requesting unit.

Clothing initial issue point

A facility normally located at an installation that serves as a reception station for new Soldiers being processed for training in the RA.

Clothing monetary allowance system

A system for furnishing the individual Soldier initial clothing allowance on an item basis.

Clothing replacement allowance

Funds allocated to Soldiers annually for replacement by purchase of personal uniform clothing by the individual.

Continuous active duty

An interim of 3 months or less between date of discharge or REFRAD and date of reenlistment or recall to active duty.

Fair wear and tear

Loss or impairment of appearance, effectiveness, worth, or utility of an item that has occurred solely because of normal and customary use of the item for its intended purpose.

Gratuitous issue

An issue or replacement of personal clothing, not more than authorized allowances, without cost to an enlisted Soldier.

Individual equipment

Personal clothing and equipment issued for exclusive personal use of an individual.

Initial clothing allowance

Prescribed items and quantities of personal type clothing and service uniforms, with component items, furnished to enlisted members when entitled to an initial issue of clothing allowance.

Inventory

An inventory is a physical count of property on hand.

Military-property custodian

Agent of a school who maintains accountability and responsibility for Army property. He or she is authorized to requisition, receive, store, issue, account for, and perform administrative functions required in connection with using Government property furnished the institution by the Army or the Air Force or both in connection with ROTC training. The agent may be military or civilian.

Military-property specialist

A bonded agent of a school who is authorized to requisition, receive, store, issue, and account for property and perform administrative functions connected with the use of Government property provided to the school by the DA for JROTC training.

Non-prior service

Non-prior service for persons enlisting in USAR; never served or have served less than 180 days of Active Duty and are not MOS qualified.

Non-recoverable items

Personal clothing of enlisted members not to be turned in or accounted for on termination of service. Non-recoverable personal clothing items are headgear, belts, boots, buckles, underwear, necklace, neck tabs, neckties, gloves, handbags, towels, scarves, handkerchiefs, shoes, socks, t-shirts, shorts, and all insignia. As an exception, headgear, gloves, and handbags may be recovered when in the best interest of the Government and when directed by HQDA (see this regulation). For the ARNG and USAR, these items may be replaced free of charge if the FWT criteria are met. Replacement is at the expense of the Soldier if the items become lost, damaged, or destroyed through the fault or negligence of the Soldier.

Organizational Clothing

Special-purpose individual clothing required for support of personnel to accomplish assigned duties will be carried as organizational issue. Organizational clothing includes special distinctive uniforms such as those required for Service bands or mounted troops. No monetary credits or payments are provided to Servicemembers for obtaining or replacing these items, since they are furnished under the issue-in-kind system.

Personnel

Individuals required in either a military or civilian capacity to accomplish the assigned mission (see JP 1-0).

Recoverable items

Personal clothing of enlisted members to be turned in or accountable for on termination of service. Recoverable personal clothing items are duffel bags, combat uniform components (coats and trousers), service uniform components (coats, slacks, trousers, skirts, long- or short sleeve shirts) physical fitness uniform components (jackets/pants) and all-weather coats. For the ARNG and USAR, these items may be exchanged if FWT criteria are met. Replacement is at the expense of the Soldier if the items become lost, damaged, or destroyed through the fault or negligence of the Soldier.

Reserve Officer Training Corps Simultaneous Membership Program

A voluntary officer status for eligibility. The program permits eligible enlisted members assigned to a TPU of the USAR to enter the advanced MS I and IV course of the ROTC Program. It also permits eligible ROTC advanced course cadets to be assigned to a TPU and to serve as officer trainees.

Service uniform

A uniform prescribed for wear by Army members on routine duty. Different from dress, utility, or field-combat uniforms.

Supplemental allowances

Items and quantities of personal clothing authorized for issue to enlisted members to supplement initial allowances. They are given to Soldiers whose assigned duties require more items than are included in initial issues. Is also given to those whose assigned duty requires special items of personal clothing not normally issued to the majority of enlisted members.

Unit commanders

Commanders of companies, batteries, or similar units, along with correctional officers.
